Gerald R. Ford **On First Vacation Staff Takes Over**

With the boss away enjoying his first vacation since his election to Congress, the office crew experienced its first solo flight. We were pretty much excited over the prospect of acting as junior deputy Congressmen for a week, but we soon learned we are incapable of instilling the least flicker of fear and trembling in the hearts of visiting local A & P Store was held up constituents. The combined ef-forts of the four members of the night about 9 o'clock just as he readily resigned ourselfs to the give them the day's cash. fact that as far as our constituents are concerned, there's no substitute for Jerry Ford.

But despite the fact that we're only second best in the eyes of the citizens of the district, each one of us feels a strong personal interest in each and every constituent who deals with our office In our day to day routine of typing up letters in response to your many requests, and fulfilling the hundred and one other services you have a right to expect from your congressional office, we seldom have an opportunity to tell you what we think as all this correspondence and official business passes through our hands.

We wouldn't be human if we didn't gripe. . . . and we do our share of it, there's no question about that. We get madder than blue blazes when we receive re-time, was Jack Condon and quests for farmer's bulletins from Fred Beckett, Condon in the back an individual who forgets his ad-room and Beckett in the base-dress. And you may not believe ment. Buck was just going to this, but some people write the Congressman and never in the course of the letter tell him what they want. We realize that it's

Footwear For the Entire Family Lowell, Mich.

It's only fair to warn you.

When you try a new Buick with the sensational Twin-Turbine Dynaflow Drive.* you'll tingle all over with thrill.

You'll sweep your speedometer needle from zero to 30 mph so quickly, you won't have time to breathe but twice. You'll move from a standing start to legal speed so quietly, you'll practically hear your heart beat. You'll experience such complete and utter smoothness every step of the way, you'll be wholly relaxed, refreshed, and ready for more.

This is not dream stuff. This is real.

This is what actually happens when you're at the wheel of a new 1953 Buick with To Dynaflow.

Twin Turbines in the Dynaflow unit, instead of just a single one-in addition to other engineering advances - make the tremendous difference.

So you feel a firmer and more immediate "take hold" - get far faster getaway, new

quiet and efficiency, plus infinite smoothness to and through every speed range.

There's a lot more to be had, of course, in these great new Buicks. Higher horsepowers and compression ratios. A still finer ride. Easier handling. Improved visibility. More comfort and richer interiors.

But start with take-off - the greatest in Buick's fifty great years-and learn the rest of the story from there. Can you drop in on us this week?

*Standard on Roadmaster, optional at extra cost on other Series.

All set for Summer AIRCONDITIONER for 1953 SUPER and ROADMASTER Riviera and Sedan models, available now at extra cost.

For Farm and Home

Profits in Roadside Stand CARMERS will find it profitable to ell their produce directly to conwith bow saw attachment, and mers, particularly if they are located acent to a well-traveled highway. There, in a roadside stand, they can offer for sale fresh fruit, vegetables, honey, nuts and other products which have an appeal to motorists. Such a stand can be a steady source f income during the harvest season, whether it is operated daily or only on

or good season, when the receipts are

asily by nailing Masonite 1/4" Temered Presdwood to a framework of 4-inch lumber spaced 16 inches apart. For the display shelves, it's a good idea also to use Tempered Presdwood, because it can be kept clean easily and won't absorb food odors. It is moisture esistant, too, and customers won't get olinters when they pick up an item or close inspection

A let-down front can keep the stand osed securely overnight. Built as suggested, this stand may remain outdoors the year around. It should be given a prime coat of paint and two coats of exterior quality. A well-constructed stand can be built at reasonable cos It will soon pay for itself and should

A GENERAL MOTORS MASTERPIECE

Its Great Name Makes Its Price Remarkable

Consider the respect in which the name Pontiac is held -consider that it's priced right next to the lowest and you'll quickly see that here's the greatest car value of all. That's because Pontiac has always been deliberately englneered to provide features of the costliest cars at a price any new car buyer can afford.

You see proof of this in Pontiac's distinctive Dual-Streak styling, its long wheelbase, its easy-to-handle power and its long-lasting economy. Come in and let us show you why so low a price on so great a car represents a truly remarkable value."

Buy Good Quality Chicks This Spring

And Feed Them

Blue Ribbon Chick Starter

- The successful poultry producer always buys good chicks. High quality chicks require no more feed, labor and equipment than poor ones.
- Early hatched chicks are most profitable because pullets reach maturity at a time when egg prices are usually the highest.
- One of the first steps in profitable poultry production is getting the chicks off to a good start. Provide clean, disinfected equipment and
- Fill drinking fountains with clean water at least 12 hours before chicks
- Nutritive requirements are very exacting during the first few weeks in the life of a baby chick. During the first week a chick will eat only about a teaspoon of feed daily. This very small amount of feed must contain all of the essential nutrients in the correct proportions to promote good development and growth.

IT WILL PAY YOU TO FEED

BLUE RIBBON CHICK STARTER

We will clean and treat seed oats thru Apr. 25
