built. And IN SERVICE.

Serious Problem In Our Country

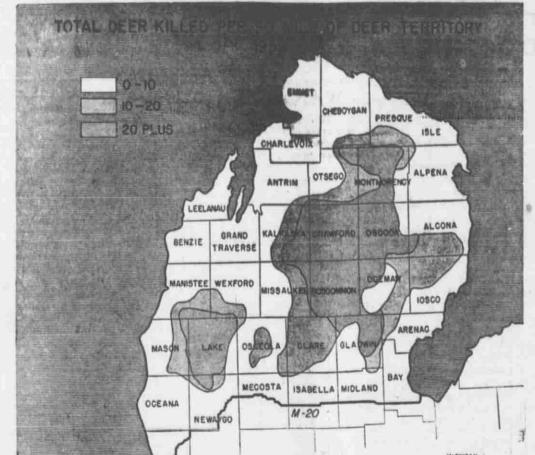

The general public does no seem to realize the seriousness of the highway problem in our country today. We are reminded by some of the leading road ilders and highway experts Statistics show that there are more than 53 million cars and trucks on our streets and high ways today—an increase of 76 per cent in seven years.

Mileage of highways construc ed since World War II would accommodate, bumper to umper, the new motor vehicles nufactured in the same per

Traffic congestion and parkfacilities waste the time of ery motorist; rob car owners full and economical use of heir essential vehicles; increase siness operating costs and the erchant's cost of distribution. nd discourage shoppers. They e major problems for everyin the community.

stion. The housewife pays more or home furnishings, food and family clothing because of increased costs of transportin goods, Her husband, the retail nerchant, business men, profesional men, your newspaper pubisher-everyone! All of us who drive pay fo traffic congestion with fuel waste, lost time, increased insurance costs, greater danger of acdents, frayed tempers, less and less opportunity to use our ve-
