Sparklet League
Sept. 29, '53
Despite losses by the top teams
the standing remains pretty
much the same. First place Blue
points lost two games and total
pins to Highland Hill but held on
to first place by a slim 2 point
margin. The win boosted High-
land Hill into the tie for second
place with Verna Rogers had 436
161 for the losers and Nettie
Watson rolled a 417 for the win-
ners. The Martin Twins still hold
a share of second place by
squeezing out one game and two
total pins to split with Rittenger.
Suzanne Miller rolled a nice 481-
201 for Martins. Blanche's 201
game is now high for the season.

Uptowners Bowling League
King Milling Co. took the odd
game and total pins from the
Lowell Ramblers Thursday night
to remain in a first place tie with
the league with Ace Plating Co.
For the winning "Millers" V.
Trousse paced the way with a big
214-98. S. Smith chipped in with
a 512. L. Keesh with 202-806 and
H. Bischoff with a 501. For the
losing "whiz kids" B Post posted
a 211-547.

Ace Plating Co. grabbed the
odd game and total pins from
Brothers Tavern to stay right on
top with the "Millers". No
big games in this contest.
The World War I vets capped
the odd game and total pins from
Highland Hill Daley to stay
right in the thick of the fight in
third place. For the vets R. Kin-
yon paced the way with 200-528
followed closely by E. Kinyon with
a 520 series. No high games for
the "Millkens".
Dyk & Buys finally had a win-
ning night taking the odd game
and total pins from fourth place
Slaters Service. W. Beak for the
losing Slaters had a 510 series.

Newcomer League
E. Phillips bowled the high
game individual score for the
night.

NEW DODGE
(Continued from Page 1)
At any speed under 55 m.p.h.
the driver may secure extra ac-
celeration by pushing the pedal
to the floor board into Dodge's
familiar "seat" gear. This special
gear assures quick, safe passing.
A low range also is provided to
retain the car in low gear for
road conditions such as climbing
or descending mountains.
The new Dodge full-time power
steering unit has direct control
and is of the "linkage" type. It
is less complicated, more compact,
easier to service and has fewer
parts than other systems. Dodge
officials state that it eliminates
about 80 percent of steering
strain for the driver and always
functions smoothly, regardless of
hand pressure. In the event of
power failure, full mechanical
control of steering is maintained.

BLUE RIBBON DAIRY FEED
It's no co-incidence, that all other things being equal, it is the more properly fed cows that produce the most milk, most consistently.
It is this higher production and greater herd efficiency that makes possible the highest level of dairy profits.
To maintain high level nutrition in your herd, feed ample quantities of good roughage plus a balanced supplement containing a variety of proteins, vitamins, minerals and other essential nutrients required to promote good herd condition and good milk production. Such a supplement may consist of either your homegrown grains mixed with our high quality dairy concentrate, or our complete dairy feed that required no additional grains or proteins.

This is your winter comfort, comfy!

Every time we fill a fuel tank in this community, it means that another family has been assured of winter comfort. That's one good reason we are happy to serve as your local oil jobber and distributor.

We receive and store oil products in our bulk plant and see that they are delivered where and when needed—in any weather or emergency. As local businessmen we know our neighbors well enough to predict what kinds of products and services they want.

Service is the watchword of America's competitive, progressive oil industry. And serving you and this community is our special assignment. This is your assurance that we'll continue to do that job well.

We Know Where the Next Fire in Town Will Start!

No, we're not smarter than other people. But we have made a study of homes that have gone up in flames—often with tragic loss of life. And in almost every case, the fire started in one of these 9 specific places (or ways):

- Matches left near children (Don't leave them near children!)
- Ordinary extension cords on irons, heaters (Don't use ordinary extension cords on irons, heaters!)
- Chimneys that spark (If it sparks, get it fixed!)
- "Junk" in cellar, attic or closets (Get rid of it!)
- Overloaded electric outlets (Don't overload your circuits!)
- Cigarette carelessness (Squash cigarettes out, use safety ash trays!)
- Frayed electric cords (Replace them when they're frayed!)
- Smoking in bed (Don't!)
- Fammable cleaning fluid (Use cleaning fluids that can't explode!)

No one knows when fire will strike; where it will strike is predictable! And preventable in 9 out of 10 cases! Take "Sparky's" advice:

"Sparky" says:
Don't You Give Fire a Place to start!
...or the next home that burns may be your own!

And don't forget to help "Smokoey", the Bear, prevent forest fires!

Townships to Organize State-Wide Association

At its regular monthly meeting Monday night, the Township Board voted to go to Lansing Tuesday to attend a meeting at the Hotel Odessa purpose of the meeting is to organize a state-wide township officers association.

Need of such an organization, long proposed by some township officials, is felt by the board to be acute now, with opposition to the township form of government strong in Michigan, and abolishing legislation proposed. It has been suggested that a new organization include township supervisors, clerks, treasurers, trustees and justices as members.

THE STORY OF PATSY

LET'S GO OVER TO YOUR HOUSE, TOM—WE CAN PLAY WITH OUR TRAINS ON THE FLOOR.

YEAH—IT'S TOO CHILLY HERE.

YOU KNOW SINCE WE HEAT WITH COAL, THE CHILDREN LIKE TO COME OVER HERE TO PLAY.

YES—I'VE NOTICED IT BUT WHEN DO YOU TEND THE STOVE? I NEVER SEE YOU GOING TO THE BASHMENT.

OH, SINCE FRED SWITCHED TO PATSY COAL, THERE'S HARDLY ANY WORK AT ALL—YOU SEE PATSY IS OVER 97% PURE COAL—AND THERE'S VERY LITTLE WORK TO BE DONE.

Cascade Girl Scouts Visit Ryerson Library

Girl Scouts of Troop 80, Cascade, went with other Intermediate and Senior groups to visit Ryerson Library and the Wyoming branch of the Kent Co. Library, Sept. 28, as part of the requirements of the Reader's Badge. From Cascade were Mary Bradley, Cindy Carpenter, Nancy Charters, Sylvia Dykhuizen, Linda Fellows, Sharon Hoing, Di-ane Jarvi, Susan Keck and Karen Snyder. Transportation was furnished by Mrs. David Carpenter and Edwin Bradley.

At the Grand Rapids Public Library they were met by Miss Marie Golubski of the Kent Co. Library, and shown through the stacks and main rooms, functions of which were explained.

Use of the card catalog was demonstrated at the Wyoming branch of the county library, and the catalogue department of the County Library proper, in the rear of the building was explored. The pasting in of a card pocket and slip for dates due, and the shelving of the cover as protection against dust and dirt. They learned that each book has four cards made out for it, so that it may be found in the card catalog by means of its subject, its author, its title, and its number which classifies it according to the type of the subject matter.

This Tuesday afternoon the girls were to meet at the Ada library with Miss Golubski; each was to bring a classic book she had read; Miss Golubski will obtain for each girl the full-length original to read and compare with the brief version.
