FINAL ADMINISTRATION ACCOUNT

yielding, late white variety with medium height straw. In checking with Kent County elevators, there seems to be plenty of Craig seed oats available,
However, we believe the oat problem is far from solved for this area. Craig oat plots did not outperform Kent oats in yield, but did stand up better. If you have had good oat yields the past two years on your farm you might be wise to stick to your present variety.

Abegweit, Sun and Beaver oats have been receiving considerable publicity. These varieties are susceptible to the common races of the city of Kent. At a tession of said court, held at the County of Kent. At a tession of said court, held at the frobate office in the city of Grand Rapids, in said county, on the st day of February. A. D. 1954.

The County of Kent. At a tession of said court, held at the Probate office in the city of February. A. D. 1954.

In the Matter of the Estate of CLINTON D. MILLER, Deceased Ada Y. Miller and Maurice W. Miller having filed in said court adjudicate and determine who were at the time of his death the legal heirs of said deceased died seized.

It is Ordered, That the 2nd day of March A. D. 1954 at the o'clock in the forenoon at said probate office, be and is hereby appointed for hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order for the care of said court, held at the Probate office in the city of feath the City of feath and county, on the st day of February. A. D. 1954.

Ford's New Ball-Joint Suspension gives you the

This revolutionary new Ford front suspension soaks up road shock before it reaches you! Makes all riding and handling easier!

Seals out dirt. You can forget road splash because dirt and water can't get into the ball joints in Ford's new front suspension. Each of the four joints is effectively sealed by a unique rubber-and-metal shield. This means that contact surfaces of each ball and socket remain clean-wear is kept to a minimum.

Reens that new-car feel. You'll enjoy Ford's newcar feel much longer because ball joints are springloaded to compensate automatically for any wear. Front wheels hold alignment far longer than with conventional systems. Ball joints can't stick or bind. Steering remains consistently easy.

THE "OLD" ROADS won't seem the same with Ford's new Ball-Joint Suspension "paving" the way for you. You'll enjoy a softer, more level ride because Ford's new system allows greater shock absorbing movement of the front wheels. Handling is far better, too. That's because conventional kingpins have been replaced by simple, sealed ball joints that won't stick or bind. No other car in Ford's field can equal Ford's ride-because no other has Ball-

Agile new performance, too, is yours in a '54 Ford whether you choose Ford's new 130-h.p. Y-block V-8 r 115-h.p. I-block Six. And no matter which of Ford's 28 new models you choose you enjoy recognized style leadership—with clean, modern lines . . . sparkling new colors . . . and harmonizing upholstery fabrics and trim.

Eliminates 12 wear points. Ford's Ball-Joint Front Suspension eliminates 12 of 16 points of wear found in conventional systems. Rubber-bushed supports at inner ends of suspension control arms reduce the number of wear points and insulate chassis from road noises.

We cordially invite you to Test Drive a

NEWCOMERS

Well girls, last week's bowling has come through with a few were Sunday dinner guests of changes. Watson's Pills took the lead in the league by winning four points from the Ground Observers Corp. They now have a total of 40 points.

Emma Quiggle had the high came for the night with a 173. Emma also had high series with a total of 508 pins.

That about completes the latest news on the Newcomers League this week. Come on girls lets get some more names in the

Safety Seminar Seeks **Curbs in Traffic Toll** For Michigan in 1954

If all the residents of Rich mond, Mich., (population about 2,000) were killed and all the residents of Bay City (population about 57,000) were injured, that would be the equivalent of the predicted traffic toll for Michigan in 1954.

These figures were brought out at the second annual Michigan Highway Safety seminar at Michigan State College's Kellogg Center for Continuing Education. The safety seminar, attended by about 100 persons from over the state, is investigating possi-

ble ways to reduce traffic deaths.

I'. Granger Well, executive vice president of the Port Huron Times-Herald and chairman of he seminar, declared that if some tragedy were to kill every person in Richmond and injure every resident of Bay City there would be pold headlines in every newspaper in the country, television and movie cameras would move to the scene, help from relief agencies would pour into the district, congress would likely have a special session and emissaries of the President would be on hand to investigate."

But in traffic accidents, he continued, "catastropne has come upon us so gradually that it is all taken for granted. You get in your car and hope you'll get where you're going.

IN BLOOD PRODUCTS MICHIGAN IS FIRST

Through the efforts of the state health department's blood fractionation laboratories and the local and regional blood banks in the state, Michigan residents have access to a greater list of lifesaving blood products than any other population in the
