HOW FIRE INSURANCE HELPS YOU TO

The Underwriters' Laboratories, Inc., sponsored by the capital stock fire insurance companies as a public service, has tested more than 375,000 products to protect you from fires caused by defective materials or faulty design. The "U.L." label on any product means it has met recognized safety standards. This is only one of the public

services performed by capital stock fire insurance - a private enterprise - of which the insurance agent is an important part. His professional advice is yours for the asking. Phone me for a talk about your insurance problems-for, in these high-cost days, too little insurance protection for your home and belongings can be costly.
