Here's your biggest used car break

in 30 years! Because of the tremendous demand for new Fords, we Ford Dealers have the greatest

selection of good used cars in our history!

And because trade-ins are continuing to pour in, this huge volume of used cars (all makes and models) must be moved and moved fast. So we're pricing our used cars at rock bottom.

are selling for hundreds of dollars less than their original cost. And remember, behind every one of our used cars stands the trusted name of a reputable here-to-stay business man who has lots to

gain by treating you right.

Many current models of many different makes

Laboratory Technician

To maintain uniformity in our flour, it is necessary to analyze samples at frequent intervals. We check for protein, ash, viscosity, etc. and, in addition to this we also put our

flours to an actual baking test in our kitchen laboratory. This two-way test assures the consumer of constant quality and uniformity. That is why Phillys is another important cog in the millwheel.

HOW FIRE INSURANCE

ON THE FIRE BUG

"Arson rings" once preyed upon America's big cities. Today, local authorities, aided by arson specialists, are making it too hot for these potential murderers. Incendarism is now mostly the work of juveniles and mental defectives. This public service saves lives and keeps down the cost of fire insurance.
