# showboat toots

The little boy that fell in the iver at the Talent night show was not the first to have such an accident. While the first boat was being built in 1932, Charles Cook and Norm Borgeson walked out on one of the pontoons to test It for steadiness-it was not securely nailed on, turned over, throwing both Norm and Charley into the water. Vern Ashley recognized the publicity value, called the Grand Rapids Press and it urned out to be the big story of e first Showboat,

Perhaps some will also rememer one night when Gerald Fineis was an end man and fell into the river.

Chairman Runciman of the alent night program, promed to limit the number of acts 54. He did, but put in a few A B and C acts. As an example, there was act 52A-52B-52C-52D and 52 E. He stopped all right at 54-there were actually 69 acts in the big Showboat talent well last week made a record in night contest. Runcy called in Bill Jones as a substitute emcee -Bill did a fine job.

# BEAUTIFUL PULLETS!

YES SIR, you can raise real beauties that'll go into the laying house early this year. The trick's in the feeding! Master Mix Pullet Grower with Methio-Vite helps you raise pullets that have vigor, well developed egg-producing organs, good health and proper color. Birds like those get into production early, and have stamina for a year of heavy laying.

Phone 9252 Vergennes were supper guests

# Only Phillips offers this "First" in **Motor Oils!**

The toughest standard ever set up for automobile motor oil is the Mil-0-2104 Supplement 1 test. New Trop-Artic is the first all-weather motor oil to meet the requirements of this test. It is an oil which will serve you winter and summer . . . an oil so good it can double the life of an automobile engine!

Compared to ordinary motor oils, new TROP-ARTIC reduces wear 40% or more. It cuts oil consumption 15% to 45%. It keeps pistons and rings cleaner. It saves you money by increasing gasoline mileage.

Trop-Artic is a superior all-weather oil ... S.A.E. 10W-30. Therefore it flows instantly for easy starting at sub-zero temperatures, and yet it retains the film strength necessary to prevent engine wear under high temperature driving conditions. Any car, in any climate, at any time of the year will perform better with Phillips 66 TROP-ARTIC

Phillips 66 FLITE-FUEL is the new gasoline . . . the only gasoline . . . with the added super aviation fuel component Di-isopropyl.

FLITE-FUEL brings you more power, higher nti-knock, longer mileage, plus controlled volatility, and the clean-burning qualities for which Phillips 66 Gasoline is famous. FLITE-FUEL and TROP-ARTIC are perfect companion products. They go together for better engine performance.

Phillips 66 Products are distributed in Lowell and
