these two solid truths: Buick is one of the "Big Three" in sales volume-and hotter this year than ever before. And Buick is one of the "Big Three" when it comes to prices which make such popularity possible.

And when you look into the facts, you'll find

So why not get what a Buick has to offer, if you are in the market for a new car?

You find that the dollars you pay for Buick buy you a lot more automobile—and the sheer satisfaction that comes with bossing a brawny traveler of this caliber.

You find it in the record-high V8 power that gives life to this spirited performer. You find it in the soft and level and cruiser-steady

ride that comes of all-coil springing and torque-tube stability. You find it in the extra roominess, the extra frame strength, the extra tread width, the extra silencing - all part and parcel of every Buick.

We could tell you about the little things, too. Things usually charged for as "extras" in other cars, but yours as standard equipment at no extra cost in every Buick. Things like direction signals, oil-bath air cleaner, full-flow oil filter, automatic lighting in glove and trunk compartments and so on.

But-you get the idea. This is a buy, this '55 Buick - a great buy - and a thriller from the instant you press its gas pedal. Come in this week and check things for yourself,
