The newly-finished 3 bedroom home pictured first above is being shown by Reg Clarson, and is located at 925 Beech st. The Clarsons, who live at 523 Suffolk, also built their own home, and hope to start another one in the spring. Arvil Heilman is the owner of the other new home on the corner of Vergennes road and Hunt st. This also has 3 bedrooms, and a special feature is its two fireplaces, one in the basement, and another on the first floor. Although Mr. Heilman has built two other homes in this general area, doing most of the work himself, he did hire out portions of the work on the pictured house. Until floor finishes have been completed this home may be seen by appointment only, but will be open for general inspection in about a week, Mr. Hellman states.

To Complete Main and Hudson Streets by November 1st

When the above equipment moved into town a week ago the residents of Main and Hailson streets breathed easier, because now it is a matter of a couple of weeks and the highway construction will be finished. The bitumonuous surfacing has been completed in some sections-last Friday on West Main we noticed that lanes which were being surfaced about 3 o'clock could be driven on by 6 o'clock-perhaps sooner. If the weather cooperates, the workers will be out of town by the first of November, and our newly paved, wider and safer roads will be ready for use, unobstructed by "men at work" signs.
