"Commercial Course. Those who enroll in this course will be given preference in any single subject thus marked.

\*\*Courses given alternately. "\*Working part time on approved jobs, See Mr. White.

# REQUIREMENTS FOR GRADUATION

1. Two years of Physical Education will be required. Senior Band 9th or 10th grades, may count as a year of Physical Education. Athletics also counts as Physical Education credit.

2. All subjects in capitals are required. A course in Algebra or Business Mathematics is required. 3. Sixteen credits are required; a credit is given for the successful completion of one subject for one year. Not more than 2 credits

that is, not more will be counted as part of the 16 credits. 4. No credit for academic courses is given unless courses are completed in a satisfactory manner. Any one year subject is a unit course. Two years of a foreign language is a unit course. Students who expect credit in shorthand must also secure credit in typwriting. who expect credit in shorthand must also secure credit in type-

# SUGGESTIONS TO STUDENTS IN ELECTING COURSES

1. We believe that the purpose of the high school is two-fold; (1) to offer something of interest to those who will not complete the four years of work and for those who will not continue their education upon graduation, and (2) to act as a college preparatory school. Students and parents should plan courses accordinly.

2. No student can take more than four subjects without permission. 3. All elections are subject to the approval of the superintendent or

4. Students should elect their subjects according to the number of years they have been in high school.

5. Students who are not enrolled in the commercial course may take a subject in this course if the class is not too large. 6. It is recommended that students who have completed one year of Algebra should complete one year of Geometry. Those who plan to take Chemistry or Physics should take Algebra and Geometry. 7. It is recommended that all boys take at least one year of shop

and girls at least one year of home economics. 8. All students who plan on attending college should complete four years of English.

9. Those interested in Engineering should plan to complete the following credits: English 3 or more, laboratory science 2 or more and all mathematics. (Language recommended), Three majors and one minor are desirable.

10. Those interested in nursing should plan to complete the following credits: English 3 or more, laboratory science 2 or more. Typwriting is desirable, (Language recommended). 11. Those interested in medicine or dentistry should plan to complete

2 years of Latin, 2 years of another foreign language, Chemistry, Physics and Biology. 12. Students who plan to enter college should attempt to determine just what courses they will pursue at college and they should learn just what the college will demand of them for entrance.

# COLLEGE ENTRANCE REQUIREMENTS

Many colleges require sixteen credits including two major and two minor sequences for entrance and at least a "C" average". A major sequence consists of three credits in any one academic field, and a minor sequence consists of two credits in any one academic field. Only the following subjects count as sequences:

English English English English Mathematics...... Algebra Geometry Alg. 3 Trig. Eur. Hist. U.S. Hist. \*Ec'nomics

Biology Chemistry Physics Latin French French Language\*\*..... Latin \* Some colleges will accept credits in World Geography, Social Problems or World Civics as part of the sequence.

"\*Some colleges no longer demand the sequences, but insist on certain academic courses and better than average grades.

Time Short to Put '57

Farmers who raise wheat face a decision within the next month Farmer Explained between 6 and 7 million dollars in opens in September, every com- visiting relatives and friends in Pa.

Clarence Prentice, administrator for the Michigan Agricultural Stabilization and Conservation Committee, Lansing, announces this amount will be available for payment through county ASC committees to those farmers who harvest fewer acres than their wheat allotments.

Payments will be based on normal farm yields. For example, a merce directly or indirectly, will become subject to the child-labor provisions of the Federal Fair Labor Standards Act.

The complete change in the legal status of employment of children in agriculture the day local schools open has been explained by William S. Singley, Regional Director of the U. S. Labor Department's Wage and Hour Division for Ohio and Michigan.

"This law exempts growers of Mr. and Mrs. Herman Freidli of Detroit spent Friday night and Saturday with Mr. and Mrs. Alex Wingeier.

"No Alternative **But to Strike**" Says Glenn Lake

The following statement was released to the newspapers Tuesday afternoon, August 28, by Glenn Lake, Michigan Milk Producers president in relation to the latest developments in the pending milk

(See our story page 4 this week's

"In view of the Detroit dairies" reactions to our ultimatum for \$5.35 for drinking milk, it appears that we have no alternative but to continue with our plans to strike on September 1st. "While several dairies have

agreed to accept our fair and reasonable price, the major dairies, even though they have not officially rejected the demand, have indied that they consider \$5.35 too much and are not willing to pay

"Members of the Michigan Milk Producers' Association are, therefore, proceeding with plans to strike by withholding their milk, starting Saturday. Members have been told by local officers not to ship any milk to dairies who have not agreed to our demand by Sep-

"We sincerely hope that the dairies will see fit to agree to this reasonable demand by September 1st. We firmly believe that our demand is more than justified by the mpossible situation we face with higher and higher costs and lower income. While the rest of the economy is riding the crest of the greatest prosperity boom this country him in a perilous condition. The U. Performing the double ring cere-vover the wrists.
