PONTIAC GIVES YOU MORE SOLID CAR PER **DOLLAR THAN THE** BIGGEST OF THE SMALLER JOBS!

The so-called "low-price" numbers just aren't in it-Pontiac gives you up to 8.9% more solid car per dollar! And your Pontiac dealer can prove it-with official specifications. Check them yourself. Starting with Pontiac's rugged Xmember frame and continuing through every inch of the car, you'll discover engineering advances and advantages the smaller cars haven't even thought of. Then put the facts and figures to a testwith you behind the wheel. Right from the start you'll discover that this big heavyweight handles like a dream in traffic or on the open road, because only Pontiac offers you Precision-Touch Controls for almost effortless steering and braking. No doubt about it-here's driving that puts the smaller cars in the shade!

NO SMALLER CAR **EVEN APPROACHES** PONTIAC'S 122-INCH WHEELBASE!

# Moral: Yesterday's looks and features are no bargain at any price!

No car is a bargain if it's obsolete in styling and engineering features. And the Swept-Wing Dodge actually obsoletes other cars in its field with its low, low look of tomorrow and revolutionary advances like Torsion-Aire Ride, Push-Button TorqueFlite and Total-Contact Brakes. So don't get "bargain-talked" into yesterday's styling and features. The same money buys the car that's years ahead. See your Dodge dealer. Join the swing to the Swept-Wing Dodge.
