Ex-Sailor, 'Curly' Howard, Stages Rodeo for Hobby

LOWELL, MICH., THURSDAY, JUNE 19, 1958

Some men collect stamps or have a home work shop but A. B. "Curly" Howard, Lowell's jovial restaurant operator, has been working on his hobby of building a rodeo arena and staging rodeos in its present location since 1955, "Curly" has spent his spare time building the arena on a plot of ground leased from the village south of the 4-H grounds for three years. Most of the

work, except stretching the fence and hanging the heavy gates, he has completed alone except for help on special occasions from friends with tractors and special equipment, July 4th week will bring the completion of his long project, with the staging of a full fledged rodeo with wild bulls, bucking horses and the many other rodeo events.

To Vote on Wheat **Referendum Friday**

ake an important decision when hey vote June 29 in the national wheat marketing quota referent Gray Flannel Suit. The story of dum, Kent County Agricultural Stabilization and Conservation Committee, said today,

If at least two-thirds of the grow rs who vote in the referendum approve quotas for the 1959 crop. foe Schweitzer explained, the 1959 vheat program will include acre age allotments, marketing quotas and price supports at a minimum national average of \$1.81 per bushel, or 75 percent of parity.

If the quotas are not approved by at least two-thirds of those voting, there will be no marketing quotas or penalties, but allotments as he is called by his many friends, will remain in effect as a means into a project that has taken all of determining eligibility for price of his spare time and cash fix support. The price-support rate the past three years. As Curly would be about \$1.20 per bushel, The remedial reading classes to says, it was a lot of work but I or 50 percent of parity, as provided

Chairman Joe Schweitzer pointed being prepared and parents will 6 chutes, 6 holding pens, calf and acreage allotments operate onbleacher seats for a crowd up to those with allotments of more than 25,000 acres. Michigan has an allotment of 981,724 acres for the 1959 wheat crop.

Growers eligible to vote in the referendum are those who will harest more than 15 acres of wheat in 1959 and, therefore, will be affected by the wheat quotas if they become effective. Thus, farmers who will have 15 acres or less of wheat for harvest as grain in 1959 and those who are taking part in

During spring and summer months, young rabbits, deer and other game animals present a temptation for well-meaning per-sons who wish to "adopt" wildlife youngsters as pets. However, that "helpless" wildlife baby will grow up rapidly and, if kept in captivity, can be troublesome and dangerous. Best advicts: Obey the law; leave wild animals alone.

VEGADEX IS SAFE FOR—cel-ery, lettude, cabbage, brocodi;

brussels sprouts, cauliflower, collards, kale, mustard, spinach,

turnip greens, snap beans, lima seans; soybeans, garden beets,

VEGETABLE GROWERS:

Here's a weed-killing "blanket" that can save

\$20 to \$90 an acre on hand-weeding

We call it Vegadex, and it works a new way. You only have to spray it on once—at planting time. Vegadex forms an invisible chemical blanket over your soil. Annual grasses—and even some tough weeds like purslane and henbit—sprout, touch the blanket, and die.

Your vegetables-like celery, lettuce and cole crops—grow through unharmed, with few or no weeds to fight them for sunlight, water and plant food. And, Vegadex won't "build up"

Vegadex practically eliminates costly and-weeding. Last year, many egetable growers saved from \$20 to \$90 an acre on labor costs by spray-weeding with Vegadex. Before you plant your next crop, stop by your Monsanto Farm Chemicals Dealer—he'll give you an informative new folder on Vegadex.
