You Pay Less

TRUCKS ARE VITAL to every industry in Michigan, and no service or commodity which affects your day-to-day living could reach you without trucks.

That is the basic way in which trucks serve you. But

they benefit you in other important ways, too. For example - latest available figures show that Michigan's trucks pay over \$65,000,000 annually in State registration fees and gasoline taxes alone, plus several millions more in mileage taxes and special taxes levied on the larger vehicles. In addition, of course, trucks pay all the other taxes charged against any business enterprise in Michigan - real estate property taxes, personal property taxes, business activities taxes, sales taxes, intangible taxes, franchise taxes.

All these millions in taxes the trucks pay go to support the general welfare, to help pay for modern roads, hospitals, schools and colleges, parks and playgrounds, police and fire protection.

So, you see, thanks to the trucks, you pay less.
