## MILK is the only practical source of calcium

It's a fact that millions of Americans do get sufficient calcium in their diet. They risk the dangers of calcium starvation. Wrinkled, leathery skin. Early ing. Excessive irritability. Brittle bones, teeth. Improper functioning of heart uscles. Shorter "prime of life."

ational Research Council recomends a minimum of 800 milligrams of ium daily for adults, 1000 to 1400 illigrams for children and teenagers. This is the amount of calcium supplied by 3 to 5 glauses of milk.

Other foods supply only slight amounts of calcium. You would have to eat: 71/2 lbs. of carrots, 39 eggs, 27 lbs. of potatoes, 28 oranges, 15 lbs. of flour or 63% lbs. of cabhage to get the calcium supplied by 1 quart of milk.

In addition milk contains more of the essential nutrients than any other food. More nourishment per calorie (one reason it's recommended for reducing diets), and more nourishment per dollar. Are you sure you're drinking all the milk you need-at least 3 glasses a day.

## No rest for this Chevy...round the clock the engine never stops!

At Washington's bustling Na-tional Airport, Allied Aviation Fueling counts on its radioequipped Chevy to get crews and tank trucks to the right planes at just the right time. Aside from occasional time out for the usual service, its Thriftmaster 6-cylinder engine has been running 24 hours a day for the past 9 months!

Once you've got that kind of endurance working you don't worry much about lost job time. Breakdowns go out of style the lay your Chevy goes into action. The fact is, Chevrolet trucks are dead set on dropping the word "downtime" right out of the English language. And they just might, if precision engi-neering and top-quality materials have anything to say about it. Chevy trucks are put together to stay together-incorporating the most advanced chassis derelopments, the most efficient 6cylinder and V8 engine designs. They're built to last, built to keep Chevrolet's hard-earned reputation for reliability flying

Going into the real heart of Chevrolet advantages is where your dealer comes in. He'll show you, in feature after feature, that you can't buy more truck dependability – in any weight class-at any price.
