Six new crew members for the Robert E. Lee's trip down the Flat River July 20-25, will be picked out of the 43 amateurs to audition Saturday night at this year's Showboat Amateur Night.

**Pick-up Truck Strikes Car Driven by A. Curtis**

Arthur A. Curtis, operator of the Curtis Laundromat and Cleaners, was involved in a two car and a truck accident about 3:15 Thursday afternoon in front of his home at 520 Vergennes Rd.

Vermitag bounced off Curtis' car into a parked car owned by Wayne Kingdom, Curtis' son-in-law who is visiting from Lancaster, California.

Curtis told police that he had turned on his signal lights at the intersection before, but Vermitag, who said he was doing the speed limit, said he didn't see Curtis signal.

The truck was owned by Thomas and Cook's Janeland Farms of Lowell. No serious injuries were reported at the scene, but Curtis later went to the hospital for X-rays. Estimate of damages to the cars and truck have not been made, and no one was held by the police.

**Showboat Queen and Calliope in Sand Lake Parade**

The Lowell Showboat was well represented at the Sand Lake 4th of July parade and celebration last Saturday. Boni Bryan, Showboat queen, and her court were among the many queens from all over the area riding in the parade.

As in every parade, music was provided by a drum and bugle corp, but this year the Sand Lake parade had an added attraction. Right behind the Showboat queen in the parade was the Lowell Showboat's old fashioned calliope with Ann Marie Alexander entertaining the many spectators with such familiar songs as "Here Comes the Showboat."

Prior to the parade, Miss Bryan was given the opportunity to talk about the Showboat in an interview with the mayor of Sand Lake before the large crowd. A lunch was served for all the queens at the Steer Haus where Lowell Showboat plate-mats decorated the tables.

Last Thursday, the queen and her court and the calliope made a trip down to the Lake Odessa Fair. This Friday the group from Lowell will again represent the Showboat at the Traverse City Cherry Festival.

Both the queens and the calliope will appear in the Cherry Festival parade at 2 p. m. and the gigantic Mardi Gras parade in Traverse City that evening. On this trip the drivers of the two convertibles and the truck will dress as endmen to add to the Showboat atmosphere.

While at the Cherry Festival, the Showboat queen will personally invite the Cherry queen and the runner-up to the Mrs. Michigan contest to Showboat's Queens Night. At Sand Lake, Miss Bryan invited all the queens who were in attendance.

Hope everything goes well in Lowell. We think about it often and are full of gratitude for this. Say hello to the children from Sister Stephana.

**Attractive Vocalist Here for Showboat**

Carol Richards, popular radio and television singing star, will be one of the featured entertainers at this year's Showboat held between July 20-25. Miss Richards, now currently appearing as a featured star on the Bob Crosby Show, started her singing at the age of four. The turning point in her career came when she won a contest on Bob Hope's radio show. Hope liked her so much he brought her to Hollywood as a guest on his program.

After this break, Carol's star began rising; she was featured on "The Edgar Bergen Show," "The Bing Crosby Show," "The Martin and Lewis Show," and the "Lux Radio Theatre."

As a youngster Carol Richards had her heart set upon becoming a dramatic actress, but her singing was always foremost with everyone that ever heard her.

Miss Richards has appeared in many motion pictures, but ironically, has never been seen in any of them. She has appeared vocally singing for Cyd Charisse in "Brigadoon" and Vera Ellen in "Call Me Madam."

As a recording star, she has made many records for RCA Victor and incidentally, she is the only artist who can boast of singing on all the performing Crossbys.

In addition to her television, radio, and recording and motion picture work, Carol has headlined such night clubs as Ciro's and the El Rancho Vegas.

Carol's career doesn't take all of her time, for she is a devoted mother as well as a well-schooled interior decorator.

Originally from Harvard, Ill., Miss Richards now resides with her two young daughters in North Hollywood.

**Airport Improvements, Street Lighting Discussed at Council Meeting Monday**

At the meeting of the Village Council on Monday evening, Dr. Robert Kyser and Hollis Marsh of the airport committee were present to ask the council if their authority extended to bringing in plans for improving the Lowell airport. Dr. Kyser is the only flyer now operating out of the airport, but he told the Council that he feels sure that if the field were improved an operator and several aircraft might develop the Lowell field into a busy port. The council authorized Kyser and Hollis to secure plans for the improvement and present them for consideration.

**Discuss Street Lights**

The new mercury-vapor street lights erected last week as a test of this type lighting were discussed and many favorable comments have been received. The members expressed their interest in hearing from local citizens on their estimate of this lighting for the entire street. A new type fluorescent light is being secured to put in another location to give a check on both types. Roger Westenberg, Municipal Utility Superintendent told the group that the mercury-vapor could be installed from Amity to Jefferson; a total of 44 units for \$15,000. The fluorescent lights would cost an estimated \$2,200 more.

The council authorized a speed limit on Bowes road of 35 miles per hour and agreed to start a program of placing new street signs at every village intersection over the next few years.

**Best Room!**  
JUST ONE OF 7 Big Bests Chevrolet  
OFFERS you over any other car in its field!

Take a tip from the experts... in their own words... and from on-the-record facts and figures: More than ever, Chevrolet gives you more than any other of the leading low-priced three! More room to relax in, for instance. A sampling of official dimensions reported to A.M.A. makes this clear. Chevy front seat hip room, for one thing, is up to 59 inches wider than comparable cars. And Chevy even offers more front seat head room than all but one of the high-priced cars!

**Best Brakes** Not only bigger, but built with bonded linings for up to 66% longer life. Just to prove what's what, Chevy out-stopped both of the "other two" in a NASCAR-conducted test of repeated stops from highway speeds.

**Best Style** It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE magazine, "a new high in styling."

**Best Engine** Every motor magazine has given Chevrolet's standard and Corvette V8's unstinted praise. As SPORTS CARS ILLUSTRATED puts it: "... surely the most wonderfully responsive engine available today at any price."

**Best Trade-In Check** in any N.A.A.A.1 Guidebook. Chevy's car prices last year averaged up to \$128 higher than comparable models of the "other two."

**Best Ride** MOTOR TREND magazine calls Chevy "... the smoothest, most comfortable riding car in its price class." You'll be able to tell this yourself instantly, once you take the wheel.

**Best Economy** No doubt about this: Two Chevrolet's won their class in the famous Mobilgas Economy Run, got the best mileage of any full-size car, 23.8 miles per gallon—with Powerglide.

**Best Value** Chevrolet in any N.A.A.A.1 Guidebook. Chevy's car prices last year averaged up to \$128 higher than comparable models of the "other two."

**SOIL AND WATER Conservationists Get Travel Hints From National Safety Council for Good Trip**

More people vacation in July, August and September than during any other three-month period of the year.

Most people who travel these months will make their trip by car. About 3 out of 10 trips during the period will be less than 100 miles. More than half will be less than 200 miles.

With these facts in mind, the National Safety Council issued these helpful hints for vacationers:

- 1. Pay strict attention to your speed. And obey traffic signs—they're your signs of life.
- 2. Look out for the other fellow. A good driver is a defensive driver.
- 3. Don't overdo it on the road. Take rest stops often, and limit your day's driving to 300-400 miles.
- 4. And when you arrive at your destination—

Don't overdo it! "Full is fun," the Council agrees, "but too much exercise can be dangerous. Play in moderation—and rest when you're tired." Other suggestions:

- 1. Swim only as far as you know you can.
- 2. Look where you're diving. Before you dive, find out about underwater obstacles and the water's depth.
- 3. Enter cold water gradually.
- 4. If your boat capsizes, stay with it till help arrives.
- 5. When it's hot, drink lots of liquids.
- 6. Better be pale than parboiled—don't get half baked under the sun.

### Michigan Livestock Auction Markets Important for Area Farmers

The livestock auction markets in the Hastings and Avon areas, as well as all over the state, should find that business is good these days.

The reason for this good business, is that the most important change in livestock marketing in Michigan in the past 20 years has been the rapid increase in the percentage of livestock sold through auction markets, reports the department of agriculture economics of Michigan State University.

Findings show that most important now are the auction markets. Although terminal markets have declined in relative importance, they are still important. Livestock is still sold direct to packers, to other farmers or to country dealers.

Latest census shows 52 livestock auctions, one terminal market, about 450 country dealers, approximately 25 local markets, and 218

### Free Choice Helps Kids In Reading

All children, especially those who are slow to gain facility in reading, can benefit from the chance to select their own books from the school library, according to Charlotte Hardy, instructor in the University of Michigan School of Education.

For some time there has been a controversy as to whether a fourth grade book was necessary. In the past month both the national and state health departments have urged the fourth grade book to be operated to full capacity during the coming year, especially during the beginning of the year when some of the class rooms (in the Forest Hills school district) are being completed.

## LOWELL health PROBLEMS

The popularity of health columns in newspapers and magazines today is a reflection of the present widespread interest in medicine, both the new discoveries and a review of the old well accepted knowledge. The syndicated column covers most of this information in excellent fashion.

There is, however, a reason for a health column written locally. Preventive health rests primarily on the community's knowing what health problems have arisen and how to deal with them. If a column such as this can serve as a constant reminder of local problems it can do more to solve them than news columns or releases from national, state or even country sources.

### Watch Out For Water Accidents

With 72 persons drowned and 43 injured in 100 water accidents reported so far this year, the State Police are cautioning water enthusiasts to emphasize safety on the crowded lakes and rivers over the Fourth of July weekend.

If good weather prevails, water fronts and beaches will probably get their heaviest crowds of the season, and recreationists are urged to follow the safety rules for their own protection.
