Toughest Driver in Town

Careful Percy McFidget-who would believe that he's harder on his car than anybody in town? Why, he never goes over 35 or takes a trip over 10 miles! Actually this kind of driving is very hard on a car engine because the engine seldom gets "warmed up" sufficiently. The oil tends to be sluggish. Sludge forms in the crankcase. The way is open for dangerous wear and corrosion.

But there's something you can do about this, to protect your motor. If you have to do a lot of startand-stop driving at low speeds, as most of us do, use Trop-Artic* Motor Oil. It flows fast . . . resists sludge formation . . . helps your car run better, longer. Get Trop-Artic Motor Oil at any station where you see the Phillips 66 Shield. where you see the Phillips 66 Shield.

The World's Most Wanted Car!

Introducing the New-Size Ford ... the 1960 Ford Lalcon

Meet the New-size Ford - the Falcon! Here's a car with

plenty of room for six big adults and all their luggage. It's

sized to handle and park like a "small" car . . . powered to

pass and climb like a "big" car . . . and built like no other It gives you up to 30 miles per gallon on regular gas. Aluminized mufflers normally last twice as long as ordinary kinds. A Full-Flow oil filter lets you go 4,000 miles between oil changes. Even insurance can cost you less! And this Falcon is the world's most experienced new car. It was driven over every mile of numbered Federal Highway in EXPERIENCE RUN, U.S.A .- a grueling demonstration

The Falcon has the features that American car buyers expect. Its gearshift is on the steering column-not on the floor. Its engine is located up front for greater stability and safety. Best news of all is the Falcon's low, low price. See it at your Ford Dealer's . . . and see the difference!

Now you can see them-the Finest Fords of a Ford savings, however, only begin with a low Lifetime! Economy-minded Fairlanes. Big-value price. You save still more with engines that thrive Fairlane 500's. Elegant Galaxies.
