What Can a New Industry Do For a Town? According to a report issued in 1950 by the United States Chamber of Commerce a new industry moving into a town with 100 jobs

will have the following effect on a community: 1—Added Service Jobs 2—New Homes 112 3-Population Increase 4—New Retail Establishments 5-New Telephones 6—Increased Retail Sales\$360,000 7—Personal Income Increase\$598,000

As is quite evident these 1950 figures in dollars would be considerably more in 1960. Any citizen of Lowell can see what can happen here if we can get 200 to 300 more jobs in a new industry.

INCLUDE NATURAL GAS!

Whether you're building a new home, expanding,

remodeling or just modernizing your old home,

you can always depend on Natural Gas to serve

you perfectly. This tiny gas flame is fast, clean,

silent, and so economical! Today's modern auto-

matic gas appliances make household duties easier,

more efficient - and save hours of work each day.

They give you more leisure time to spend as you

please. Natural Gas serves the average family with

the convenience of air-conditioning, automatic

cooking, water-heating, refrigeration, clothes-

drying and incineration. All this - for just pennies

a day! Natural Gas is truly a wonder-fuel - high in

value . . . low in cost! Have it installed in your home

- you'll live better, easier, healthier . . . for less!

The aged apostic Paul writes to the young evangelist Timothy: "preach the word; be urgent in season, out of season; reprove, rebuke, exhort, with all longsuffering and teaching. For the time will come when they will not endure the sound (or, healthful) doctrine; but, having itching ears, will heap to themselves teachers after their own lusts; and will turn away their ears from the truth, and turn aside unto fables." II Timothy 4:2-4. May God give us preachers who preach healthful doctrine, and hearers who love the truth!

Safety Is No Accident

traffic deaths, it is time each of us who drives a motor vehicle takes a solemn oath to do something about it . . Like the professional truck driver who makes his ivelihood piloting a truck or truck-trailer over our streets and highways, we need to know the rules of safe driving and practice them. Safety is no accident-it's planned that way . . . Obey all traffic laws, be courteous, drive

'defensively" (trying to anticipate the other fellow's

move), be sure your vehicle is in good mechanical con-

dition. There are other sound rules, but these are four of the most important and if you'll practice them con-

scientiously you'll help to save a life-and it may be yours.

allot to the states over \$1 billion a year for four years to be used alaries. During the last two years the amount a state would receive could be reduced if that state faile "school effort." During the first two years it would get the Federal funds regardless of its own effort, or lack of effort. This bill permits the state to determine what part if any of its Federal aid should go for

FEDERAL AID TO EDUCA-TION: The Congressional situation

sistance for either purpose, not is any state required to put up match-

ag funds.
The Senate bill, S. 8, authorizes a federal contribution of \$20 per

hild of school age or about \$916.5 million a year for two years. This

could be spent for school construc-tion or teachers' salaries. Federal

unds would be allotted on a vari-

able matching basis so that low-

ncome states would get \$2 in fed eral funds for \$1 in local mon

while the high-income states would receive \$1 for each \$2 of loca

funds. States are supposed to allo cate funds to their school distric

on a basis of need. While H. R. 10128 has not bee

reported and is therefore subject change, it is a school-construc

tion bill without provision for fed-

eral aid for teachers' salaries. A this writing, the bill would auth

orize \$325 million a year for three

years at about \$6 per school-age
