STATE OF MICHIGAN
IN THE CIRCUIT COURT FOR THE
COUNTY OF KENT
IN CHANCERY
At a session of said Court held in the
Kent County, Court House, in the City of
Grand Rapids, Michigan, in said County,
on the 29th day of February, A. D. 1960.
PRESENT: HON, FRED N, SEARL, Circuit
Judge. BETTY JOHNSON,

RICHARD JOHNSON,

RICHARD JOHNSON,

ORDER OF PUBLICATION

In this cause, it appearing from affidavit on file, that the defendant, Richard Johnson, is not a resident of this State, but is a resident of Bakersfield, California, that being nis last known address.

On motion of Gerald M. Henry, plaintiff attorney, IT IS ORDERED that the appearance of said non-resident defendant, Richard Johnson be entered herein within three months from the date of this order, and in case of his appearance he cause his answer to the Bill of Complaint to be filed, and a copy thereof be served on the plaintiff's attorney Whain fifteen days after service on him of a copy of said Bill and notice of this order; and in default thereof, said Bill will be taken as confessed by said non-resident defendant: And IT IS FURTHER ORDERED, that within forty days the complainant cause a notice of this order to be

health hazard exists in those areas being flooded because some Municipal Sewage Disposal Systems and Septic tanks are being flooded and as a result private water supplies are being polluted.

Diseases such as Poliomyelitis, Hepatitis, Dysentery, Diarrhea, Typhoid and other Salmonella infections are spread through sewage. Dr. Prothro advised the following safe-guards for those persons living in the flood areas:

1. Keep your children from playing in the flood water; as all must be considered polluted and unsafe.

2. Boll your drinking water if there is any possibility that your well has been flooded,

3. After the flood water receded

3. After the flood water receded sterilize your wall with chlorine.

A gas incinerator disposes of everything from vacuum cleaner sweepings to ham bones and work bench litter. The fine ash it leaves need only be disposed of once or twice a month and makes a good fertilizer.

There are more than a dozen manufac-turers in the field. Basically, incinerators are of two efficient types: (1) Those with a clock control that sets off a high, hot flame. (2) Those with a steady pilot flame. Models are vailable for both inside and outside instal-
