#### REAR-ENGINE CORVAIR 95's—THE TRUCKS THAT BEGAN WITH 4 WHEELS AND A FRESH IDEA!

Here are high-capacity haulers that offer the most accessible load space you ever saw. Think of up to 1,900 pounds of whatever you haul riding on a highly maneuverable 95-inch wheelbase. This design's a beauty. Features 4-wheel independent suspension, integral body-frame build, thrifty air-cooled rear engine-all kinds of fresh new ideas about truck efficiency and economy.

#### TORSION-SPRING CHEVROLETS-WORTH MORE BECAUSE THEY WORK MORE!

You actually feel the advantages of independent front suspension in the almost total absence of I-beam shimmy and wheel fight. The driver rides easy, the load's better protected, tires take less abuse, the whole truck is subjected to far less damaging road shock and vibration. Efficiency goes up.

Profits follow. Look over the whole line—both types of Chevy trucks.

## A Great Protestant Reformation Within The Protestant Church

When great numbers of preachers on Protestant pulpits all across our great land are in reality infidels who no longer preach or be-lieve such fundamental truths as the eternal deity of Christ, His virgin birth, the atonement by way of His shed blood, His bodily resurrection and other basic Christian truths, then we are in need of a great reformation in the Protestant church world. We at Calvary Chapel of the Christian Reformed Church, as well as the entire Christian Reformed denomination, do believe these truths and preach them boldly. Attend our services on this Reformation Sunday and every Sunday to hear the wonderful gospel of God's sav-ing grace through faith in His Son, Jesus Christ, our Lord.
