Lowell Bank Offers Christmas Savings Club

The State Savings Bank of Lowell is announcing this week the formation of a Christmas Savings Club to provide extra money for Christmas gifts in 1961. This is an offer first for the local bank in working to provide all the programs that local area citizens request.

Cashier Herbert Elzinga pointed out how amazing that little sums you never miss add up to a big check with little to do your gift shopping. As little as 25 cents a week adds up to \$12.50 and just \$2.00 a week brings you a check for \$100 next November for Christmas gifts. You can set your own goal, save as much or as little as you like each week.

Board of Trade Make Final Parking Lot Payment This Week

Dr. Robert Reagan, president of the Board of Trade, this week delivered the final check for payment of the parking lot between Riverside Drive and Broadway.

This lot was purchased five years ago from the several owners by the Board of Trade at a total cost of \$15,000. It was leased to the city for a public parking for shoppers at \$1 a year.

The lot which is being remarked to hold over 50 cars with access from the alley and a drive, has proven to be of great convenience for shoppers. The money to pay for this lot has been contributed by merchants and some from the Showboat earnings.

This is just one of three major projects the Board of Trade has sponsored—First purchasing the property on Lincoln Lake Ave. which was sold to the Lowell Stamping Company; the parking lot; the last project was buying the property and giving it to the Attwood Corporation for their new plant. The total cost of these three projects was \$27,000.

Editor's Comment and Election Issues to Be Voted

Ballot No. 1—National, state and county candidates. Ballot No. 2—Non partisan Supreme Court Candidates. Ballot No. 3—Amendments to the State Constitution.

Proposal No. 1—A continuation of a policy to back school districts bond issues and provide longer terms and lower interest rates by the backing of the state. No one seems to oppose this so a Yes vote is advised.

Proposal No. 2—This amendment would allow the legislature to raise the state sales tax 1 percent to a total of 4 percent. Here the voter really has a choice of taking a known tax increase of 1 percent in sales tax or acknowledge his willingness to have the legislature pass a state income tax of an unknown quantity. It is agreed that an income tax is made necessary by the voters turning down the sales tax increase. We say better a sales tax than an income tax—you can take your choice.

Proposal No. 3—This is the controversial Con-Con amendment. This in itself only provides that the constitutional convention can be called by a majority of those voting for the proposal in

School Board Endorses Const. Amendment No. 1

The Lowell School Board has endorsed Amendment No. 1 to the state constitution, which will be on the ballot Tuesday, November 8. This amendment has no organized opposition and is endorsed by both Republican and Democratic parties and both candidates for the office of Governor, as well as many other professional groups.

Amendment No. 1 makes it easier for school districts to build and pay for new school facilities. This will continue the same policy, in force since 1955, which is due to expire in 1962, and is the policy that made possible the building of the Runciman Elementary addition. The proposal allows bonds to be sold at a lower interest rate because the bond payments are backed by the state, and also permits the district to bond for a longer period of time, holding the tax rate to a lower level.

While this amendment has no known opposition, it is important to the voters to understand that all electors should vote for the proposal. Not voting on the issue means a "NO" vote. With anticipated community growth in the Lowell Area School system the Board of Education feels that the community should be aware of this issue and of their endorsement.

Rainy Night Cuts Halloween Vandalism

Halloween in Lowell was fairly calm and peaceful with the rain and cool weather cutting down the pranks that usually keep citizens and police on edge for the night.

Most dangerous act of vandalism was the placing of a privy on the M-91 bridge over Grand River around midnight. A car coming across the bridge hit the privy but little damage was done. A wrecker was called to haul it away.

Vandals broke a window at 214 N. Hudson by throwing a tomato through the glass. A bale of straw was burned on West Main Street, and a fire hydrant was opened at the corner of Jackson and Main Streets.

This type of Halloween prank occurred under midnight when the children under 18 were off the streets.

Pioneer Carpenter, J. Cliff Hatch, Passes at 81

J. Clifford Hatch, life-long Lowell resident and carpenter, passed away at his home Sunday, October 30, at the age of 81.

Funeral services were held at the Roth Funeral Home on Tuesday at 2 p. m. Rev. J. Marion DeVinney officiated at the services and burial was made in Oakwood cemetery.

Mr. Hatch, born June 28, 1879, was raised here and had an interesting history in the building business in the village, having begun carpenter work at the early age of 15 years.

In 1898 Cliff went to Seattle, Washington, where he was employed by the Great Northern Railway in a bridge building and construction crew who pioneered in that type of work in the northwest.

While in Seattle, Mr. Hatch also worked in the yards of shipbuilding and in a sash and door factory where the huge fir trees which had been cut and properly seasoned were made into finished products. He gained a lot of practical knowledge here and then returned to his home state and Lowell, where he has been building ever since.

Many of the homes in Lowell, Moseley, and Grattan were completely built by Mr. Hatch. His own home on Riverside Drive, built at odd times was two years in the making as he worked on it nights and rainy days when he was not busy on other people's jobs.

Store buildings are still standing memorials of his handiwork. One of the earlier industrial buildings was the old canning factory, the first of its kind in the country, on the site of the present Rutherford plant. The old building burned down quite a few years ago and was replaced with the more modern fashion.

The Bisby bridge, the first concrete structure of the type and size in this part of the country, was built by Mr. Hatch and Archie Lewis. Mr. Hatch also worked on the first dam and power house built by the village of Lowell.

In the early days of Showboat, the seating was put up temporarily and taken down and stored annually. This project for several years was under the direction of Mr. Hatch.

He is survived by his son, George and one sister, Mrs. Della Hatch, both of Lowell.

Lowell Churches Make Statement on Liquor, to Be Voted on November 8th

It is the considered opinion of the Official Boards of the Protestant churches of Lowell that the sale of Liquor by the glass in the City of Lowell would not be advantageous to the community. Some of the reasons are as follows:

1. It would tend to increase the number of automobile accidents. Already 40 percent of all fatal accidents in Michigan involve drinking.
2. For every dollar of liquor taxes collected it costs 4 dollars for law enforcement, alcoholism, traffic accidents and other alcohol related problems.
3. It would tend to bring less desirable elements into the community and discourage more desirable business.
4. It would cause a loss to legitimate business in the community. Money spent in bars and taverns will not purchase food, clothing, gasoline, furnishings, etc.
5. It would encourage parents to spend more time in bars and taverns to the neglect and breakdown of family life.
6. It would tend to increase absenteeism and on-the-job inefficiency by the easy availability of liquor by the glass.

For these and other reasons many cities in Michigan much larger than Lowell such as Ann Arbor, Albion, Cadillac, Battle Creek, East Lansing, Royal Oak and Ypsilanti, do not permit the sale of liquor by the glass. It is the corporate feeling of the churches here mentioned that the sale of liquor by the glass in Lowell is not advisable. We therefore urge you to vote no on this issue on Nov. 8.

Arrows Win Homecoming Contest!

The Lowell Red Arrows defeated the Spartans 12-12 in the Homecoming games last Friday night. After a scoreless first quarter the Arrows capped a 73 yd. drive on the second play of the second quarter as Dilly ran 21 yds. around right end for a touchdown. Dilly also added the extra point around left end.
Lowell kicked to the Spartans and held them to four yards for two punts. Again on the second play from scrimmage half-back Don Dilly broke through a huge hole made by the Lowell line and raced 46 yards for Lowell's extra point was stopped short and the score stood Lowell 13 Spartans 0 at the end of the first half.

The fired up Spartans scored early in the third quarter as Dick McCready plunged over from the two yard line. The Lowell defense stiffened and stopped the extra point try. A few minutes later McCready again scored for the Spartans, this time going 48 yds. off the line.

Lowell's second team defeated the Spartans 27-13 at Sparta Thursday night. Two of Lowell's touchdowns came on pass interceptions by Ted Ford and Lloyd Cready again scored for the Spartans, this time going 48 yds. off the line.

SEE! THE GREATEST SHOW ON WORTH!

A new 2-Door Sedan joins the luxurious Impalas. Door openings measure as much as 6 inches wider.

MEASURABLY NEW, IMMEASURABLY NICE! '61 CHEVY Open the door to a whole new measure of your money's worth! There's more entrance space in this '61 to make getting in and out easier. More rear foot room for the man in the middle. Seats that are as much as 1 1/2" higher—just right for sitting, just right for seeing. A tremendously spacious new kind of deep-well trunk that opens at bumper level for easy, short-lift loading. But look—there's actually less outer space, leaving extra inches of clearance for parking and maneuvering! Neat trick? Bless our ingenious designers and engineers. They've shaped spacious dimensions, proved performance, thrift and dependability into the most sensationally sensible car you could buy. It's waiting for you at your Chevrolet dealer's right now.

Biscayne 2-Door Sedan. That solid Body by Fisher greatly shaped clear back to its classic leading trunk. (The floor's recessed a full 7" to hold things that have never been inside a trunk before!)

Parkwood 9-Passenger Station Wagon. One of 6 easier loading Chevy wagons. All feature a new concealed compartment under the floor. And there are 4 new Chevy Corvairs wagons, too.

See the new Chevrolet cars, Chevy Corvairs, and the new Corvette at your local authorized Chevrolet dealer's

THINGS TO COME

Devotees of Bach, Beethoven and Chopin may now enjoy their favorite music while driving their automobiles. A fully automatic hi-fi record

player has been designed especially for use in cars. And another gimmick for music lovers is a furnace music unit which turns the hot air registers

in a home into a speaker system that can be connected to radio, TV or record player. Ledger Want Ads bring results.

The new Trophy 4 engine puts real performance in the Tempest and cuts gasoline bills to boot. This new baby is *eager to move out* for safe passing. Holds the going pace on any expressway. Breezes up steep hills in high gear. This new 195 cubic inch displacement, 45° inclined, short stroke, 4 cylinder engine has a wide range of h.p. ratings. With single-barrel carburetor and stick shift: 110 h.p. (regular gas) or 120 h.p. (premium gas). With the same carburetor and extra cost automatic shift: 130 h.p. (regular gas) or 140 h.p. (premium gas). Want still more? Order the 4-barrel carburetor with the automatic and jump the output to **155 h.p.** (Or buy the 155 h.p. aluminum V-8 option.)

Rear axle drive and transmission are combined (a trans-axle). Flexible shaft from front engine delivers smooth, quiet power. Perfect 50-50 balance gives a flat, level ride that no other new-size car can touch. *Rides like the big ones!* An equal load on every wheel. Steering is light and easy! Better braking and improved traction in snow, sand or mud! *Independent suspension at all wheels.* Swing axles keep Tempest on an even keel over bumps, ruts, dips and holes! **112" wheelbase.** Long enough for a cradled ride—short enough to handle like a sports car. **Big 15" wheels.** Good road clearance.
