Perhaps you have read of the action already taken by General Motors Corporation to advance GMC Truck & Coach Division in the growing field of commercial transportation.

This program-known at GMC as "Operation High Gear"- is the greatest engineering, manufacturing and quality control program ever undertaken in the industry.

It already has produced new, cost-cutting concepts of vehicle design in heavy duty highway tractors and the time is approaching when this program will culminate in a full line of the most advanced trucks developed over the past twenty years - 1/2 ton pickups to giant 60-ton haulers.

To the able and aggressive businessman qualifying for this opening there lies ahead an exciting product, a profitable relationship and a secure future. Write or phone today for further details.

With the new school year starting soon, James M. Hare, Chairman of the Michigan State Safety Commission, reminded motorists this week that the law requires drivers to come to a complete stop ten feet in either direction of the control when the bus is halted to take on or leave off passengers, and that they must not resume movement until the bus gets underway or the driver signals approval to proceed.

"This law," Hare said, "does not apply to approaching traffic on a clearly designated divided highway.

Justification

We believe and teach that on the basis of the finished work of the Lord Jesus Christ God grants forgiveness of sins and declares the sinner righteous before him; that God imputes Christ's righteousness freely of his grace and not because of any merit of man; and that this righteousness becomes the possession of all who believe in Christ with a true
