QUALITY ... It's unwise to pay too much . . . but it's

worse to pay too little. When you pay too much, you lose a little money . . that is all. When you lose a little money. . that is all. When you pay too little, you sometimes lose everything, because the thing you bought was incapable of doing the thing it was bought to do. The common law of business balance prohibits paying a little and getting a lot — it can't be done. If you deal with the lowest bidder, it is well to add something for the risk you run. And if you do that, you will have enough to pay for something better.

**HOW MUCH DOES IT COST?** 

Can you put a price on fire damage? What's the cost of a house swept away by fire, or a business? The fruits of a lifetime that goes up in smoke in a matter of minutes. A price tag cannot be attached to the tragedy of a fire. Can 20 years savings be replaced in another 20 years? If the individual has made the necessary preparation in anticipation of the ever present danger of

away, perhaps forgotten . . . go check it today. Is your property properly evaluated? Don't wait until fire strikes to bring your policy up-to-date. Today's fire shouldn't be the dread disaster it once was . . . YOU CAN BE PREPARED.

### IN CHRIST

"Therefore, if any man is in Christ, he is a new creature: away behold, all things are become new." II Corinthians 6:17

A grand example of this is to found in the narretive of Noah and the great flood Noah and his family were safe or saved in the ark. The world was lost and perished

Are you safe in Christ, or lost outside of Him?

"Rock of Ages, cleft for me, let me hide myself in Thee; Let the water and the blood, from Thy wounded side which flowed, Be of sin the double cure, save from wrath and make me pure." This message paid for by the Sunday School of Calvary Chapel

# Coon ners will be determined by a entered in the Contest this DODGE PRESENTS THE DEPENDABLES FOR 1963!

# INTRODUCING THE 1963 DODGE

Now a complete new line of cars in the low-price field. The 1963 Dodge! People who see it just naturally get carried away. Reasons? 1. The looks: Great! 2. The price: Low! Wouldn't you rather own a Dodge than other low-priced cars? 3. The room: Big! Notice how the roofline sweeps straight back. That means ample headroom for the people in back, not just the ones in front. Seats? Your choice of models with sofa style, buckets or fold-down center arm rest. 4. The upkeep: Low! Dodge is rust-protected. The body unitized. The brakes self-adjusting. A major grease job lasts 32,000 miles, an oil change 4,000. 5. The feel behind the wheel: Like nothing else! Five engines to choose from. Smooth-going torsion-bar ride. Easy low-friction steering. Comfortable chair-high seats. Nylon, leather-grained vinyls. There are several hundred more reasons why you'll be carried away. Your Dodge Dealer has 'em all. See him.

# **INTRODUCING COMPACT'63 DART**

At last. A compact that doesn't give anyone the sardine treatment. The 1963 Dodge Dart! Now everyboth gets a fair shake on room. Note the roofline. It goes straight back. Result: Even rear-seat hat wearers are treated with deference. And so are those who like some action for a change. Dart's standard engine leaves the run-of-the-mill compacts waiting and wheezing. Its optional engine (just a few bucks more) is the same way, only more so. Economical? Like you'd expect a compact to be! That's the whole idea. Dart's too roomy to be a compact, but too damed thrifty to be anything else.

Few compacts cost less than Dart. None offers the value. A unitized body, for example, that's rustprotected. 32,000 miles between major grease jobs. Torsion-bar ride. Alternator.
