In the last two years, the Michigan taxes you pay have increased more than \$100,000,000 a year. Yet, despite this added income, we owe more than we did two years agowith the State's deficit today standing at a whopping \$85,000,000.

Well, GEORGE ROMNEY.

what are you going to do about our STATE FINANCES?

The real question here is not alone one of money—but, mostly, one of serving people.

Can a state government which is bankrupt, deeply in debt and poorly managed provide the right kind of services for the people of Michigan? Or can a state with a people of Michigan? Or can a state with a people of Michigan? sound financial structure and which is well-managed provide better services? Under which kind of government will the people of Michigan benefit most?

crazy-quilt tax program. A new tax program must reflect the wishes and the ability to pay of all the citizens.

Better schools. Better mental health facilities. Better employment services. Better social services. All of these services, to be better, must be supported by a sound, well-managed state financial program.

LEADERSHIP in Lansing is necessary to bring all sides together to work for a sound, equitable financial program that will benefit all the people of Michigan. I'd like to put my experience in leading groups of people with diverse ideas to work for you.

SECTION TWO The Lowell Ledger

LOWELL, MICH., THURSDAY, NOV. 1, 1962

RE-ELECT

Treasurer

THERE IS NO SUBSTITUTE FOR EXPERIENCE

YOU COULD LOSE YOUR REPRESENTATION!

Remember July 18?

Memories are short these days. So much is happening that we sometimes forget the events of only a few months ago.

But, when we vote on November 6, we'd better remember July 18.

That was the day when the Supreme Court of Michigan threw out, by a one-vote margin, the State Senate apportionment we voted for just 10 years ago. The court told us we had to take the kind of apportionment demanded by Gus Scholle, regardless of the fact that the people had overwhelmingly rejected it at the polls.

By that same one-vote margin, the Court also cancelled the primary election and told the people they might have to elect 32 Senators on an at-large basis.

This could easily have meant that all the Senators would come from one or two counties, depriving us of our voice - of any voice - in the Senate of Michigan!

Only action by the U. S. Supreme Court saved us! And the fight isn't over yet.

What does this mean to us on November 6?

Well, the present Governor has said that the Michigan Supreme Court decision, which almost cost us our representation in the Senate, was "A great victory for the people." Which people, Governor Swainson? Certainly not those of us who live here. Certainly not the 1,269,807 of us (a 294,289 majority) who voted for the present Senate plan that the Michigan Supreme Court threw out.

Fortunately, the Governor's opponent, Mr. George Romney, supports a Senate apportionment plan which provides effective representation for all the people. He also supports the right of the people to vote on the kind of legislative representation they want. Romney has called the Swainson-Scholle apportionment steamroller a "power grab." He's right. When we vote on November 6 we ought to remember what John Swainson

wants to do to our voice in the legislature. We ought to remember where George We ought to remember that Governor Swainson's appointee, Attorney General Kelley, deserted the people and argued for Gus Scholle.

We ought to remember that two Justices of the Supreme Court are up for election, and that we can change the make-up of the Michigan Supreme Court by electing two new Justices.

Let's remember July 18 on November 6. Let's do what we can to see that we still have a voice in the State Senate.
