Starting Off on The Right Foot

slope on a pair of skis for the first time this season? If so, here are a few suggestions to help you off to a smooth, safe start. Get into shape before starting to ski by doing exercises at home that will strengthen foot, ankle, leg and hip muscles. Learn the fundamentals of this swisher sport from a qualified ski instructor or experienced skier. Seek their competent advice about selecting equipment. Always use safety release bindings and an Arlberg safety strap (top left photo) while skiing. Dress warmly; when your legs, feet and ankles are warm, they function better and are less prone to accidents. As a novice, avoid skiing on crowded slopes. Don't be a hot-rod on skis. Always smooth over holes made in the snow when you fall.

ritis.

"This is your chance", said Dr. Wagner "to walk hand in hand with science and by raising dollars and dimes help us to find the answers to the host of unsolved problems that cause disease and death. Birth defects are second only to accidents in crippling and incapaciting. Twenty-five percent of the population has some form of arthritis. By helping to establish Clinical Study Centers, Special Treatment Centers and Evaluation Centers across the country you can achieve immediate and positive action for the good of humanity. Early diagnosis will speed up treatment and save many lives. Early treatment will reduce distability. A better opportunity to rehabilitate will help more quickly restore patients to normal, or near hormal, lives. The dimes and dollars you raise during January can bring about amazing results for the many individuals who are depending on us for help."

".... the shepherds said one to another. Let us now go even unto Bethlehem, and see this thing that is come to pass . . . . " Luke 2:15

Let us also, in our thinking, go to Bethlehem. Let us see a baby, a baby wrapped in swaddling clothes, a baby lying in a manger.

Let us also in faith see this baby as Savior, as Christ the Lord, as the virgin born Son of God. Unless we in faith see this, we will completely miss the meaning of going "to Bethlehem to see this thing that is come to pass,"

### **Better insurance** at LESS GOST?

Yes — it's often possible. Unfortunately, many people think that insurance improvement always means additional expense. Actually, recent developments in packaged insurance and other costsaving techniques frequently make it possible to provide broader insurance at less cost! Why not let us review your program for possible savings? No cost or obligation, of course,
