R.S. CASWELL—3925 E. Fulton 1 Mile East of E. Beltline (Next to Freeway) Grand Rapids, Mich.

Michigan's rapidly expanding freeway system (double lines) is ber 16, a Christmas carol and Hospital Friday morning. They Michigan's rapidly expanding freeway system (double lines) is shown lacing the state together in this special map from Automobile Club of Michigan. The new 160-mile-long Detroit-Muskegon Freeway, I-96, contains the 1,000th mile of freeway in the state. Together with I-94, the Chicago Road, it connects eastern and western shores of Michigan. The still-abuilding I-75 runs up the center of the state, temporarily utilizing portions of US-23, US-10 and US-27. Also shown are the completed portions of other state freeways, together with some of the older trunk highways (single lines).

Opening of the 1,000th mile of general manager.

Richardson, Mr. and Mrs. Fred the week end at their respective homes here.

# **Announcement To Mary**

"Now in the sixth month the angel Gabriel was sent from God unto a city of Galilee, named Nezareth, to a virgin betrothed to a man whose name was Joseph. f the house of David: and the virgin's name was Mary . . . And the angel said unto her, Fear not, Mary: for thou has found favor with God. And behold, thou shalt conceive in thy womb, and bring forth a son, and shalt call his name Jesus. He shall be great, and shall be called the Son of the Most High: . . . and of his kingdom here shall be no end. And Mary said unto the angel, How shall this be, seeing ! know not a man? And the angel answered and said unto her. The Holy Spirit shall come upon thee, and the power of the Most High shall overshadow thee; wherefore also the holy thing which is begotten shall be called the Son of God." Luke 1:26-35.

The virgin birth of Jesus Christ is the clear teaching of the word of God, How could any true preacher of God's word deny or have an open mind, or be neutral on anything so plainly taught?

AMWAY SALES CORPORATION invites you to visit its ultra modern offices, and to tour its manufacturing and warehousing facilities on M-21, just across from Ada. This office and plant are the National Headquarters of a three-year-old business which has enjoyed unparalleled growth since its inception, and which today represents the fastest growing new industry in the Greater Grand Rapids Area. Three years ago Amway began distributing household maintenance products in the Great Lakes Area. Today it is an international corporation, manufacturing and distributing a broad line of products throughout North America, through over 20,000 independent Direct Sales Distributors. Products range from a wide selection of superior quality home care items, such as cleaning products, polishes, waxes and deodorants, through fire extinguishers, stainless steel cookware, and water softening equipment. As manufacturing, promotion and distribution activities increased, Amway made a series of moves to ever larger facilities . . . this trend was culminated with the recent completion of the present complex of inter-connected buildings including the 4,000 square foot bilevel office building, plus the factory, shipping warehouse, storage facility and automated restaurant for the company's 100 home based employes. In all, 30,000 square feet are here devoted to a business that is testimonial to the fact that soaring growth is still possible for even the smallest business begun under the American free enterprise system. The growth of Amway is an indication of the growth of the independent distribution of Amway Products throughout America. New distributors are being added constantly. Come and see it at 7575 E. FULTON RD. AT ADA. Richard De Vos and Jay Van Andel.
