clearly.

To Go In Snow

Why do some cars start without trouble on even the coldest, dampest mornings while others grind away and run down the battery? It could be any of several reasons but experience shows that worn spark plugs are often the biggest trouble maker. Don't head into winter without professional checking of your battery, your ignition system. Failure can mean "no start" or stalling in traffic some cold damp morning.

How about your tires and tire chains? Do your tires have enough tread to aid on snow? Snow tires are better than regular, but reinforced tire chains are needed and most reliable for really severe conditions. In deep snow and on ice they help you stop far more safely and increase "go" traction by 400 per cent. Chains often mean the difference between moving and being stalled during severe conditions or on hills.

Bobcat Chase

Take a crisp winter day, blanket it with a thin layer of fresh tracking snow, add several hard-working hounds and you have the ingredients for fast-paced sport--bobcat hunting in northern Michigan. Naturally, is also takes a good measure of go-power on the part of hunters to make the chase a success. From now-through February 15, several hundred hunters will be on the swampland trail of 'cats in the northern lower peninsula. For many of them, the thrill of the hunt will be in the chase rather than in the kill. In recent years, a growing number of northern lower peninsula sportsmen have passed up chances to shoot 'cats they have treed, knowing the animal's numbers have fallen off in this area. The decline led to the area's season being shortened one month this year. In the upper peninsula, the bobcat's reputation as a great game animal has been dulled by a price tag on his head. He's hunted year 'round both for sport and a \$5 bounty payment above the Straits.-Mich. Dept. of Conservation.

Repent or Perish!

If there is a message which is needed today for a civilization that is heading for the jungles it is this 'message: "repent or perish." John the Baptist, forerunner of Christ, preached that message. He said "Repent ye; for the kingdom of heaven is at hand ... And even now also the ax lies at the root of the trees: every tree therefore that bringeth not forth good fruit is hewn down, and cast into the fire." Matthew

Do we still dare call our civilization Christian? How can we when church attendance is now on the decline, the divorce rate is rising higher and higher, illigitimate births are on the increase, "venereal disease is today a serious and worsening problem, threatening to sweep the country like a forest fire." (Ladies Home Journal, January-February, 1963). This same magazine gives these shocking statistics: "In one year-1959-60-there was a 59% increase of infectious syphilis in the 15 to 19 year group, a 73% increase among 20 to 24 year olds; 1961-62 figures are expected to show even greater increases." Aren't we heading for the jungles?

How about our own community? Would you call it Christian?

Repent or perish! That's the message of the Bible. That's my message, too. -H. Buikema

I just received the Saturday Evening Post, Dwight D. Eisenhower says: "Indolence and lack of moral principle present a greater threat to America than the a ned might of Communism." That is so right! -H. Buik na
