The great message of Easter is, "He Lives." The Christian religion is the only religion in the world which claims that its Founder arose bodily from the grave. For that reason, among others, the Christian religion is the only happy and joyful one.

Every Sunday as the true Christian makes his way to God's house to worship he confesses his faith in a living Savior. It would be foolish to worship a dead "savior". for a dead "savior" would be no "savior" at all. It is possible, of course, to go to church out of form, custom, or habit; or for soc-

ial or religious prestige without a personal relationship with the living Christ. If that is so in your case, then you are not a Christian. Turn to Christ and receive Him as

We celebrate the Easter event every Sunday by worshipping the Living Savior. We invite you to join with us.

joyous observance of Spring. Our warning has to do with bicycles. Now that the good weather is setting in, children will be dragging their bikes out of storage places and taking to the streets and highways. If these ardent cyclists don't know the proper and safe way to handle their bikes, they can be easily involved in dangerous traffic situations. Last year-the National Safety Council points out -550 lives were lost in bicycle accidents, the heaviest toll since

1949. Since the majority of the fatalities fell in the 5-to-14 age group it would seem to us that parents should insure that their children are fully aware of, and practice, safe bleyeling habits. The Council particularly urges observance of the following rules: Ride on the right side of the road; obey all traffic control regulations and use preper hand and arm signals for turns and stopping. When cycling with others, ride in single file. Save stunting and showing-off for yards or other untrafficked areas. Never try to squeeze in between two lanes of traffic. At busy intersections
