Renovate Grandstand at Park

The Lowell Moose Civic Improvement Committee, headed by Mel Lewis, has spent the past two week ends repairing the Recreation Park grandstands. Metal sheeting was put on the roof and back of the structure, three rows of new seat boards were installed and the east end of the building was replaced. The stands are to to be painted and new screen installed in the near future. A total of over 200 man-hours were donated by a dozen or more Lowell Moose members, The renovation was supervised by Les Sherman of the Moose and Rog Bieri for the Y. M. C. A. The above picture (going up the ladder) shows Pat McCormick, Les Sherman and Herb Swan, jr., embarking to work on the roof area. With proper maintenance, this building should stand and be a service to community affairs for at least another 29 years.

Special millage levy is fastest, most economical way to pay for new City-County Center, the key to area-wide development

By voting special millage June 18, taxpayers can finance the new City-County Center on a pay-as-you-go

The issue at stake is the method of financing the new

buildings. These must be built to replace present antiquated structures which are located in a renewal area and must be razed. Financing by any other available method will incur heavy interest payments which must be paid for by the

taxpayer. This will cost the taxpayers millions of dollars more and will delay the start of this project. It's time to put our governmental facilities in order, to build anew for the needs of modern-day local govern-

ment that is serving a greatly expanded population. New, attractive private buildings adjoining the City-County area will add \$15,000,000 to the City and County tax rolls, which will benefit all taxpayers by spreading the tax base. The new City-County Center is the key to this private investment!

Elected officials of the Kent County Board of Supervisors and the Grand Rapids City Commission have unanimously endorsed the City-County Center plan.

The joint effort of City and County governments assures the taxpayer of greatest economy in cost and efficiency in operation.

We can do the job together now and save millions of dollars by voting 'Yes' June 18 for the special millage levy of financing our new City-County Center.

The Unheeded Warning

Some years ago a man who lived on Long Island bought himself a very fine barometer. When it arrived at his home, he was extremely disappointed to find that the indicating needle appeared to be stuck, pointing to the sector marked "Hurricane".

After shaking the barometer vigorously several times, its new owner sat down and wrote a scorching letter to the store from which he had bought the barometer. The following morning on his way to his office in New York, he posted the letter,

That evening he returned to Long Island, to find not only the barometer missing, but also his house. The barometer's needle had been right . . . there was a hurricane

Many people disregard the equally clear warnings of the Bible! They never expect to see them fulfilled. Yet the Bible means what is says, and it's warnings are graciously given to lead us to Christ for salvation!

Lucky Girl ... She's Getting Electricity!

> The bride probably would think you'd slipped a cog if you told her how fortunate she is to have electricity. Why, she'd likely say to herself, or maybe aloud to all assembled, "EVERYONE has electricity. What's so lucky about that?"

> HERE'S what's so lucky about that: The electricity used in the average home is the equivalent of the manual work of 33 servants working a 40-hour week throughout the year. The electricity used to do household chores such as washing, cleaning, ironing and

Like we said, the bride is a lucky girl!

cooking is equivalent to about 61/2 servants.
