Iron Fireman CUSTOM Mark II oil furnace with instant clean flame. Unequaled for clean comfort, low fuel bills and trouble-free performance

Comfort

With the Iron Fireman CUSTOM Mark II furnace you use a supersensitive thermostat which operates the furnace with the slightest variation of room temperature. This gives you remarkably uniform indoor temperature. No matter how often the furnace starts there is no smoke, no soot, no fouled combustion chamber, no wasted oil. Cleanliness

With the instant clean flame there are no flecks of soot blowing from your chimney or escaping into your home. Hundreds of tests made with smoke-detecting instruments show a flame that's absolutely clean from

Owners report remarkable fuel sav- chimney draft ings. There is no smoky warm-up period to foul the furnace and waste oil. Service calls are cut to

ART WARNING, Proprietor

WEATHER FORECASTING IS IM-PROVING steadily ... a fact that's mighty important to Michigan farmers and to city folk, too. One big reason for the improvement is

Tiros, our country's weather satellite. The Bell Telephone System, of which Michigan Bell is a part, plays a vital role in Operation Tiros. Telephone people helped put Tiros in orbit. Now, Bell communications help flash Tiros' findings to weather scientists, then rush their analyses to field stations, newspapers, radio and television broadcasters across the nation . . . giving you the latest, most accurate weather information possible.

"-AND TWO IN BLUE ..." When you're busy with the children or the weather's bad, you can still get your day's shopping done. Just use the phone! You'll be surprised how many items on your shopping list can be handled quickly with just a few telephone calls. Try it soon.

ALWAYS THERE! Have you ever wondered, how Michigan Bell makes sure the necessary personnel are on hand to take care of your calls? Having the right number of people to serve you at all times requires careful planning. The vol. on hand to take care of your careful planning. The vol-ume of calls can vary widely from one hour, one season, to another. We constantly study our records to determine the volume of calls expected . . . and the proper number of people needed to handle them. This way,

Michigan Bell can provide the telephone service you

want, at the lowest possible cost.

Mistakes or Sins?

When a man steals, is that a mistake or is it a sin? When a man commits murder, is that a mistake or is it a sin? When a man commits adultery by, for example, running with another man's wife, is that a mistake or is it a sin?

There are many today who call these things mistakes, social blunders, etc. God calls them sins. True repentance requires that we call these things sins, too.

-Achan, when he stole, made confession by saying, "Indeed I have sinned against the Lord God . .

-David, when he committed adultery with another man's wife, repented by saying, "I have sinned against the Lord . . . " III Samuel 12:13

The prodigal son, when he came back home said, "I have sinned against heaven, and in thy sight . . .

Let's quit calling sins "mistakes," and call them sins as God does and as all true
