Sparta defeats Lowell 27-7

Lowell suffered its first defeat by Sparta, in its six year history of competition with this school, which began in 1959. The Arrow eleven was beaten 27 to 7.

Sparta scored three times in the second quarter on a strong running and passing attack. Lowell held them scoreless in the 1st and 3rd quarters. Both teams scored once in the final quarter.

Malcolm Scores

Lowell's only score came with just 1:08 left in the game on a 4-yard pass from Steve Collins to Jim Malcolm.

Lowell had moved the ball from their own 12 yard line on 13 plays. Big gainers were a pass to Malcolm for 10 yards and a screen pass to Pat Hoag good for 47 yards.

The extra point was scored on a pass to Pete Osborne.

The Arrow team was plagued with injuries throughout the game with Jerry Dykstra, Brad Fonger, Mark Craig, John Briggs, Joe Melle and Rick Briggs being helped from the field.

Coach Charles Pierce expects all to be ready to go this week, except Rick Briggs, who has a cracked bone in his leg.

Make Changes

In getting ready for their second conference game to be played at Belding on Friday night, Coach Pierce expects to make some changes in the line up.

Hillis Kaufman & Larry Powers, who showed up well in the second period of the Sparta game, will start as halfbacks. Pat Hoag and Pete Manigold will alternate at fullback.

Dan Finkler, who has been injured, is expected to get limited use as a linebacker and Hoag will also be used in a linebacker's spot.

Belding Improved

Belding won its second game of the season last Friday when they defeated Cedar Springs 20-19. They are an improved team and unless the Lowell team starts hitting and sharpening their defense, Belding might win its first game in many years over Lowell.

Sparta JV 13, Lowell JV 0

September 23, the Lowell Junior Varsity met the Sparta JV team in their first conference game, and their first game on their home field.

Lowell kicked off to Sparta and took over on Sparta's 35 on a fumble. Terry DeWitt picked a pass out of the air, after it had topped off the hands of a Sparta interceptor, for the first down of the game. They played the first quarter pretty much in Sparta territory.

Sparta Scores Twice

After the second quarter started, the game changed as Sparta scored twice, failing to convert the extra point on their first touchdown. When the half ended the score was Sparta 13, Lowell 0.

Lowell's defense held in the second half and Sparta didn't score again, but their offense couldn't get rolling and Lowell didn't score either, the final score 13 to 0 Sparta.

Paul Dreher, Grand Rapids Civic Theatre, is playing the principal male part in the commercial.

Irvin Rodgers, Conservation director predicts fairly good corn crop

"We expect a fairly good corn crop if frosts hold off until late September," reports Kent Soil Conservation Director Irvin Rodgers of Albion.

"Most of the crop is a week or two late from the average seasonal maturity. Lack of timely rains and about two weeks of cool nights slowed maturity this year. Late August rains started growth again."

Early corn planting has been suggested the past several years. How does corn planted early in May this year compare with fields planted later?

Ben Sarver, a Caledonia Township District Cooperator, planted one of his fields May 1. This field, on lighter sandy loam will go into the silo. Drought hit this field just as the cars were forming, his best corn, planted in mid May, is on heavier loam. Such is the gamble to know just when to plant.

When soil conditions are right is generally the time when the first corn planting is begun with the hope into spring frosts and a possible drought may not come about.

Heavy nitrogen application on some of the more drought and drought carry-over of nitrogen for the next crop.

Martin Skolmer, Solon Township, found that his oat crop yielded better where 80 to 100 pounds of actual N had been applied on corn the previous year.

Steve Skolmer, a junior Cedar Springs F. F. A. student this year, plans to be the farm-

er in his family. As we walked the farm with him to revise his dad's conservation plan, we noticed a fine new alfalfa stand which had been seeded August 15. "We need more alfalfa for dry lot feeding and for green chopping," said Steve.

To show the adaptability of alfalfa on different soil capabilities, we secured an alfalfa plant, roots and all, from Joe Misak of Caledonia. Joe sells seed from one of his fields. This plant was taken from the edge of the pit. We were able to get the roots down to the seven feet level. They, of course, extended down several feet more.

Misak said he planted Grimm alfalfa ten years ago. A short distance from the pit is a two acre red pine—white pine grove, planted by the Caledonia FFA nearly twenty years ago.

This different crop use is on the same very droughty sand soil to reduce or to use a permanent alfalfa forage type crop. It would be interesting to know how many test this one alfalfa plant, grow each year, it's search for moisture. Once such a plant becomes established droughts have little effects on its growth.

The same day we assisted the Harold Johnson's of Caledonia Township with their new conservation plan. The Johnsons have alfalfa on a few acres of the same deep loamy sand as was found on the Misak farm.

Mrs. Johnson mentioned that she wishes they could plant a few pine trees on the farm. But here, alfalfa is needed for the dairy herd. It is a protective land cover.

Michigan hunters are not required to have small game licenses when they hunt on their own enclosed farmland upon which they live. Also, anyone who works and lives on enclosed farmlands of another may hunt on these lands without a small game license.

Mr. and Mrs. Clare Carey called on Mrs. Harold Baragar & Mr. and Mrs. John Poolman of Grand Rapids on Tuesday.

See it now. And if you're carrying a big torch for a car that'll really move you, bring the torch along.

Demand more "big" in your big car. Insist on Dodge-sized Polara.

HERE'S HOW DODGE'S 5-YEAR, 50,000-MILE ENGINE AND DRIVE TRAIN WARRANTY PROTECTS YOU: Chrysler Corporation confidently warrants all of the following vital parts of its 1966 cars for 5 years or 50,000 miles, whichever comes first, during which time any such parts that prove defective in material and workmanship will be replaced or repaired at a Chrysler Motors Corporation Authorized Dealer's place of business without charge for some parts or labor: engine block, head and internal parts, intake manifold, water pump, transmission case and internal parts (excluding manual clutch), lower cover, drive shaft, universal joints, rear axle and differential, and rear wheel bearings. REQUIRED MAINTENANCE: The following maintenance services are required under the warranty—change engine oil every 3 months or 4,000 miles, whichever comes first; replace oil filter every second oil change; clean carburetor air filter every 6 months and replace it every 2 years; and every 6 months furnish evidence of this required service to a Chrysler Motors Corporation Authorized Dealer and request him to certify receipt of such evidence and your car's mileage. Simple enough for such important protection.

To America with love... The 1966 Chrysler

Could be we're getting too emotional. But it isn't very often you get a chance to follow an all-time sales record year with a new Chrysler like this one.

It's got a bigger and more zesty group of V-8 engines. From a 383 cubic inch turbo to a 440 TMI with twin exhausts and twin snorkels. (A "snorkel" is an air intake horn for the carburetor—does great things for performance.)

Everyone Welcome

CARD OF THANKS

Nothing we can say will express to all our friends and relatives what's in our hearts for all the many acts of kindness and love that you've all shown us in our great loss. With God's help we'll take just one day at a time, and we know by his strength we can carry on.

Mrs. Floyd Clark and Royal Mr. & Mrs. Fay Clark and family

No spot in Michigan is more than 85 miles from one of the Great Lakes.

IN MEMORIAM

In loving memory of Mrs. Norma Malone who passed away one year ago, October 4, 1964.

Precious memories never die. As years roll on and days go by.

In our hearts a memory is kept. Of one we knew and loved and never will forget.

Michigan's 36,500 miles of rivers and streams would reach around the world almost one and a half times.

OES contributes to many charities throughout state

The Order of the Eastern Star is a charitable organization. In Michigan, through the 50-cent contribution to the Every Member Project, the following charities are supported:

1. The Villa for children, ages 6 to 18, located in Adrian
2. Educational Scholarships for first and second year college students.
3. Educational loans for third and fourth year students.
4. Estari scholarships for those studying for the ministry or other religious fields.
5. Relief funds for aged Sisters, cancer cases and emergency situations.

ESTARL (Eastern Star Training Awards for Religious Leadership) is a General Grand Chapter department but the funds are returned to Michigan to be allocated to scholarships which are given to young men and women, of all denominations, who are sponsored by Eastern Star Chapters.

Eastern Stars throughout the Eastern Star World have set the record of contributing a Million Dollars for religious training scholarships. Michigan has, up to this point, contributed approximately \$50,000.00, having given assistance to approximately 200 young people.

The Estari program prepares young men and women to go out into the world and teach the spirit of tolerance, understanding and the gospel of the universal peace and Brotherhood, regardless of differences of color, creed and opinion. Their influence through united efforts might play an important part in saving the world for future generations.

If space permitted, testimonials could present many personal messages of appreciation from young people who are now occupying parishes in Michigan, who have gone forth into foreign fields of service and who have become ambassadors of good will.

Other scholarships touch all other kinds of courses, except religious training. These grants are made to High School students and sometimes these scholarships have been extended into the sophomore year of college.

About 200 students have benefited from these free grants and about \$50,000.00 in funds have been given to them in aggregate total amount. The most common categories are: Teaching, medical, dental, air hostess training, nursing, business, science and engineering. Many of these same beneficiaries take advantage of the Educational Loan Fund department in their junior and senior years in college.

Sign on a church bulletin board: "The wages of sin have never been reduced."

San Francisco's recent Religion and Peace Conference was the perfect setting for this bit of tact: at one session a woman suggested a resolution declaring that the only true peace is the peace of Christ. All eyes turned to the rabbi who was chairman. "Well," he said, "don't you think it might prove controversial: For instance, the Buddhist delegation might object."

Miss Lynn Phillips became the bride of Gary Gage on Saturday afternoon, September 18, at two o'clock in the Calvary Christian Reformed Church of Lowell.

The bride is the daughter of Mr. and Mrs. Robert Phillips, Bailey Drive, Ada, and the bridegroom's parents are Mr. and Mrs. Roy P. Gage, 9945 Sayles Road, Saranac.

For her wedding, the former Miss Phillips chose a floor-length gown of lace over satin fashioned with a scooped neckline enhanced with pearl appliques, long tapered sleeves and a bouffant skirt.

A double pearl crown secured her bouffant veil and she carried a bridal arrangement of carnations and roses.

Bavarian—A Peach Of A Pie

Make the most of the fresh peach season while it lasts with this Peach Bavarian Pie. Orange flavor gelatin and whipped topping mix make the filling easy to prepare. And incidentally, whipped topping mix for sliced peaches or other fresh fruits just can't be topped for taste. So keep a supply on the shelf for summer-long cool delicious desserts.

- PEACH BAVARIAN PIE
- 1 package (3 oz.) orange fla-or gelatin
 - 1/4 cup sugar
 - Dash of salt
 - 1 cup boiling water
 - 4/3 cup cold water
 - 2 tablespoons lemon juice
 - *Or use 1 package (12 oz.) frozen sliced peaches, thawed, drained and chopped.
 - 1 envelope Dream Whip Whipped Topping Mix
 - 1/2 cup cold milk
 - 1/4 teaspoon almond extract
 - 1 cup sweetened chopped peaches, drained*
 - 1 baked 9-inch pie shell, cooled

Dissolve gelatin, sugar, and salt in boiling water. Add cold water and lemon juice. Chill until slightly thickened. Meanwhile, combine whipped topping mix, cold milk, and almond extract in a deep, narrow-bottom bowl; whip as directed on package. Fold 1-1/2 cups prepared whipped topping and the peaches into gelatin. Pour into pie shell. Chill until firm. Garnish with remaining prepared whipped topping and peach slices, if desired.

Burn mortgage in Ada church

Mortgage-Burning Service was held at First Congregational Church of Ada. Shown above, participating in the ceremony are Mrs. Merle Cramton, who holds the oldest membership in the church; the Rev. Lee Dalrymple and Mr. Gordon Campau, chairman of the Building Fund and church treasurer.

First Congregational Church of Ada held a "Service of Mortgage-Burning" on September 12, in which the congregation celebrated the payment in full of the 11-year mortgage on its Fellowship Hall unit, constructed in 1954.

Gazing at the symbol of its freedom from indebtedness are the participants in the Mortgage-Burning ceremony, as shown above: Mrs. Merle Cramton, who holds the oldest membership in the church and whose late husband turned the first shovelful of dirt for Fellowship Hall; the Rev. Lee Dalrymple, pastor of the church since March, 1962; and Mr. Gordon Campau, Chairman of the Building Fund for Fellowship Hall and treasurer of the church since 1955.

Fifteen minutes after the mortgage was burned, the congregation voted to proceed with plans for a new addition to Fellowship Hall, at an estimated cost of \$80,000, in order to provide more room for its Sunday School. A financial drive for this project will be conducted later this fall.
