Voc-Tech citizens committee report

Committees composed of leaders in Kent County industries, businesses, & school have been meeting weekly for the past month to initiate plans for a vocational-technical school for Kent County.

Mike Doyle is Lowell school's

representative on the 18-man ac-tion committee. Others on the various committees are Gerald DeForest, John Troy and Harold Jefferies.

It is hoped that a vote for such a facility can be held at the regular school district annual election June 13, 1966. Each of the 18 out-county dis-

tricts has 4 representatives serving on the following committees: Curriculum, Facilities, Finance and Publicity, and Public The State legislature has be-

fore it two bills pertinent to the Kent Intermediate School Vocational Technical Institute. One is House Bill No. 3432, which will permit the Intermediate school district to own a vocational technical school, & bond construction and equipping

Second is House Bill No. 3802 which will permit out-county Kent to vote for this facility

The publicity and public reittees wot to stress the urgency of completing two matters. First, it is necessary that the legislature act favorably on these two bills, and second, that these bills are passed in the near future to enable the committees to func-

ginning April 1, 1966. The new rate ordinance is published in full on another nage of this issue

The rate in general raises the minimum cost of 10,000 gallons of water and the accompanying sewer service charge from \$6.25 per quarter to \$13.20 for 10,-

000 gallons. For very small water users a new bracket for homeowners with % meters using up to 6,000 gallons a quarter, has been set which will cost them \$8.80 per quarter.

Most drastic of the rate changes is on business and industry with large capacity taps on the city's mains.

In some cases a business with a 2 inch main which might pay only the present minimum \$6.25 per quarter, would now be set up to pay over a hundred dollars a quarter with the same consumption.

The only way to get into the smaller brackets is to install a new meter at the owner's ex-

MICHIGAN MILK PRODUCERS ASSOCIATION IS CELEBRATING

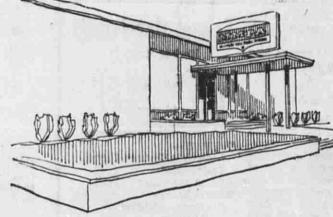

What is Michigan Milk Producers Association? What does it do for its members? What does it do for you?

MMPA

Michigan Milk Producers Association was founded by a handful of Michigan dairy farmers in 1916. Today, MMPA has more than 9,000 members and last year marketed over \$127 million worth of milk. In fifty years, MMPA has become one of the largest dairy cooperatives in America. What is responsible for this remarkable growth? Service. Outstanding service to its members-and to consumers as well.

THE PURPOSE OF MMPA

The main purpose of the founders of Michigan Milk Producers Association was to assure members a fair return for their milk through price negotiations with

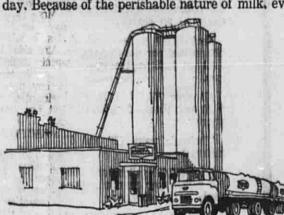

dairies. That is still the main purpose today. Over the years, however, MMPA has added many special services and guarantees which assure a more stable market for members and help assure you, the consumer, an uninterrupted supply of fresh, wholesome milk.

GUARANTEED MARKET AND PAYMENT

All MMPA members are active dairy farmersshipping large quantities of milk to market every day. Because of the perishable nature of milk, ever.

OF SERVICE

one day without a market can be costly. MMPA, therefore, guarantees every member a market for his milk, every day of the year-providing it meets health standards. What's more, MMPA guarantees each member full payment for his milk at all times.

DISASTER AND QUARANTINE PROTECTION

Dairy barns and herds are essential to the dairy farmers income. If a member's barn or milking facilities are damaged by fire or windstorm, MMPA

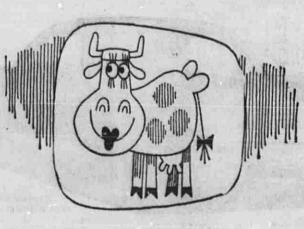

pays that member up to 75% of his milk income for a 90-day recovery period. The same financial

protection is guaranteed any member prevented by disease from shipping milk.

2 33 T 42 7 40 5 2 2 3 3

TESTING AND FIELD SERVICE

MMPA professional testers check regularly to make sure each member is paid on an accurate basis. MMPA's professional field men call on members regularly to help them with individual problems and to help keep them informed about current

quality standards, health department regulations and marketing facts.

FIFTY YEARS OF SERVICE

Many changes have taken place and much has been accomplished in fifty years. Today, MMPA stands as the modern marketing arm of Michigan dairy farmers. Its major purpose still is to serve the dairy farmer members who own and operate it. And the result is to provide you, the consumer, with an uninterrupted supply of fresh, wholesome milk.

We measure our success in terms of our service to our members and to you. And we think we have

"Clean Heat"

Quite a large number of people have what amounts to a complete misconception about the relationship be-tween a heating system and dirt and dust in the home.

The facts are that all

for example, the combustion chamber and flue system are air-tight. The flow of air into the combustion chamber is fan-supported; it cannot back up. Combustion prodof the warm air that a furnace circulates through the home to provide heat, nor can they escape from the heating plant itself.

The examination was complete. The surgeon assured the young man that the only hope of saving his life was the removal of his tongue. The young man was already in surgery when he learned the full story. Tenderly the surgeon told him that even though the operation should be successful, he would never again be able to speak. He was asked if there was anything he wished to say before the operation began.

The young man on the operating table was a Christian. When he realized he would never again be able to testify in song and word for his Lord, a shadow crossed his face. But soon the shadow

passed and sitting up he lifted his voice and sang, "There is a Fountain Filled with Blood."

How he sang! His heart was in the song. Then he came to the last verse: 'Then in a nobler, sweeter song I'll sing Thy power to save, When this poor, lisping, stammering

Lies silent in the grave."

The operation was performed, but the patient never regained consciousness. His last song on earth was prophetic of his first song in heaven.
