NCREASING DEMAND FOR MORE HOT WATER

Perhaps no other factor indicates the trend to better living standards than the in-creasing demand for more hot water in the home. This is a direct result of the de-sire for clean clothes, per-sonal cleanitness and clean living accommodations, all multiplying requirements for

At one time, it was known that a family of four required about 1,000 to 1,200 gallons of hot water a month. Today, the figure is closer to 3,000 gallons a month or 100 gallons a day.

Until the new oil powered hot water heater was recently introduced, there had been no new developments to meet this increasing and recognized need for more and hotter hot water. WHAT ARE YOU PAYING FOR HOT WATER?

It will be well worth you while to spend a little time and research to find out how much your hot water is costing you every month. Surveys made recently in-dicate that the cost of heat, utilities and maintenance in the home is taking up to 10% of your monthly income. With the cost of living continually rising, it's just good business to control your costs, wherever your can. And the cost of heat and not water can be con-trolled!

Our Priest Is Jesus Christ

That's right! Our priest is Jesus Christ! Hebrews 4:14 tells us, "Seeing then that we have a great high priest that is passed into the heavens, Jesus the Son of God, let us hold fast our profession."

Oh, what a priest He is! He lived a sinless life; He went to the cross to sacrifice Himself for our sins. He died for us; He arose from the grave, and as the text above states, He "passed into the heavens."

What is He doing there? Hebrews 7:25 tells us that "He ever liveth to make intercession for them." He prays for us, For whom? For all who receive this great high priest as their Savior and Lord.

We have no other priest. We need no other priest. Why should we? Our priest is none other than "Jesus, the Son of God." -Pastor Henry Buikema

New postal rates went

into effect

Increases in money orders, insurance, registry, certified mail and COD rates became efcertified fective Saturday, March 26, Postmaster Charles R. Doyle announced this week.

The cost of operating these five special services now ex-ceeds revenues by \$60 million annually. The fee increases will narrow the cost-revenue gap by \$36 million; based on business handled in the fiscal year 1965.

Fees for money orders, registry and COD were last changed in 1961; insurance and certified mail in 1957 The fee changes, announced in the January 11 Federal Register and confirmed in the register on February 25 are put into effect under the existing

administrative authority of the Postmaster General. According to Postmaster Dovle, the increases include: Money Order Fees: Domestic and international money order fees will be increased by five

Insurance fees: The minimum fee bracket will be increased from \$10 to \$15 and the minimum fee will be 20 cents in-

stead of 10 cents. The revised insurance fees will be as follows: .01 to \$15, 20 cents; \$15.01 to \$50, 30 cents; \$50.01 to \$100, 40 cents; \$100 to \$150, 50 cents; and \$150.01 to \$280, 60 cents.

Registry fees: The present 6 cents and 75 cents fees will be combined into a single fee at 75 cents for values up to \$100. Registry fees for articles valued in excess of \$100 will remain

COD fees: The present cents and 50 cents fee brackets will be combined into one fee bracket at 60 cents for amounts up to \$10. There will be no change in the fees covering items valued above \$10.

Certified Mail: The fee will be increased 10 cents from the present 20 cents per item to 30 Losses incurred in the opera-

tion of special services are paid from funds drawn from the Federal Treasury. Doyle said the fee increases "will shift a substantial portion of the special service cost borne by the public to the users of these services."
