Increased labor costs to boost city's budget during 1966-67 year

A general wage increase is expected to boost the new city budget, approved Monday night, by the Council, from \$161,500 last year, to \$183,620 during the

coming year.
A public hearing on the budget will be held on Thursday, May 26, in the City Hall. Increased wages have come in every department. City Manager, Bernard Olsons salary will

be raised from \$8,250 to \$9,000. The City clerk-treasurer, Mrs. Shepard, will be boosted frm \$5,220 to \$5,720, a year. The Police Chief Avery Block will be increased from \$5,691 to \$6,250, and Fire Chief Frank Baker will be raised from \$500 a year, to \$1,200.

Members of both the fire and police departments will be given an increase, along with the workers in the street and sanitation departments.

Maintain 10 Mill Rate

The new budget calls for the same 10 mill tax rate for the coming year; increased revenues are expected from sales tax and additions to the tax

The only cutback in income appears to be from a decreased in the money received from the" Light & Power plant which will drop from \$8,500, this year to

\$6,800 in the coming year.

The cemetery, which the city took over from the township, two years ago, is paying its own way. This year's revenues, from the cemetery, were \$6,958, and expenses were \$5,753.

In the street department, lit-

tle in the way of new blacktop construction is being planned. Most of the city streets have been hard surfaced. Suffolk Streets entrance to the high school parking lot will be

rebuilt, and the new parking lot on Main Street will be the principal capital expenditure in that department. The City Manager does have

an item in the capital expenditures' budget, to hire profes, sional help to re-appraise the commercial and industrial property in the city.

The residential property appraisal is kept up through the work of the city manager.

The clean-up project calls for concerted action on the part of everyone in the community to make our town spic and span. Start your clean-up job in the attic and work downward. This information made someone exclaim, "How similar to the way of salvation!" Before the Lord saves a sinner, he must admit that he is a sinner and that sin has him down. Then he must admit that he is helpless to save himself: he must ask the Lord to save him.

The same newspaper item said that wives often wrote the organization asking if there was some way their husbands could be helped, even if they would not admit they were alcoholics. These women were told that it was a sheer waste of time to try to cure a man who will

not admit he is ill. The only class of persons whom the Lord came to save is sinners. He distinctly said: "I came not to call the righteous, but sinners to repentance."

Again, it is stated: "This is a faithful saying, and worthy of all acceptation, that Christ Jesus came into the world to save sinners." (I Tim. 1:15.)

In order to righteously save sinners, Christ died for their sins and rose for their justification.

Concerning the publican who, in his desperate need, cried, "God be merciful to me a sinner," our Lord said: "I tell you, this man went down to his house justified (Luke 18:13-14).
