Ada area.

This area growth, incidentally, precipitated the formation of the Ada Township Planning Commission which, under federal grant, resulted in the revision of the 1949 building codes and a zoning plan. The 5 x 8 inch booklet of eight pages was far from adequate to meet Ada's 1966 growth picture. A recent bond issue has resulted in a new Ada Sewage System, including an extensive disposal program involving 30 acres for a ponding system. Ada obtained this \$45,000 worth of land for
