#### 1967 Cancer Fund goals announced

Kent County residents will be asked to contribute \$135,954.00 during the April Crusade of the Kent County Unit, American Cancer Society, Mark D. Mulder, General Chairman, announced this week.

The money raised annually is used to help finance the Unit's eductional campaign in the fight against cancer and to provide funds for the county's share of the cost of the research work being done by the parent or-ganization, the American Cancer Society. The parent society is seeking to find the causes of cancer and a cure for this disease which is America's great-

est killer. Chairman Mulder pointed out that the 1967 goal is but slightly more than the total raised last year, despite the mounting costs of the research work and educational programs being continually carried on throughout the area and nation.

Goals for the various divisions the campaign, together with the names of the division chairman, were announced by the general chairman as follows: Special Gifts. Robert L. Ellis and Harold W. Sears, co-chairmen, \$30.250.00 Mail and Memorials, Mrs. Carroll M. High-\$27.314.00. Downtown buildings. Stephen C. Bransdorfer, \$12 125.00. Lights On. Walter C. Buttrick. \$66 265.00. HAPPY EASTER

#### EASTER TIME . . .

Easter Sunday is regarded by untold millions around the earth as the world's most important religious holiday. One of the most joyous days of the year, it symbolizing the reawakening of life that is universally associated with springtime.

The present-day parades that mark the day had their beginning in the original Easter walk of Europe, when devout men and women congregated and walked in an orderly manner through town and into the open country, stopping along the way to recite prayers

Today in many American communities, elaborate Easter parades find women and children in their new finery-the husbands and fathers going along for the walk. And one of the most charming the custom far older than Christianity.

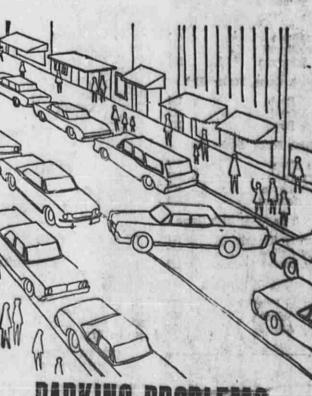

Easter combines a rich mixture of laughter and solemnity. Both are good-both are needed by the soul of man. Yes, Easter Sunday is one of the great days of the year, a day of joy for you and your family.

**Weighing and Measuring Devices Checked** 

Weighing and measuring devices are regularly checked for accuracy throughout the state by the Michigan Department of Agriculture to assure that consumers, wholesalers, retailers, farmers, and others receive what they bargain for.

Grocery scales, tank trucks, warehouse scales, and bottle gas refilling meters receive routine checks. Food and other consumers goods packages are weighed to assure that the net content are as stated on the labels. The entire weights and measures program is a responsibility of the agriculture department's Food Inspection Division. This division maintains official state weights in conjunction with the U.S. Bureau of Standards. Its inspectors even check the heavy duty scales of the highway department's "weighmaster," who in turn enforces truck road weights.

#### Three ways to save on a home mortgage

So you're thinking about buy-ing a new home but you're holding off hoping for softer mortgage rates and terms? Well, you may be doing the right thing—but there is a contrary point of view you might

As lending conditions become better for you (and most financing concerns seem to think will, later in the year) more & more buyers will start driving out on week-end afternoons to look over property. And that means prices will start edging up. So where will the waiting get you?

Also waiting until say, next fall to buy will probably mean high remodeling and construction costs. So you may lose money-even if borrowing conditions improve considerably Here are some alternate ideas

to consider: -Lease for a year or more with an option to buy-if a smart deal can be worked out by your lawyer.

-Assume an existing mortgage at a lower rate than is available at the present time.

-Sign a new mortgage today, but insist on a no-penalty or low-penalty clause for pre-payment of the loan, so you can take advantage of any rate break later on.

But the best solution, as ever is careful shopping for the best

Everything is up to date. One 5gh grader, hurrying off to school asked, "Mom, do you have an extra comb? We had our class picture taken yesterday, and Sister was in it. She borrowed my comb and forgot

#### Girl Scouts

Winter Camp-out

Thirty-five Girl Scouts and their four leaders held a winter camp-out last weekend at the Lowell Boy Scout cabin.

The four patrols competed throughout the weekend in such projects as the "lost child hike" where two days earlier a dummy had been placed in the woods by the leaders and each patrol was sent out separately to search out the clues and find the child. They were judged on the time required to find the child and the accuracy of the maps they drew along the way indicating the location of the clues.

Points were also given for care of their gear, knowledge of scouting & other competitive projects. The "Ready Workers" patrol won the coveted winter trophy with the "Lollipop" patrol coming in second; the "Snowflakes," who actually led all the way until the final competition Sunday morning, a close third, and the "Great Danes," fourth.

Rev. Spray Addresses Meeting

Rev. and Mrs. Russell Spray attended the Michigan District Preachers' and Wives' Retreat at the Southgate Motel in Kalamazoo recently.

Rev. Spray was chosen to give one of the four main papers on the program. His topic was "Growth in Personal De-votional Life." Approximately 200 people attended the event, which was sponsored by the Church of the Nazarene's Michigan District.

Second grades entertain parents

Members of Mrs. William's room presented a dramatization of the antics of Billy Groundhog in Spring, as their stop by the Magic Carpet, which soared through Runciman Elementary's All-Purpose Room last Wednesday.

The parents and friends of the second grades in Lowell were treated to a "ride" on the Magic Carpet last Wednesday afternoon in the Runciman All-Purpose Room,

The program was a culm tion of several weeks of activity during which the children were investigating the delights and insights to be gained from story

The first stop on the tour was at the land of the Three Billy Goats Gruff, where Mrs. Thaler's room dramatized the story, complete with a three-headed troll who sang his threat of eat-ing goats for supper.

Spending reform suggested to utilize tax reform

James F. O'Neil, Member of the State Board of Education, called for spending reform as well as tax reform at an areawide conference on "Fiscal Re-form for Quality Education" at the Ferndale High School, Thursday night, March 16.

O'Neil stated that spending reform should include a greater utilization of educational re-sources at all levels of education with serious consideration given to the year-around utiliza-tion of teachers and schools.

O'Neil stated that the yeararound utilization of teachers and schools would not only save schools, but it would also improve the quality of education. He listed the following advan-

1. Reduction of property taxes which are at an all-time high and have reached the op-pressive level generally and specifically in regard to our senior citizens with their limit-ed income.

2. Provide for the more efficient utilization of our educational resources, which is a necessity considering the anticipated reduction in tax revenues as a result of the current 20 per cent reduction in the auto in-

3. Alleviate the critical short-age of teachers by utilizing those in the system on a twelvemonth basis rather than the present nine-month basis.

4. Reduce the number of drop outs by preventing a child from getting hopelessly behind in his or her school work before they

have an opportunity to make up their deficiency.

5. Reduce juvenile deliquency by substantially reducing the 45 to 50 million children we literally shove out on the streets every summer. In addition, as a result of the reduced number of students out at any one time, those interested would have a greater opportunity to secure

6. Provide for paying teachers more adequately as a result of being able to pay them on a twelve-month basis rather than the present nine-month ba-

O'Neil stated that the major objection to utilizing the teachers and schools on a twelvemonth basis were the parents and children who prefer the traditional summer vactions. He said that this tradition, es tablished out of need when we were an agricultural society, is a luxury we can no longer afford. He called on all those associated with education, and particularly school boards and administrators, to give this proposal objective and serious study. He pointed out that this proposal would provide the taxpayers an alternative to increased taxes and assure them that those involved in education are making every effort to assure the most efficient as well as effective utilization of their
