## Along Main Street Five running for two board seats

Two four-year terms on the Lowell Board of Education are up for election on the June 13th ballot.

The board seats opening up are those of Roger Kropf and Norm Byrne. Kropf will not run again, but Byrne will run in hopes of extendin his board term.

Joining Byrne in the race for the two seats are Dave Noonan, David Hagens, Dennis Brown, and Doug Olin.

Byrne, the incumbent in the race, who was appointed in 1986 to fill the term of office vacated by Jo Murphy, won a one-year term in 1987.

He attended Lowell High School and is a lifetime resident of the district.

His involvement with the community includes serving on the Rockford Area Chamber of Commerce Board (three years as president) and is a member of the Rockford Area Economic Development Board of Directors.

The Rockford based Byrne Electrical Specialists owner would like to continue serving on the Board of Education.

"I am running for the Lowell School Board because I feel that our children have received a good education from the school system," Byrne said. "One of my goals has been to improve communications between the school board and administration, as well as teaching staff and support personnel."

He adds that being more receptive to the needs of the students, parents, and taxpayers has been another goal.

Byrne believes that he has contributed to keeping costs down while maintaining a quality retrofit program that will last for

Noonan attended Lansing Everett High School and Grand Rapids Reformed Bible College.

His community involvement includes being a member of the Congregational Church, Cub Master of Pack 3102, past board member of Life Motivation (Drug and Alcohol Rehab Program), past member of the Grand Rapids Urban Fellowship and the Northeast Community Ministries, and past counselor at the Sunshine One-Way House.

"I am running for the school board because of a commitment to serving our community and school system," Noonan said. "I understand the responsibility of

Dave Noonan

being a dedicated board member, knowing we must move ahead with a quality, stable educational system which is concerned with the abilities, needs, interests, and potentialities of all of our students."

Noonan believes that it is imperative that our community and tax-paying citizens receive the best value for their tax dollars in a fiscally responsible system.

He adds, "I am committed to listening, learning and acting upon your ideas, comments, suggestions and criticisms. I will attend meetings, workshops, and do whatever else is necessary to make fact-based, common sense decisions."

Dennis Brown,

David Hagens has lived in Lowell for three-and-a-half years and is the minister at the First Congregational Church.

He attended Lyons Township High School in LaGrange, Ill. and Carelton College in Northfield, Minn.

Hagens' community involvement includes being a board member of the United Church Outreach Ministry, an area association of the United Church of Christ, and the chairman of the Lowell YMCA Board.

Donald Bergy, 53, of 6855 Hastings Rd, Lowell, had the walls of a trench collapse on him while he and Ted Mager, of Saranac, were putting in a field tile near 11850 Grand River Avenue May 23 at approximately 4:30 p.m.

Bergy, who was covered by dirt for 5-10 minutes, according to Ionia County Police Officer Dave Thompson, was uncovered by Mager, 37, and nearby neighbor Jack Stahl.

"Patricia Mager responded and got Stahl, who along with Mager used a shovel and their hands to reach Bergy," Thompson said.

Responding to the call were Lowell Rescue, Lowell Fire Department, Lake Odessa Ambulance, C-5 -- a paramedic unit, Kent County Sheriff's Department and Ionia County Sheriff's Department.

"Approximately an hour was

## **NOTICE OF PUBLIC HEARING ON INCREASING PROPERTY TAXES**

## LOWELL AREA SCHOOLS **12685 FOREMAN ROAD** LOWELL, MI 49331 616-897-8415

PLEASE TAKE NOTICE THAT On June 6, 1988, at 7:30 o'clock p.m. at the Lowell Board of Education offices the Board of Education of Lowell will hold a public hearing on the levying in 1988 of an additional proposed millage rate of 1.4059 mills for operating purposes pursuant to Act 5, Public Acts of Michigan, 1982.

The Board of Education has the complete authority to establish that 34.4 mills be levied in 1988 from within its present authorized millage rate.

The maximum additional proposed millage rate would increase revenues for operating purposes from ad valorem property tax levies in 1982 otherwise permited by Act 5, Public Acts of Michigan, 1982, by four point one percent (4.1%).

The figure for increase in revenue for operating purposes is based on the latest estimate of state equalized valuation of property located within the school district. State equalized valuation will not be finalized until after the fourth Monday of May. In the event that state equalized valuation as finalized is for any reason higher than the estimate used for this hearing, the Board of Education must hold another public hearing before levying millage on any higher valuation.

The purpose of the hearing is to receive testimony and discuss the levy of an additional millage rate. Not less than seven (7) days following the public hearing, the Board of Education may approve all or any portion of the proposed additional millage rate.

This notice is given by order of the Board of Education.

A person who suffers with epilepsy has what we call a seizure disorder. This disorder causes the untreated epileptic to have seizures or "convulsions." These seizures can be quite frightening to those who are familiar with their physical manifestations.

There are several different types of seizures, each identified by what happens during the attack. For instance, the person who has "Harry & Friends", an ensem- Peltz, Donn Palmer, Jan a generalized, tonic-clonic seizure loses consciousness and falls ble water color exhibit, brings Johnson, Judy Tummino, Alecia to the ground. While having such a seizure, the person may appear to be in a dreamlike state. He may fidget, smack his lips, pick at his clothes, or walk around aimlessly,

In many cases, no definite medical explanation can be found for a person's seizures. Sometimes epilepsy can be traced to a birth injury, a head injury, a brain tumor, or a high fever affecting the brain.

Fortunately, seizures themselves usually pose no danger to life. Epilepsy becomes life threatening when an epileptic suffers a seizure while driving or some other activity in which losing consciousness is dangerous.

Epilepsy is treatable, but not curable. Once an individual is diagnosed as having epilepsy, medication is begun. It is absolutely essential that the patient with a seizure disorder be faithful in taking his medication. Skipping doses or not taking doses regularly can lead to recurrence of the seizures.

The aim of medical therapy in epilepsy is to achieve a seizure free lifestyle for the patient. Epileptic patients lead full, productive lives, but generally speaking, they must take medication to control their seizures for the rest of their lives.

PLEASE TAKE NOTE that in accordance with Act 43, Public Acts of Michigan in the Second Extra Session of 1963, the Board of Education for the Lowell Area Schools will hold a public hearing on the District's 1988-89 budgets at the regularly scheduled meeting at 7:30 p.m. on June 13, 1988, at the administrative offices at 12685 Foreman Rd., Lowell, MI 49331. A copy of the budgets will be available for public inspection prior to the hearing at the administrative offices on June 6, 1988 from 8:00 a.m. to 4:00 p.m. daily, Monday through Friday.

Budgets to be reviewed are: General Fund and Debt Retirement Fund.

"The food is still good," said

I'm often asked how I come up with new ideas for my column each week. The answer is simple; my life is filled with people, pets, machines and inanimate objects that are out to get me. There isn't a week that goes by without something blowing up in my face. Last week I wrote about my continuing struggle with my lawn sprinkler. Over the years I have attempted to find the humor in cuts requiring stitches, dead batteries, fender benders, runaway dogs, surgery, cold water showers, broken bones, camping in the rain, computer failures at work, etc., etc., etc., the list of potential material is endless. I wish it wasn't, but that's just the way it is when stumbling through life as Roger Brown.

This week I want to tell you about a diving platform that is out to get me. That's right, a simple, mundane, seemingly harmless diving platform is trying to kill me.

Five years ago we purchased a small cottage on a lake. When we made the purchase, we were told that a diving platform went with the cottage. I have suspected since that the neighbors, who all use the diving platform, conspired to pawn off responsibility for the thing. Sort of a, "last tag, you're it", situation.

In order to appreciate this story, I need to take a minute to describe this dive platform in some detail. It's made of wood. Heavy wood! The deck is eight foot by eight foot of three quarter inch plywood. The framework is two by twelves bolted together with about a hundred pounds of half inch bolts. The whole thing stands on eight foot legs made of four by fours. The legs are braced with an array of two by fours and more of those big bolts. When in place, the platform stands at the edge of the drop off with a twelve foot diving board mounted to it. I have no idea of what it weighs, but it's something akin to the Colossus of Rhodes or the Statue of Liberty.

The problem is getting that monster out into about five feet of cold water in the spring, and back out of about five feet of cold water in the fall. I've ruined a lot of friendships by calling work weekends at the cottage, and forcing friends to strain their guts out on that monster.

On top of moving it twice a year, there are numerous other problems involved with the thing. It has to be painted every year. Rotten boards have to be replaced occasionally. It sometimes attracts unsavory visitors from the public beach or rental cottages down the way. There might be a problem with liability if someone ever got hurt on the thing. And, last but not least, it attracts gulls, ducks and other birds that are prone to leaving behind proof that they have been there.

I've threatened to let the ice have it every fall for the past five years. I've threatened to burn it on the beach every spring for the past five years. But, when I see how much the kids enjoy diving from it, fishing from it, sunbathing or just hanging around on the darned thing, I get up the gumption to keep it repaired, and in the water. Besides the kids, we have a family of swallows that nests in it's framework every year, and I could sit and watch them fly for hours

About a year ago, one of my brothers came up with the idea of tipping the platform onto its side, then upside down onto some swim tubes. The platform was then floated to the proper location, the tubes along one edge were removed, it sunk onto its side, and then, with relative ease, it was tipped up into position. The entire process was reversed in the fall. My brother became a hero among my friends who had pulled and tugged on that monster over the years. The friends I had left, that is.

We painted and made repairs to the platform last weekend. Feeling confident that Terese, the kids and I could maneuver the platform out into the lake using the inner tube system, I coaxed everyone into giving me a hand. What was it Steinbeck said about, "The best laid plans of mice and men"?

We eased the platform onto its side, and I moved into position to keep it from continuing onto its top. I don't know if I didn't move fast enough, or didn't get my feet planted right, or simply underestimated the size and weight of that thing, but I soon realized that I wasn't about to stop it.

My brain said, "Feet! Get us outa here!!!". Unfortunately, the feet weren't fast enough. I had just nicely turned to run when the platform flattened me in about six inches of water. Fortunately, I didn't have a leg twisted up under there, and I was able to squirm free. I have only a very sore, bruised and swollen rear end to show for the incident

I guess I'd never really given much consideration to what a fly must feel like when the swatter comes down. I know now.

b. Open fires on private land. No person shall kindle or maintain any open fire or authorize any such open fire to be kindled or maintained on any private land, nor shall any open fire be kindled or maintained in any outdoor container unless such container (i) has been manufactured according to nationally accepted standards for refuse-burning equipment and bears the label of approval of any nationally recognized testing agency such as, but not limited to. Underwriter's Laboratory or the American Gas Association or (ii) by its design and construction can be reasonably expected to operate without causing a smoke or odor nuisance or health hazard.

c. Exceptions. The provisions of this section shall not prevent:

1. The burning of wood, charcoal, coke or other accepted fuel for the preparing of food in any form in a approved container or utensil while being used in a safe and sanitary manner.

2. The use of approved gaseous or liquid fired salamanders commonly employed in conjunction with building and construction operations when being used in accordance with accepted safety standards.

3. Roofers, tinners, plumbers or other mechanics pursuing a business requiring the use of fire or for the purpose of boiling tar, pitch or oil used in the regular course of an appropriate business or trade, and while being used in a safe manner.

4. Open burning specifically permitted in writing by the fire chief for fire department purposes after determination by the fire chief that such open burning will occur under the following circumstances;

a. The area is adequately protected by firemen or fire department trainees.

b. The fire will be of short duration.
