A caller will ask if you have any friends on the Lowell Police Force. Then will tell you about a film or other fundraiser going on for the Lowell Police Department, soliciting donations from \$50 to \$500. They will also tell you that a police officer will not pick up the money, but a representative of the Department will pick it up.

Chief Emmons advises that the Lowell Police Department is not at this time running any fundraisers or like activities. If you are contacted by these people, call the Lowell Police Department immediately at 897-7123.

#### A PERFECT 29!

Josephine (Jo) Willard of 1080 Alden Nash, had that rare, perfect cribbage game while playing on Sunday, Dec. 3 with her daughtersin-law, Linda Willard and Connie Willard.

Jo dealt herself the Jack of spades and the five of diamonds, hearts and clubs. Connie cut the cards and Jo turned up the five of spades, which matched her Jack! And there it was - a perfect 29!

According to Weeks, Julie Venneman was pinned in. The nine-year old suffered a closed skull injury and was transported to Butterworth Hospital by Aero Med. Venneman was removed from the critical list to serious early Thursday morning.

Both Joyce Venneman and Anderson incurred multiple contusions and were listed in serious condition at Butterworth Hospital.

Answering the call were Lowell Rescue and Fire, the Kent County Sheriff's Department. LIFE Ambulance and Aero Med.

On Thursday, Dec. 7 serious injury was avoided in a three-car accident when a Grand Rapids man lost control of his car as a result of a medical probelm.

According to a Kent County Sheriff's Department Deputy, it was probable that the man, on medication for temporal lobe seizures, experienced a problem with blackout and/or seizures.

It appears that a pickup truck driven by Chris Kommer. 42, Grand Rapids struck the rear of

a westbound vehicle driven by Susan Schaffer, 25, of Saranac and then continued westbound in the eastbound lane and struck a third vehicle driven by Joan Carless of Lowell, according to the report.

Kommer's vehicle continued westbound at a rate of speed perceived faster than the normal, according to a male witness, forcing vehicles off the roadway.

According to the witness, Kommer passed him and then swung back into the westbound lane before losing control, off the roadway and into an embankment, striking a tree and rolling over.

Kommer was taken to St. Mary's Hospital by private conveyance where he was treated and released.

Schaffer complained of back pain and was transported to Blodgett Hospital by Lowell Ambulance. Carless incurred no injury.

According to the Kent County Sheriff's Department report, drinking was not involved in the accident.

A three-car accident was the result of an apparent seizure and/or blackout on Thursday evening near Settlewood and M-21, according to the Kent Count Sheriff's Department.

# Who do we appreciate? THE CUSTOMER! Thank you for your continued patronage!

Here are some special coupons just for you!

Thank goodness there are people like Perry Beachum and John Erickson around this town. If it were left up to me the holiday season here in Lowell would be pretty, "blah humbug". Just in case you are among the underprivileged who haven't seen these shrines to the holiday season, you owe it to yourself (even if you're a Scrooge like me) to have a look some evening. Beachums live on the north end of Riverside Dr. and Ericksons live on Avery St. over on the east side. That's all you need to know, as the lights

will home you in if you get anywhere in the vicinity of either house. You can tell by driving around the old town that there are more and more wives just like mine. That is, there are more and more husbands being goaded into joining the Beachum/Erickson bandwagon and stringing lights all over creation.

In years past my wife has been content to let me string some lights in the shrubs in front of the house, hang some wreaths out

CAT SCRATCH DISEASE

Cat scratch disease is a benign self limiting form of infected lymph glands (lymphadenitis). Most patients will report an incident of a cat scratch or contact with a kitten or cat. Many other sources of "scratches" have been implicated in causing this disease also: dogs, monkeys, thorns, codfish bones, and wooden splinters. Invariably, the animal responsible for the scratch is healthy. The disease occurs worldwide and is more common in the fall and winter. No one is exactly sure what causes these scratches to infect regional lymph nodes, but it is assumed to be a small bacterium.

A few days after the scratch, about 50 percent of patients develop a small red raised sore at the site of the scratch. Approximately ten to thirty days later, swelling and discomfort of regional lymph nodes usually develops. This may be accompanied by malaise. headache and low grade fever. The affected individual usually seeks medical attention secondary to the red regional swelling and discomfort of lymph glands. This may occur in the armpit, neck, groin or extremity.

Your doctor will distinguish cat scratch disease from some of the more common causes of enlarged or tender lymph nodes, i.e. lymphoma, Hodgkin's disease, tuberculosis, infectious mononucleosis, etc. Once the diagnosis is made, the best therapy is reassurance that the lymph node enlargement is benign and self-limiting. Most cases subside spontaneously in four to eight weeks. There Some Lowell seniors are spending half-days as apprentices is no medical therapy available to hasten recovery. Whenever a children's program is given, it is the tiniest tots who steal the show. Many of them are so bashful they can scarcely climb upon the platform. They dig their toes into the floor, hang their heads, and steal glances at the audience out of the corners of their eyes.

Bashfulness has its good points. Usually the overconfident person is unpopular. But many people go through life doing without because they do not have the courage to ask for what they want.

> (ii) In other instances in which a site development plan must be filed as required by this Ordinance, the Zoning Inspector shall have the authority to approve, disapprove or modify the proposed site development plan in light of the standards set forth in this Ordinance. Any required modification shall be stated in writing, together with the reasons therefore, and delivered to the applicant. The Zoning Inspector may either approve the final site development plan contingent upon the making of required modifications, or may require a further review of the plan after the modifications have been incorporated in the proposed

b. One (1) copy of each approved final site development plan shall be maintained as part of the Township records for review and enforcement. One (1) copy shall be returned to the applicant. Each copy shall be signed and dated with the date of approval by the chairman of the Township Board, if approved by the Township Board, or the Zoning Inspector, if approved by the Zoning Inspector, so as to facilitate identification of the finally approved plan.

E. Criteria for Review of Site Development Plan.

1. In reviewing a site development plan submitted in connection with an application for a Special Exception Use Permit, and in approving, disapproving or modifying the plan, the Township Board (and in making its recommendation the Planning Commission) shall consider the Standards for Approval of Special Exception Uses set forth at paragraph 5.02 B above, shall consult and be bound by other pertinent provisions of this Ordinance, and in addition, shall be governed by the following criteria:

a. That there is a proper relationship between the existing streets and highways and proposed deceleration lanes in the vicinity of the proposed site development so as to service drives, entrance and exit driveways and parking areas to assure the safety and convenience of existing and anticipated pedestrian and vehicular traffic.

b. That the buildings, structures and entryways thereto proposed for the site development are so situated and designed as to minimize adverse effects upon owners and occupants of adjacent and nearby properties.

c. That as many natural landscape features as possible in the site development area shall be retained where they furnish a barrier or buffer between the proposed site development and adjoining properties used for dissimilar purposes and where they assist in preserving the general appearance of the vicinity or help control erosion or discharge of storm waters.

d. That any adverse effects of the proposed site development and any noise, light or activities expected to emanate therefrom upon adjoining residents or owners shall be minimized by appropriate screening, fencing or landscaping.

e. That all provisions of this Ordinance are complied with unless an appropriate variance therefrom has been granted by the Township Board.

f. That all buildings and structures are accessible to emergency vehicles.

g. That sanitary facilities have been provided for which meet the requirements and specifications prescribed by the Kent County Health Department, as evidenced by a permit issued by said department.

h. That the plan as approved is consistent with the intent and purpose of zoning to promote public health, safety, morals and general welfare; to encourage the use of lands in accordance with their character and adaptability; to avoid the overcrowding of population; to lessen congestion on the public roads and streets, to reduce hazards to life and property; to facilitate adequate provisions for a system of transportation, sewage disposal, safe and adequate water supply, education, recreation and other public requirements; to conserve the expenditure of funds for public improvements and services to conform with the most advantageous uses of land, resources and properties; to conserve property values and natural resources; and to give reasonable consideration to the character of a particular area in light of its peculiar suitability for the particular use proposed.

2. Apart from an application for a Special Exception Use Permit, the Zoning Inspector shall approve the plan if all provisions of the Ordinance are complied with unless an appropriate variance therefrom has been granted by the Township Board. Ordinance, cont'd., pg. 8

## Ordinance, continued

F. Conformity to Approved Site Development Plan.

1. Property which is the subject of an approved site development plan must be developed in strict compliance with the approved plan. The Township Board or the Zoning Inspector may require a Performance Bond in connection with the approval of a site plan.

2. If construction and development does not conform with the approved plan, all work, construction or development under which the plan is based shall be forthwith terminated by the Zoning Inspector by written stop order posted upon the premises involved and mailed to the applicant at his last known address. Upon such termination all further construction activities shall cease upon the site, other than for the purpose of correcting the violation. However, the Township Board may, upon proper written application by the applicant and after a hearing, approve a modification in the site plan to coincide with the developer's construction provided such construction complies with the criteria contained in the site plan approval provisions and with the spirit, purpose and intent of this Ordinance.

3. Approval of a site development plan shall be valid for a period of one (1) year after the date of approval. With respect to special uses, if a Special Exception Use Permit has not been obtained and on-site development actually commenced within such one (1) year period, the Special Exception Use Permit embodying the plan shall become void and a new application for Special Use Permit shall be required before any construction or development is commenced.

G. Amendment to Site Plan. A proposed amendment, modification or alteration to a previously approved site development plan shall be submitted to the Township Board or the Zoning Inspector for review in the same manner as the original application was submitted and reviewed."

#### Section 5.

"I'm thinking we'll finish third or fourth in the O-K White onference in 1989-90," says Gary Rivers Lowell's wrestling oach of 30 years.

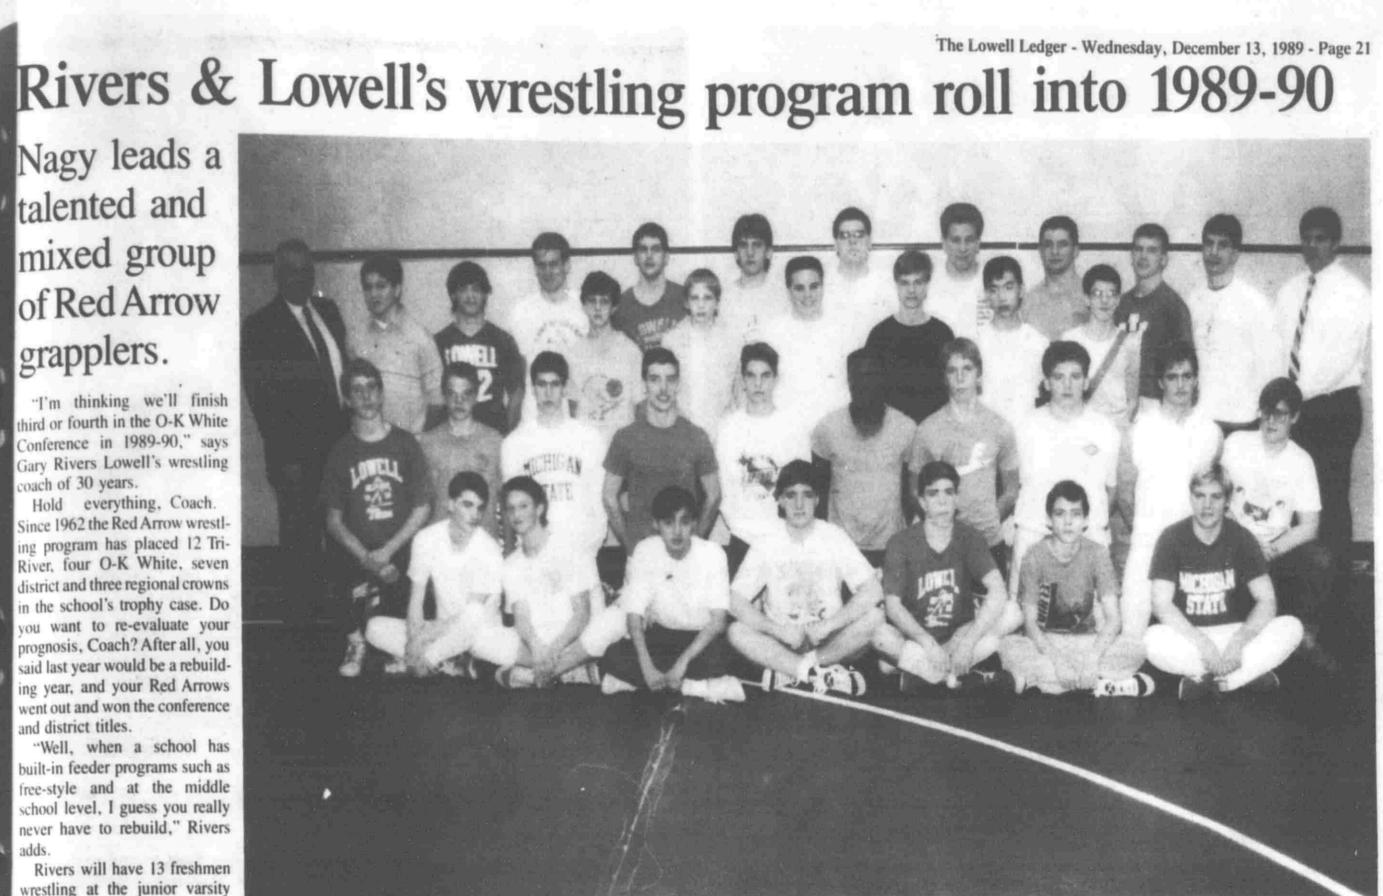

Hold everything, Coach. ince 1962 the Red Arrow wrestling program has placed 12 Tri-River, four O-K White, seven fistrict and three regional crowns in the school's trophy case. Do you want to re-evaluate your prognosis, Coach? After all, you said last year would be a rebuilding year, and your Red Arrows went out and won the conference and district titles.

"Well, when a school has built-in feeder programs such as free-style and at the middle school level, I guess you really never have to rebuild," Rivers

Rivers will have 13 freshmen wrestling at the junior varsity level. Many of whom have been wrestling for a number of years. been watching and anticipating a number of these boys coming up through our wrestling program. Then, to see them go through four years at the high school level, is a lot of fun.

Lowell's coaching dean also mention that eight of his wrestlers are second generation. "I've coached eight of their respectively. athers. That's also exciting."

Rivers loses nine seniors from last year's 12-3 squad. Not many schools will feel sorry for him though, as he returns 10 lettermen - Sophomore David Rottier: juniors, Nate Nauta, John Rupp, Rob McGee, Clay VanderWarf. Brad Whalen; and seniors, Scott Nagy, Joe DePew, Jon Pratt and loe Hoffman.
