Serving Lowell Area Readers Since 1893

Wednesday, January 17, 1990

Along Main Street

ATTENTION! AREA RECYCLERS!

The recycle station in the Food City parking lot (1335 W. Main) is experiencing sporadic pickup of its recyclable materials.

This is due to the transition of recycling operations from Recycle Unlimited to the County. The County of Kent will be taking over the recycling operations starting Feb. 1, 1990.

All recyclers are asked to not use the facility until Feb. 1 when normal operations resume.

VFW STEAK FRY THIS SATURDAY, JAN. 20

The VFW will be holding their Steak Fry this Saturday, Jan. 20 from 4 to 8 p.m. at the VFW Hall, 307 E. Main, Lowell.

The meal features steak, baked potato, and salad bar.

LIBRARIES OFFER STORY TIMES

The Kent County Library System offers Cuddle and Read story times for pre-schoolers ages 3½ - 5.

The monthly programs will be held at the Lowell Branch, 325 W. Main on Monday mornings at 11 a.m. They are scheduled for Jan. 29, Feb. 26, March 26 and April 23. Pre-registration is required. For more information call the library at 897-9596.

These story times will be offered at the Alto branch, 6059 Linfield on Thursday mornings at 10:30 a.m. They are scheduled for Jan. 18, Feb. 15, March 15 and April 12. For more information call the Alto branch at 868-6038.

LOCAL ARTIST FEATURED AT LAAC GALLERY

The watercolors of local artist, Judy Tummino are presently on view at the Lowell Area Arts Council Gallery.

Tummino's work will be on exhibit through February 11, 1990. Gallery hours are Monday through Friday, 1 to 5 p.m.; Saturday and Sunday 1:30 to 4:30 p.m. Visit your gallery today at 149 S. Hudson St.

SUPER SPAGHETTI ON SUPER BOWL SUNDAY

Make the day special from noon until night! Take the cook (and whole family!) out for spaghetti at the Lowell First United Methodist Church, 621 E. Main St., Sunday, Jan. 28, then return home to settle in for the big game.

Serving is from 11:45 a.m. to 2 p.m. in the dining room. Menu includes spaghetti and homemade sauce, garlic bread, jello salad, relishes and dessert. Tickets are \$4.50 for adults; \$2.50 for those 5-12 years of age; and free for those 4 and under.

Purchase tickets at FMB State Savings Bank, the Church office daily, or at the door on Jan. 28. The dinner is sponsored by the Senior High youth group, to help finance a spring fellowship trip. Thanks for your support!

DRAMA CLASS PRESENTS COMEDY "AIRLINE"

On Thursday, Jan. 18, at 7:30 p.m. the Lowell Middle School Eighth Grade Drama Class will present the comedy, "Airline."

The public is invited and admission is free.

TICKETS FOR LAAC PLAY ON SALE SOON!

Tickets for the LAAC Winter Play, "Strange Bedfellows" will go on sale Monday, Jan. 29.

The dates for the play are Feb. 15, 16 and 17 and Feb. 22, 23 and 24 at 8 p.m. each evening at the Lowell Middle School. Thursday performances are \$4 adults; \$2 Senior Citizens and students. Seats for Friday and Saturday perfor-

City Council accepts substation explanation.

In a letter to the Lowell City Council, the Lowell Light and Power Board stated that it reviewed and approved the relocation of the Bowes Road substation without any intentional or malicious intent.

"The Council received and reviewed the letter and accepted the explanation," Lowell City Manager Dave Pasquale said.

Under the initial survey reviewed by the council in January of 1989, it was determined by the Lowell Light and Power engineer that the substation could not be located under the power lines and would have to be moved back.

At the time, Williams and Works was instructed to re-survey the site, which it did in May of 1989. The survey was then reviewed and approved by the Lowell Light and Power Board.

The letter stated that the difficulty in perceiving the relocation as a problem is supported by the fact that at no time during the three months construction process did anyone question the location of the substation on its current site.

The substation was moved south 55 feet for a number of safety and engineering reasons. The basic reasons for moving the site are listed as follows:

- * 1. Proximity to existing overhead distribution lines.
- * 2. Proximity to Bowes Street.
- * 3. Underground electric circuits.
- * 4. Overhead line maintenance.
- * 5. Vandalism.

To avoid similar problems in the future, the Lowell Light and Power Board said it is committed to improving communications with the City Council, and further recommended that the City subject all future Light and Power construction sites to the same review process that it would apply to any other construction in the City, including site plans, permits, and on-site inspections during construction.

The letter said the Board is confident that such scrutiny in this case would have uncovered the oversight before construction was completed and avoided the problem and the embarrassment to the community.

In regard to the substation site landscaping, it was proposed and accepted that early in the project plantings necessary for aesthetically concealing substation equipment from view would be added during the spring's planting season.

Strong winds befall 36th St. tree

Mary Dillree's Law - If something can go wrong while house-sitting it will.

Dillree with her sons Chad and Chris were house-sitting for her parents while they vacationed in the Bahamas.

Both Dillree and her sons were awakened to the sound of a tree landing on the corner of the garage before it plummeted onto the hood of her parents car Thursday morning (Jan. 11).

"The first thing I did was grab the boys. I thought the house was coming down," explained Dillree. "This is the second time a tree has fallen on the garage."

Prior to the befallen tree incident Dillree's son, Chad incurred severe burns on his hand and the basement of her parent's house flooded. "It's unbelievable all the things that have happened since my parents left for the Bahamas a week before Christmas."

Dillree said her parents

A big chunk of a tree fell on the garage and car of Albert and Dot Lalic on 36th St. Thursday, Jan. 11.

took the news real well. "My mother laughed and said don't worry about it, they have in-

surance," Dillree said.

Dillree hired a man to come remove the tree. Con-

sumers' Power then repaired any damages incurred by telephone wire.

Insurance to cover gas leak financial losses

Did you suffer a financial loss because of last week's gas leak on West Main St.? If so, not to worry, there is insurance to cover your loss.

Ron O'Connor, an adjuster with American International Adjustment Company, Inc. told the Lowell City Council at their regular Monday meeting that his company is prepared to cover all legitimate losses. O'Connor's firm is the insurance carrier for Hunter Environmental, the company installing the test well at Action Auto when the gas main was ruptured on Monday, January 8.

O'Connor said there is still a slight possibility that Consumers Power and their Miss

Dig program may share in the responsibility for the accident through faulty information or an inaccurate survey. O'Connor says that if Hunter Environmental is clearly responsible, his firm will stand behind all claims, including a sizable claim from the city for overtime paid city crews and emergency personnel.

If you have a physical claim, such as a bill for motel accommodations or for lost business during the evacuation you should contact city hall for a simple claim form provided by American International Adjustment Company, Inc. O'Connor apologized because the form does not list the company's

toll free phone number that can be used to contact the Naperville, Illinois office. Those seeking information regarding claims should contact Ms. Linda Odom at 1-800-654-9209.

Relating to the emergency, Lowell City Manager Dave Pasquale told the City Council that all city crews, police and emergency personnel performed very well during the

evacuation. Pasquale also commended City Clerk Betty Morlock and Lowell Police Department Secretary Jan Baker for attending the phones at City Hall through-

out the emergency. Morlock and Baker stayed at City Hall late into the evening answering calls from residents concerned about their homes and businesses.

Pictures & story, Page 24

Obituaries

CAHOON - Olive M. Cahoon, aged 84, of Saranac, passed away Friday, January 12, 1990. She is survived by one daughter, Mrs. Clifford (Shirley) Jackson of Saranac; two grandchildren. Funeral Services were held Tuesday at the Saranac Community Church, with Rev. Stanley Hagemeyer officiating. Interment Saranac Cemetery. Anyone who wishes to make contributions to the Saranac Fire Department or the Saranac Elementary School Library.

DOYLE - John L. Doyle, MD, aged 66, of Ada, died Saturday, January 13, 1990. Surviving are his wife, Jane; two daughters, Katherine (Mark) Neikirk of Covington, KY, Margaret Doyle of Lansing; two granddaughters, Sarah and Allison Neikirk; and his parents, Everett and Margaret Doyle of Gulfport, FL. Dr. Doyle was past president of the Irish American Pediatrics Society, a member of the Kent County Medical Assn., American Academy of Allergy and former Chief of Staff of Mary Free Bed Hospital. The Funeral Service Mass was offered Tuesday at St. Roberts of Newminster Church, Interment Resurrection Cemetery. Memorials may be made to Mary Free Bed Hospital and Rehabilitation Center.

HARIG - Mr. Maynard Harig, aged 90, of Alto, passed away Monday, January 15, 1990. Funeral arrangements are being handled by the Roetman Funeral Chapel, Caledonia.

LASTOCZY - Col. James W. Lastoczy, of the West Michigan Wing, Confederate Air Force, aged 54, of Lowell, passed away suddenly, January 8, 1990. Surviving are his children, Cindy (Michael) Hillsey of Albuquerque, NM, William Lastoczy of Lowell, Jennifer Lastoczy of Wyoming; very special friend, Dee Smith; two step-daughters, Roxann (Gary) Ouderkirck, Rebecca (Greg) Hauser; two aunts, Doris and Ruth Lastoczy; and several cousins. He was a member of the Michigan Company of Military Historians and Collectors and a retired employee of the U.S. Post Office. Funeral Services were conducted Friday at the Arsulowicz, West Funeral Home, Interment Holy Cross Cemetery. Memorials may be made to the Confederate Air Force.

MURRAY - Robert J. Murray, aged 71, a former Grand Rapids and Lowell resident, passed away in Lakeside, AZ, on January 7, 1990 following a brief illness. He is survived by a daughter, Pamela Mur-

ray; a son, James (Carol) Murray, all of Alto; four grandchildren; and a sister, Donna Pearson of Oregon, IL. Mr. Murray was a Veteran of WWII. A Memorial Service was held in Oregon, IL.

SHOOK - Mina Shook, aged 86, formerly of Lowell, passed away Monday, January 8, 1990. She is survived by her children, Rev. Elvis (Erma) Shook of Lapeer, MI; Elgie (Bonnie) Shook of Allegan, Rev. Bryan (Cletus) Shook of Six Lakes, and Mrs. William (Aldore) Schmidt of Grand Rapids; 15 grandchildren, 31 great-grandchildren. Funeral Services were held Friday at Roth-Gerst Funeral Home, Lowell, Rev. Ronald Schmidt officiating. Interment Chapel Hill Memorial Gardens.

TIMMER - Beatrice J. Timmer, aged 83, of Ada, died January 9, 1990. She is survived by her sister, Irene Timmer of Ada; several nieces and nephews. Funeral Services were held Saturday at O'Brien-Eggebeen-Gerst Chapel, 3980 Cascade & I-96, Rev. Peter J. Breen of Orthodox Reformed Church officiating. Interment Cascade Cemetery. Memorial contributions may be made to Christian Rest Home.

WEIGLE - Anna Weigle, formerly of Lowell, passed away Thursday, January 11, 1990 at St. Mary's Hospital, Livonia, MI at the age of 80. She was the widow of Christian E. Weigle and is survived by two sons, Ernest and Al Weigle, both of Toledo, OH; four grandchildren, one great-grandchild. Services were held Saturday, Jan. 13, 1990 at the Apostolic Christian Church, Toledo. Contributions may be made to the Apostolic Church Woodhaven Home, Livonia, MI.

Happy Birthday

JAN. 22: Fran Walling, Bob Pfaller, Dale Latva.
JAN. 23: Jim Bovec, Rowland Ryder, Ron Miller, Melissa Bartlett.
JAN. 24: Linda Kropf, Heidi Blattner, Glen Rozich, Al Baird.

City approves lease for fairground usage

The Lowell City Council inked a ten year contract with the Kent County Youth Agricultural Association for the lease and use of the Lowell Fairgrounds. The new contract was negotiated and drafted to reflect actual usage of the fairgrounds as it currently exists. The one dollar per year lease allows the Youth Association year around use of the grounds where their buildings are located. During the 4-H Youth Fair the association is allowed the use of other areas in Recreation Park, to include the campground area near the river for amusement rides, camping and parking.

The council set a public hearing for the Lowell Zoning Board of Appeals at the February 5 meeting. City Council meeting. Faro Uccello, owner of Faro's Pizzeria at 1004 W. Main wishes to erect a sign in excess of ordinance specifications. The sign would be mounted on the west side of his location to take advantage of traffic approaching from the west.

The council approved the purchase of a personal computer and related furniture for use by City Clerk Betty Morlock.

In his manager's report, Lowell City Manager Dave Pasquale reported that a major water main leak had been detected and successfully repaired by city crews. The leak occurred near the bridge on E. Main and the water leaked undetected into the river. Department of Public Works Director Tony Siciliano said that estimates of 200,000 gallons per day leaking from the break were not unrealistic.

The council had no comment on the monthly reports submitted by all city departments. The council adjourned into executive session to discuss a possible property acquisition.

Students receptive to D.A.R.E., Nelson's drug message

D.A.R.E. (Drug Awareness Resistance Education), a drug awareness program that was initiated in Los Angeles, California has found its way into the elementary classrooms of over 250 Michigan School districts and 20,000 students.

The thrust of the program, according to Rockford Police Officer Mike Nelson of Post 61, is to teach youths about the pressure put on students today to use controlled substances and of the eight verbal and non-verbal ways to remove yourself from the

peer pressure and to say no. The program is targeted toward the existing fifth and sixth-grade elementary students. It runs for 17 weeks. Each session lasts 45 minutes.

Nelson, in his second year of communicating the message to students, covers such topics as self esteem, drug use and misuse, and a value system, not a moral value system but a legal value system.

Runciman/Riverside played hosts to Lowell's first D.A.R.E. Culmination Ceremony. The occasion was a chance to celebrate the students' cooperation and commitment in taking a stand against the use of drugs.

"Thank you," Nelson said to the School administrators and students, "For letting D.A.R.E. come into your community. It is my hope that

There were a handful of skits performed by students at the ceremony. This is not a 17-week program that once it's gone you will forget." The gratitude and apprecia-

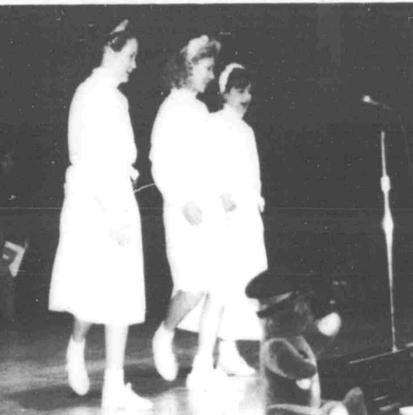

tion students showed toward Nelson prior, during and after the culmination ceremony leads one to believe his message won't soon be forgotten. In attendance at the ceremony was Michigan State Senator Dick Posthumus. The Senator, who was not aware of the program at a state level, was impressed with the program's local control and involvement. "This drug awareness program separates itself from most through its directness and its student involvement. I'm really impressed with the local control and involvement."

Posthumus told students that they would teach our next generation to lead a drug-free life.

Nelson's boss, First Lieutenant Steve Madden thanked Nelson for his commitment to the betterment of children and of society.

Nelson pointed out that the program is not a 17-week lecture. "It involves a lot of role-playing and requires a 100 percent participation," he says. Nelson sees the students' reaction toward him as they progress through junior high school and high school as a program measuring stick.

In each classroom students wrote down their thoughts about the program and what it is they've learned from it.

There were a handful of skits performed by students at the ceremony.

A letter from each classroom was shared at the ceremony. Brad Claus' letter is representative of many of the letters written. Claus, a fifth-grader at Riverside School, is a student in Mr. Blodgett's classroom. He writes:

"I've really enjoyed the D.A.R.E. program this year. I've looked forward to every Wednesday when Trooper Nelson came to our class."

The D.A.R.E. program has taught me to say no to drugs.

"I think everybody knows drugs are bad for you because of the commercials on T.V., things our parents read us, and things we learn in school."

But what D.A.R.E. has taught us is why drugs are bad and how they can hurt you.

Trooper Nelson has taught us that nobody can force you to do anything and that you make the final decision.

The D.A.R.E. program has brought in older students and they have told us what it's like when you are faced with the pressure of saying no.

It may seem impossible to stay away from drugs because they seem to be everywhere from what we see on the news.

But if you are socially active and are involved with D.A.R.E., cont'd., pg. 6

Most of the classes and students had special messages for their friend Trooper Mike Nelson.

Chris Hodges was one of the PTO/PTC members honored for her program commitment and cooperation.

Angela Smit and Robert A. Sterzick

Couple announces August wedding

Mr. and Mrs. Edward C. Smit Sr., of Saranac are pleased to announce the engagement of their daughter, Angela Janette to Robert A. Sterzick of Lowell, son of Mr. and Mrs. Adrian Sterzick of Alto.

The bride-to-be is a 1986 graduate of Saranac High School and a 1987 graduate of Chic University of Cosmetology. She is currently employed at Bergy Bros. in Alto.

The prospective groom is a 1985 graduate of Lowell High School and employed at Stow and Davis in Kentwood.

The couple is planning an August 11, 1990 wedding.

Supernatural with super spaghetti

E.S.P., hypnosis, the supernatural, brain washing...are they for real? Scientists have verified all of the above, and yet Gary Flegal claims that scientists are some of the most easily misled and least qualified to judge such happenings. Flegal knows what he is talking about because he claims he is one of the most super, most natural guys on the face of the earth.

Flegal is a certified district lay speaker in the United Methodist Church, a former

elementary school teacher, a member of the Fellowship of Merry Christians, and a member of the International Brotherhood of Magicians. He has been a professional magician for 12 years and is currently working on a Ph.D at Michigan State University.

Come and have fun with Gary Flegal at Lowell First United Methodist Church for a Youth Event on cults and the supernatural at 6 p.m. on Sunday, Jan. 21, 1990.

The Lowell United Methodist Youth Group is

In The Service

Pvt. 1st Class Brent A. Barber has completed training at the U.S. Army Infantry School, Fort Benning, GA.

During the course, students received training which qualified them as light-weapons infantrymen and as indirect-fire crewmen in a rifle or mortar squad.

Instruction included weapons qualifications, tactics, patrolling, land mine warfare, field communications and combat operations.

Barber is the son of Elizabeth A. Hendricks of Grand Rapids and Ronald L. Barber of Alto.

He is a 1985 graduate of Ottawa Hills High School, Grand Rapids.

Army Spec. George A. Trowbridge has arrived for duty in South Korea.

Trowbridge is an infantryman with the 2nd Infantry Division.

He is the son of Jack A. Trowbridge of Ada.

graduate of Lowell High School.

Navy Petty Officer 2nd Class Dennis M. Bender, whose wife, Mary, is the daughter of Leo and Florence Enos of Saranac, recently returned from a six-month deployment to the Mediterranean Sea, while serving aboard the aircraft carrier USS America, homeported in Norfolk, VA.

While deployed, Bender participated in various exercises including Display Determination-89, which was comprised of ships and men from Belgium, Great Britain, Italy, Spain, Turkey, West Germany and France.

Bender also visited the ports of Benidorm, Spain; Palma de Mallorca, Spain; Izmir, Turkey; Singapore; Toulon, France; and Monte Carlo, Monaco.

A 1973 graduate of Union High School, he joined the Navy in May of 1978.

Homespun Devotions

By Pauline Spray

I will call upon the Lord, who is worthy to be praised... (Psalm 18:3).

"My daddy got his taxes," a little boy bragged to his playmate.

"My daddy got his taxes first," the little girl retorted, thinking that put her father out front.

Another child was overheard to boast, "My father has more credit cards than yours has."

Children love to brag about their parents. When God's children catch a true glimpse of His greatness, they want to brag about Him, too.

Many humans are impressed by those who possess wealth and influence; they are always ready to give attention to those in prominent places. But God is different from mortals. He listens to the least of us. He gives grace to the humble, strength to the weak and weary, sight to the blind, and wisdom to those who ask.

Men ought to exalt God. He is worthy of praise. And praise brings His approval. It brings victory to the heart when nothing else can. One missionary testified, "We praised our way through the difficulty." Another has said, "When it is hard to pray, praise your way through."

Why not try it if you're in difficulty? "Praise your way through."

Prayer: "My heart is fixed, O God, my heart is fixed. I will sing and praise... I will praise thee, O Lord, among the people: I will sing unto thee among the nations. For thy mercy is great unto the heavens, and thy truth unto the clouds." Amen.

We increase the sweetness of our gifts by thankfulness for them. We taste them twice when we ruminate on them in gratitude.

Alexander MacLaren

Viewpoint

First off... let me apologize for the blunder in last week's column. When the type was positioned on the page the middle-third was transposed with the ending. If you stuck with it, you likely figured that out and got the gist of the thing despite our best efforts to throw you off. Before you go blaming me for the error, and possibly linking it to my old age, I'll have you know I didn't lay out that page.

The person responsible will remain nameless, but he's much younger than I. What? Me, defensive about my age? No, never! Well, maybe a little.

As advertised, I'm going to devote this week's column to describing the horrors of turning forty. I thought, "a day in the life of a forty-year-old" would be a good way to approach the subject. Since the day actually begins at the stroke of midnight, we'll begin right there, sound asleep in my water bed. Peaceful, isn't it? Don't worry, it won't last long.

To begin with, I'm sleeping on my left side. There are reasons for that. I can't sleep on my right side because of the bursitis in my left shoulder. I can't sleep on my stomach because of a degenerated disc in my back. I can't sleep on my back because I developed a habit of snoring loudly in that position and Terese elbows me into rolling over onto my left side. Heaven forbid I develop a problem with my right side or I'll have to sleep standing up like a horse or

hanging by my knees like a bat!

Well, the sleep didn't last long. Somewhere around one or two a.m. I'm awakened by my bladder. In my younger days I could sleep eight to ten hours, even longer, without a trip to the head. Now it's four or five hours max. Seems to me that with this bigger belly I'm sporting there should be more room for my bladder. Oh well, just another of life's little mysteries.

Now it's time for a little insomnia. This doesn't always happen, but sometimes I have a heckuva time getting back to sleep. Most insomniacs lay awake worrying about their job, money, marital problems, kids, etc. Not me. I just don't sleep. I sometimes wish I would worry about things so I could get bored with worrying and fall asleep. Follow that? I didn't think so.

No matter how bad the insomnia is, I always manage to be sound asleep when the alarm goes off. Properly jump-started with a dose of rock 'n roll I pry myself out of bed to start the day. I stagger off to the shower or head for my exercise bike. In either case, I'm bent over because the muscles have tightened up around the bad disc in my back, limping slightly because of arthritis in an old football injury to my left knee and windmilling my left arm in an attempt to work out the bursitis in my shoulder. What a show!

Once on the exercise bike I'm immediately reminded of my age by the aching in my muscles as I work up to speed. It doesn't seem to matter how many days a week I ride, those muscles still ache well into the ride. With my 50 minute ride behind me I head for the shower. A quick hop on the scale shows that despite the fact I'm exercising quite regularly and watching what I eat more than I ever have, age seems to be winning out in the poundage department. A visual check in the mirror verifies the accuracy of the scale.

The morning shower is not very uplifting to a forty-year-old. First off, I notice during my shampoo that little thin spot at the back of my head is getting thinner. While washing

I notice the vericose vein in my thigh is becoming more noticeable. And, when I drop the soap I'm reminded that my bad back isn't getting any better either.

After the shower I get a good look at myself in the mirror. Yup, those are definitely crows' feet on that once cherub-like baby face. All that gray hair makes me once again consider hair coloring. When flossing I notice a definite tenderness, if not an outright pain, in certain areas of my gums. "Wonderful!" I think to myself, "forty years old and my teeth are fine, but the gums are going!"

After passing up certain pants that have become too snug, I get dressed, gulp down a cup of coffee and maybe a small helping of Grape Nuts with a little artificial sweetener and some skim milk. It ain't bacon, eggs and pancakes, but it fills the void. Bolstered by my morning ritual, I grab another cup of coffee and head out the door to face the day. You might think an old goat like me would be exhausted and a little depressed by the first eight hours of my day. And, you might be right. Never the less, I plaster a smile on my face and head out the door.

Well, I've done it again. I've rambled on way too long in one spot. Old folks have a tendency to do that you know. Here I was going to take you through a whole day in the life of a forty-year-old, and didn't even get you to work. We'll see what next week brings. Maybe we can continue this with all the fun stuff a forty-year-old faces each day, like rearing teenagers, heartburn, pension planning, colon cancer tests, eye exams, etc. Then again, maybe we'll just put this all behind us and move on to something a little more cheery, like war, famine or pestilence.

P.S. Those of you here in the Lowell area should stop by Man's World Hair Styling this week. My old schoolmate Marilyn Sage Dawson turns forty on Sunday, January 21. Your heckling, ridicule and sarcastic remarks would be greatly appreciated by yours truly.

FEMALE CONTRACEPTION: THE CERVICAL CAP

The Food and Drug Administration (FDA) has recently approved the use of a cervical cap for female contraception. This makes the first time in eight years that a new contraceptive has been introduced in the United States. This device is hardly new, however. It has been used in Europe successfully for most of this century. In general, any woman who is a candidate for a diaphragm is also a candidate for use of the cervical cap. Women who should not use the cap are those who are found to have unusual cervical shape or length, cervical lacerations or scars and an abnormal pap smear.

Like the diaphragm, the cervical cap is a barrier contraceptive. This means that it functions as a physical barrier between sperm and the cervical opening. The cap stays in place by suction and support by the vaginal wall. As with the diaphragm, a spermicidal gel is also used.

Some women find the cap more convenient than the diaphragm because it requires spermicide application only upon insertion and can remain in place for 48 hours, allowing more spontaneous sexual activity. In contrast, diaphragm users are admonished to insert the diaphragm soon before intercourse, to apply additional spermicide before sub-

sequent intercourse, and to leave the device in place for no more than 24 hours.

Some users of the cap have related some difficulties with inserting and removing the device. In addition, dislodgment of the cap during intercourse can go unnoticed by both partners.

Rates of pregnancy are similar among diaphragm and cap users. In clinical trials, however, the abnormal pap smear rate was 4 percent among cap users, compared with 1.7 percent among diaphragm users after three months of use. After 6 months of use, the incidence of pap smear changes was similar in both groups. Nevertheless, the FDA has recommended that the cap be prescribed only for women with normal pap smears and that patients get follow-up pap tests after three months of use. There have been no reports of toxic shock syndrome associated with the use of the cervical cap.

The high school chemistry class is studying and experimenting with ammonia.

La Grippe, measles, chicken pox, colds, influenza, catarrhal fever, rheumatic fever, quick consumption are all present.

A couple of farmers have started a skunkery; live skunks are worth \$2, delivered. End of article.

Practical joke, '90's-style: place a live mouse in the store's cash railway system.

The front page seems to be reserved for disasters around the world.

Two juvenile escapees from the State Vocational School at Lansing steal Royden Warner's new car. He gets it back badly damaged from its trip into a Grand Rapids ditch.

The business census is going on now, and population, housing and agricultural censuses will follow soon.

The average debt burden in the U.S. is \$345 for each person.

A booking agent from Chicago proposed to put on the Showboat in 1965, this after several adjourned meetings of the Showboat Board result in cancellation of this year's show.

Umbrellas for men are back in favor. Coons is stocking them after a 30-year absence.

A strike is called at the Newell Manufacturing Co. by the union local.

Letters to the Editor

Dear Editor:

Please share with your readers and the Lowell Community my thanks for all the help during the recent "EMERGENCY" experienced by our Community. When it was determined that Lowell Medical Care Facility and persons surrounding the gas leak needed to be evacuated last week, I was again proud to be a part of a community that pulls together when needs arise.

Special congratulations are in order for the Lowell Medical Care Center administra-

tion and staff for their emergency preparedness plan. Nursing home residents arrived at check-in/check-out point and were checked in. Food was provided for those who had not yet eaten, as well as provisions available for the next day. Patients' charts and medicines were available within one-half hour after the first residents arrived at our building. Blankets and bedding arrived shortly after. Staff from the facility volunteered time in off-hours.

While a few residents were excited over such a change in their daily routines, most

were apprehensive. Responsible administration and employees were a distinct asset to dependent persons in a crisis situation.

There were other groups and individuals who were helpful during our emergency week ago. Those included: The Salvation Army Emergency Canteen, Canteen 800, The American Red Cross of Kent and Ionia Counties, Lowell Area Schools (housing and bus-

ing), Lowell Rescue Squad, several ambulance companies, Lowell Fire and Police Departments, Lowell

Church of the Nazarene, and the work crews who had the dangerous job of repairing the damage.

On behalf of my congregation, I say a special THANK YOU to these and to the many individuals in the community who gave selflessly during a time that could have been a disaster. I hope that we may all continue to know the blessings of community on a daily basis.

Sincerely,

W.J. (Bill) Amundsen, pastor
First United Methodist
Church of Lowell

MON., FEB. 5: No January meeting of the Athletic Boosters. The next meeting will be February 5 at the K-Quad Room at the High School.

College News

Recently degrees were issued from Ferris State University for the fall quarter. Included in that list was local student, William Robert Summer, of Lowell, who received a Bachelor of Science Degree in Pharmacy.

Sandra M Baker, of Alto is visiting the Bahamas with a Lighthouse team from Taylor University during the school's January Interim. She is the daughter of Mr. and Mrs. Peter Baker and is a sophomore majoring in Psychology.

Lighthouse is an evangelistic, mission-oriented, student organization at Taylor. Lighthouse teams visit cities, prisons, schools, and churches in the host countries. Individual team members share their Christian faith through personal testimonies, songs, and skits. The trip is led by Mr. and Mrs. Robert Freese and Miss Karen Muselman of the Taylor staff.

Several area students were recently listed on the Dean's List at Western Michigan University for the fall semester. To be eligible, students must have compiled at least a 3.5 grade point average (on a scale of 4.0 being all A's) in at least 14 hours of graded class work.

Those students from Lowell are Shana Christine Steketee majoring in Finance and Jessica Wood, majoring in University Curriculum. From Alto the students included, Robert Pekrul, majoring in General Business and Colleen Michelle Woolpert, majoring in Art.

D.A.R.E., cont'd. sports and other school activities, you'll have less pressure and be less vulnerable to drugs.

I think we all owe thanks to Trooper Nelson and the State Police for their caring time for our safety. Thank You.

Clare like all of the students in the program D.A.R.E. because good advice is hard to get.

Linton Farm Supply grand opening is Friday

John Linton, President of Linton Distributing Inc., awaits the grand opening of Linton Farm Supply on Jan. 19.

The best way for an agricultural distributor to serve his patrons is to know the product they are selling.

However simple that may sound, there was a time in the not so distant past when many farmers used chemicals and fertilizers because that's what their predecessors did. Furthermore, because of the distributors' lack of knowledge and/or because of their blind pursuit of money, wrong-dos were not corrected.

As an example, John Linton, President of Linton Distributing Inc. at 11950 Cascade Rd. S.E., points to the high nitrate level in the water in Traverse City. "Farmers were putting heavy amounts of nitrogen in their soil in November. By the time spring came the benefit of the nitrogen was lost. When farmers were asked why nitrogen was put into the fields

in November their answer was 'that's when my father always did it.'" Today, through research and soil testing, distributors have learned. "Soil testing is better than guessing," Linton said.

Linton was raised as a youth on his father's (George Linton) farm on 52nd St. He has been running the xx-acre farm since 1963. He says his success both as a farmer and a distributor comes from always striving to do better. "Farmers are always challenging the elements, the weather and the insects," he says.

The life-long farmer also abides by M.E.Y (Maximum Economic Yield). "That means fertilizer for your potential and not beyond. This is just good, practical, business sense," Linton explains. He will count on all of his good, practical, business

sense as he prepares for the Jan. 19 grand opening of Linton Farm Supply at the corner of Cascade Road and Alden Nash. The business will be open from 11 a.m. to 7 p.m. Linton Farm Supply will be marketing Na-Churs Liquid Fertilizer. He already had a marketing base, as he mar-

kets the products of Na-Churs Plant Food Company. Linton currently markets products in 20 counties. Lowell will serve as the home base. He owns liquid fertilizer centers in Shelbyville, Jones and Palmyra.

The building in which Linton Farm Supply is located was secured from Michigan Milk back on November 1, 1989. "MMPA (Michigan Milk Producers Association) built a cheese plant (Leprino Cheese Plant) in Allendale," he says. Linton first heard of those plans in 1987 and that's basically when he started planning for the opening of Linton Farm Supply.

In Linton's years of farming in partnership with brother, Richard Doezema they began to use Na-Churs Liquid Fertilizer and later began working sales for the company. Due to heart problems, Linton left farming and became involved in sales marketing. Then in 1987 the company changed over to a marketing system - from employees to distributors. Linton opted to become a distributor for their products.

Linton has since expanded the product line beyond liquid

fertilizer to a full service farm supply company. "We handle all types of fertilizer, chemicals - herbicides, insecticides and fungicides. We also handle seeds," he said.

Linton nurtured his knowledge of the financial world during his nine years in branch management at Old Kent Bank & Trust. "A friend of the family kept encouraging me to come work at the bank," Linton says. "It's a decision I've never regretted. It's help me to get the full benefits from the utilization of my money."

Linton was excited to add that Linton Farm Supply will be placing all liquid fertilizer storage tanks within a DNR approved containment system. "In case a tank would leak, the containment system prevents any possible contamination," he explains.

On Linton Farm Supply's grand opening day food will be provided from 11 a.m. until 7 p.m. for friends, and customers. There will be door prizes for all who attend. Representatives from many companies will be on hand to talk to patrons. There will also be a free drawing offering the following prizes: \$100 from

Na-Churs Plant Food; one gallon Roundup from Brayton Chemical; one bag of seed corn from Golden Harvest; and a bag of soybean seed from Golden Harvest.

Wiggagging is a method of signaling with one flag. The three motions used represent a dot, a dash and the end of a word or paragraph.

MORE BLUEBIRD NEWS

Mrs. Evelyn Marron of Kissing Rock Avenue called the Ledgeroffice to report a bluebird sighting at their home on Christmas Day and has come to believe they have stayed all winter in covered areas.

OFF THE BLOTTER

Lynn Smith, 30, of Lowell backed from a private drive on Sibley St. Jan. 12 into the path of a car driven by Margaret Afton, 41, also of Lowell causing minor property damage to both vehicles.

Terrance DeBold, 21, of Greenbush, MI was injured in an accident Jan. 12 when the vehicle he was driving struck a car in the rear driven by Joan Thayer, 30, of Lowell on Main St. near Alden Nash.

Michael Lindhout, 17, of Ada struck a parked car in the High School parking lot belonging to Marcia Ebling of Ada on Jan. 9 while attempting to park his car.

A pick-up truck owned by Edward Sumner of Saranac was struck by a hit and run driver while parked in Keiser's Kitchen parking lot on East Main St., Jan. 8.

Lowell officers recovered a stolen off-road 4 wheeler Friday evening, Jan. 12, after chasing it down Bowes Rd. and onto S. Center St. where it struck a fence. The driver escaped on foot. The vehicle was stolen in Ionia County the last part of December.

The Lowell Fire Dept. was dispatched to 31 fires in the month of December, 1989. The Department responded to 235 dispatches in the 1989 calendar year.

Arrested on two warrants Sat., Jan. 13 was George Saigeon, 36, of Lowell. One warrant for Contempt of Court out of Grand Rapids and the second issued by Charlevoix County Friend of the Court.

Lowell technology curriculum approved

The traditional charge of industrial education has changed, with that so has the aim of education.

Back in the 1940's-50's it was called industrial arts today it is referred to as technology education. "The technical education has got away from specific skills. It's job market now want applicants that have problem solving skills, employability skills and the ability to get along with other employees," Lowell High School Technology instructor Curt Kaeb said. "However students still need to be able to apply the basic math, science and language skills to solve the problems."

Lowell's Board of Education approved the technology curriculum, the request for machines and equipment from the 1989-90 capital outlay account not to exceed \$12,841, the request for \$1912.50 for textbooks from the 1989-90 textbooks account; and also approved the purchase of machines and equipment scheduled for purchase in 1990 and 1991 from the capital outlay account subject to the availability of funds.

Kaeb along with high school technology instructors Gary Butts and Dave Stegehuis presented their technology curriculum to the Lowell Board of Education at its January meeting. The curriculum will go into effect beginning with the 1990-91 school year, with textbooks and machines purchased out Tech., cont'd., pg. 9

Letter to the Editor, continued

My apologies and thanks to any of whom I was unaware, and who should have been included in the list above. W.J.A.

Dear Editor:

With the recent events of the last year regarding child abuse in this community, I feel compelled to send this letter regarding a letter we received and our reaction to it.

A few weeks ago a letter came addressed to my husband from an R. Blake. Immediately my mind, working in typical female fashion, goes through a series of names wondering what R. stands for. Rachel, Rhonda, Renee - did my husband have a secret admirer I didn't know about?

Well, when my husband opened the letter and read its contents we found out that R.

Blake was a Rich Blake convicted of child molestation and he was looking for supporters to help him get a lighter sentence. He didn't want to go to jail. Why did he write to us, we wondered? We don't even know this man.

Apparently, he had found the Lord (as if the Lord was ever missing) and he was very repentant for his actions. A rather emotional discussion between my husband and I followed the reading of his letter.

We are skeptics of jailhouse conversions. We recalled an example told by my father-in-law about forgiveness. A man may start drinking and without realizing it, either intentionally or unintentionally, get drunk. He may be very sorry for his actions and ask God for forgiveness. He will be forgiven; not hours, or weeks, or months

from now, but immediately. However, he still will suffer the consequences of his actions -- a hangover. It is the same with any other course a person may follow. If one chooses to do wrong they can be forgiven but, they will still have to take responsibility and suffer the consequences for their actions.

So, if Mr. R. Blake is looking for sympathy from us he is fishing in the wrong pond. AND if Mr. Blake has truly found the Lord and repented then he should take his punishment like a man and pray that his faith and the Lord will help him through it. We feel the same about any child abuser.

We need to protect our children.

Christine M. Ellison

Technology, continued

of this year's budget. Jim White, Director of Curriculum added that the machines recommended for purchase are by no means going to meet the real need of replacing most of the antiquated ones currently in each lab. While the current budget does not allow for replacement at this time, White suggested it be included in an upcoming bond issue. "That

is really the only way we can adequately address the costly needs of the technology department.

The machines currently recommended for purchase will be paid for over the next three years out of the existing capital outlay budget.

It is believed by many that the mandated core curriculum has squeezed many students out of the technology area.

Butts said, "The neglect problem started five years ago with the mandate and hasn't really been addressed yet. Back in the early eighties Lowell High School had five full-time employees in the technology area. Today, there are only two.

The new technology curriculum is a step toward reversing that 10-year trend.

Current Tax Fund	92,952.83

Item No. 1. ELECTION OF MAYOR AND MAYOR PRO TEM. As required by the City Charter the election of the mayor and mayor pro tem by the Council was held for the two year terms. City Manager/Clerk Pasquale opened the floor for nominations for the office of Mayor.

IT WAS MOVED by Doyle and seconded by Fonger to nominate Councilmember Maatman for Mayor.

IT WAS FURTHER MOVED by Fonger and seconded by Hodges to close the nominations.

YEA: 5.
NAY: 0.
ABSENT: 0.
MOTION CARRIED.

City Manager/Clerk Pasquale turned the meeting over to Mayor Maatman, who opened the floor for nominations for Mayor Pro Tem.

IT WAS MOVED by Hodges and seconded by Thompson to nominate Councilmember Doyle for the office of Mayor Pro Tem.

IT WAS FURTHER MOVED by Hodges and seconded by Fonger to close the nominations.

YEA: 5.
NAY: 0.
ABSENT: 0.
MOTION CARRIED.

Item No. 2. AUTHORIZATION OF SIGNATURES FOR CITY BANK ACCOUNTS AND DESIGNATION OF DEPOSITORY BANKS. As noted by the auditor's comments, it has been necessary to annually designate the City's depository banks, authorize signatures for bank accounts and access to safety deposit box during the ensuing year.

The following designations were recommended:

a. Authorized signatures for bank accounts
Mayor City Manager David Pasquale
Mayor Pro Tem City Treasurer Judy Noonon
Police Chief Barry Emmons

b. Safety Deposit Box Access
Charlene McNab
Betty Morlock

c. Depository Banks

Comerica Bank-Grand Rapids	(Grand Rapids)
FMB	(Lowell)
First of America Bank	(Grand Rapids)
Old Kent Bank	(Ada, Grand Rapids)
Great Lakes Bancorp	(Grand Rapids)
Manufacturers National Bank	(Grand Rapids)
Michigan National Bank	(Ada, Grand Rapids)
NBD Grand Rapids	(Ada, Grand Rapids)

IT WAS MOVED by Fonger and seconded by Hodges to accept the designated depository banks and authorized signatures for bank accounts and access to the safety deposit box during the ensuing year as recommended.

YEA: 5.
NAY: 0.
ABSENT: 0.
MOTION CARRIED.

Item No. 3. JUNK CAR ORDINANCE - PUBLIC HEARING. Chief Emmons stated that problems have arisen concerning the enforcing of junk vehicles and storage. District Court Judge Joseph White has said that the present ordinance is not clear. The proposed ordinance which remedies these problems, prohibits the keeping of dismantled, partially dismantled or inoperable motor vehicles, boats, machinery, equipment or parts or any parcel of property within the City except where it is allowed by the zoning ordinance. An exception is also made where such equipment is kept entirely within an enclosed building.

Tom Shimmel (767 Foreman) and William Bennett (Lowell Auto Shop, 319 E. Main) stated concerns they had with the proposed ordinance. Mr. Shimmel felt that property owners should have the right to work on vehicles (i.e. vintage cars). He believed that the ordinance may be too harsh on residents. Mr. Bennett mentioned his business is involved with repairing cars and does have vehicles out. He said that every effort is made to conceal these.

Chief of Police Emmons suggested that some kind of special use permit could be included in the ordinance for someone who is actively working on something within a reasonable amount of time. Councilmember Hodges felt that the ordinance process should be delayed until a special use provision could be included in the language.

Mayor Maatman said that everyone should be treated the same. The police will use their discretion in each situation, just as they have in the past.

IT WAS MOVED by Thompson and seconded by Doyle to adopt the Junk Vehicle Ordinance as proposed.

YEA: 4. (Doyle, Fonger, Thompson and Mayor Maatman)
NAY: 1. (Hodges)
ABSENT: 0.
MOTION CARRIED.

Item No. 4. LOCATION OF THE LIGHT AND POWER SUBSTATION AT STONEY LAKESIDE PARK. As directed by the Council, City Manager Pasquale contacted Allan Meyer (surveyor from Williams and Works) and Jim Schaut (project engineer, Greiner, Inc.) concerning the location of the substation at Stoney Lakeside Park. According to Mr. Schaut, the site had to be moved from adjoining the Bowes Road right-of-way because the substation would be in the power line right-of-way. There would be no means to get the four distribution circuits out of the substation. Also, Mr. Schaut mentioned that the substation was too close to the street and problems would be created for vehicle service parking. Thus, a decision was made last May to move the substation site back 55' from the right-of-way. The surveyor then responded with an amended drawing.

There was no capriciousness on the part of the surveyor or engineer. The problem lies with Light and Power not communicating the need for the relocation of the substation. The consensus of the Council was to request a letter from the Light and Power Board stating why, how and who allowed this situation to happen without contacting the City. Also, the Council wants to know what the Board will do to ensure that this does not happen again. The City Council approved the landscaping, paving and fencing recommendations from the Parks and Recreation Commission to the site having Light and Power bearing the responsibility.

Item No. 5. ESTABLISHMENT OF AN INDUSTRIAL DEVELOPMENT DISTRICT - P.A. 198 - LOWELL GRANITE CO. - ESTABLISH A PUBLIC HEARING

(2/5). Jud Witterink, President of Lowell Granite, stated in a letter a request for an Industrial Development District status for his business under State Public Act 198. This status would qualify Lowell Granite for tax abatement for the new addition proposed to be built in early 1990.

IT WAS MOVED by Doyle and seconded by Fonger to set a public hearing for February 5, 1990 to consider the Industrial Development District application for Lowell Granite Company.

YEA: 5.
NAY: 0.
ABSENT: 0.
MOTION CARRIED.

Item No. 6. AWARD OF HANGAR LEASE AT LOWELL CITY AIRPORT. The Lowell Airport Board advertised for interested parties regarding the lease of a box hangar located at the airport. The new lease proposal established an annual rental rate of \$4,200 paid in monthly installments of \$350. Also, immediate maintenance is required including painting and roof repairs. The lessee can utilize a rent credit for the sums expended to paint, re-roof or provide other maintenance needed to the hangar. The lease would be limited to ten years.

Two proposals were received: Tom Speerstra of Lowell and Clare Patterson of Conklin. The Board recommended Tom Speerstra be awarded the lease because he proposed to gradually upgrade usage of the hangar. This is important since improvements to the airport must come first before full scale business enterprise can take place.

Tom Speerstra had agreed to the lease proposal except: (1) delete removing snow from leased area (an airport management responsibility), (2) modify insurance requirements until business is brought in, (3) not required to remove underground gas tanks and (4) provide five tie-downs at no charge.

IT WAS MOVED by Thompson and seconded by Doyle to award a ten year airport hangar lease with Tom Speerstra as proposed subject to final review by the City Attorney.

YEA: 5.
NAY: 0.
ABSENT: 0.
MOTION CARRIED.

Item No. 7. LOWELL TOWNSHIP SEWER BILLINGS. City Manager Pasquale stated that at the last Council meeting, an agreement (subject to Council approval) had been reached with Lowell Township over billings for sewer usage. He provided the following information: A flow meter located near the Wastewater Treatment Plant registers sewer usage by Lowell Township. The meter itself was struck by lightning in September of 1986. It was inoperable until December of 1988. During that time, the City estimated usage. The amount ranged from 3.3 million gallons per month (September thru

November, 1986) to 5.6 million (January thru July 1988).

It was determined during the summer of 1988 that the estimates were too high. Billings were suspended to the Township from August to December 1988, since it appeared that the City's costs were compensated. Also, it was anticipated that the meter would be repaired. On January 30, 1989, City staff met with John Timpson and Ray Fix (Township engineer). While proposed adjustments were discussed, the meter still had operating problems. Work on resolving these carried on through the entire year.

On December 18, 1989, a meeting with City and Township officials was held. The following was agreed upon based on these assumptions:

- * The meter was calibrated in June, 1986. The flows registered to July and August of 1986 were 1,292,310 and 1,242,480 gallons respectively.
- * Monthly flows were assumed at 1.3 million gallons from January to August of 1986. Then, monthly flow increases of 7500 gallons were calculated per unit as additional units were added to the system through December, 1987.
- * As assumption was made that the 1988 flows were the same monthly flow estimated by the City for August, 1988. (2.35 million gallons).
- * The meter was again calibrated this past month. It registered at 1.8 million gallons for November and December. This has been used as a standard for 1989.
- * Total over billing was estimated at \$38,916.09.
- * Sewer billing (includes debt service) owed by the Township from August thru December, 1988 -28,697.58
- * Lowell Township owes \$8,000 toward plant construction. A check from the Township will be applied against billings -8,000.00
- * Total owed to Township (to be credited against future billings) \$2,218.51
- * The flow meter will be calibrated annually.
- * The Township will have their customer businesses metered to insure better reading. Sewage flow meters have difficulty giving accurate readings.

IT WAS MOVED by Hodges and seconded by Doyle to approve the agreement on sewer usage between the City and Lowell Township.

YEA: 5.
NAY: 0.
ABSENT: 0.
MOTION CARRIED.

Item No. 8. CITIZENS SUGGESTIONS. None.

Item No. 9. COUNCIL COMMENTS. Councilmember Thompson stated that the ice skating rink is very nice and hopes that lighting can be installed soon so that it could be used in the evening hours. Councilmember Fonger questioned if the handicapped sign in the parking lot by the Rescue Barn had been lowered. DPW Director Siciliano said the sign was lowered today. He also questioned why the Lowell Light

and Power offices were closed on Tuesday, January 2. City Manager Pasquale responded that their labor contract has New Year's Eve off as a holiday. It was decided by Light and Power to have the day after New Year's (January 2) off instead of Friday (December 29). Councilmember Fonger suggested that in the future it should be advertised what days Light and Power will be closed.

Councilmember Hodges inquired about the status of the new fire station. City Manager Pasquale reported that the cement floor in the apparatus room has been installed and should be completed soon.

Item No. 10. CITY MANAGER'S REPORT. City Manager Pasquale reported on the following:
1. A meeting was held on December 28, 1989 with Police Chief Emmons, Fire Chief Martin, City Manager Pasquale, Township Supervisors John Timpson and Jim Cook to discuss rescue and fire department matters. The following was agreed upon:

- A. Share training costs of the rescue service equally by each jurisdiction. This amounts to \$160 a month (20 members at \$8 a month) and \$1,920 a year. Each jurisdiction would pay \$640 per year.
 - B. Share in the repair of the Fire Truck No. 6 tanker. This would amount to between \$300-400 per jurisdiction.
2. In reviewing Police Department renovation plans with the Building Inspector and prospective contractors, it was recommended to have sealed drawings. Dan Durkee of Wold and Associates was contacted for a proposal.

Item No. 11. APPOINTMENTS. None.

IT WAS MOVED by Doyle and seconded by Hodges to adjourn to the Closed Session at 8:47 p.m., regarding possible property acquisition.

IT WAS MOVED by Doyle to adjourn at 9:17 p.m.

Approved: January 15, 1990.

James D. Maatman, Mayor
David M. Pasquale, City Clerk

Idaho is the only state in the U.S. over which no foreign flag has ever flown.

In the 1945 movie To Have and Have Not Lauren Bacall's singing voice was dubbed in by 14-year-old Andy Williams.

School photography studio opens office in Lowell

Lifetouch - National ranked tops in the industry, one out of every four children School Studios has been in serving 25 percent of the market share. "We photograph Lifetouch sales manager, existence for 54 years. It is ket share. "We photograph Lifetouch sales manager,

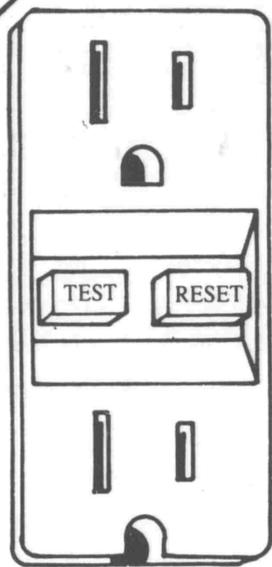

Lifetouch sales manager, Barry Robinson

Barry Robinson. Lifetouch has offices in Kalamazoo, Lake City, and as of August of 1989, in Lowell. Why Lowell? "Building space is less expensive, the locality is excellent. It's in close proximity to other area schools that Lifetouch services," Robinson said. Those schools include Saranac, Ionia, Pewamo-Westphalia, Greenville, Belding, many of the Grand Rapids Public Schools, Forest Hills Central, and Forest Hills Northern. Lifetouch, which already photographs school pictures for over 290 Michigan educational institutions in the west-central area, is looking to add Lowell to its list. "From our Lowell branch we're strictly working in the area of school pictures. We take under-

graduate school portraits for grades Kindergarten through 12," Robinson said. He adds, the variety of services Lifetouch offers schools is far and above any of its competition. "We do market research, and contribute money to the American Student Councils Association. Over the last 10 years it is no longer enough to just take and deliver pictures. We're able to return pictures alphabetically to the school either by name, grade or homeroom. We've become a name based product," Robinson says. "This is made possible through our computerized camera." Lifetouch also fills schools' needs for service pictures, yearbook die cuts and identification cuts.

The Lifetouch company has five divisions - the Lifetouch School Studio; the Lifetouch Senior Portrait; the Lifetouch Portrait Studios (JC Penny's); Lifetouch Publishing (yearbook); and Lifetouch Video Creations (a video yearbook). Lifetouch is an international company with branches in all 50 states, South America and Europe. The Lowell branch employs seven photographers, four of whom are sales people. Robinson adds over the next 3-5 years Lifetouch would also like to do family and individual portraits. Currently, Lifetouch sends out 90,000 packages of pictures a year.

BOWNE TOWNSHIP COUNTY OF KENT RESIDENTIAL AND CONDOMINIUM SUBDIVISION ORDINANCE

An ordinance regulating the subdivision of land in Bowne Township requiring and regulating the preparation and presentation of subdivision plans for such purpose...

tained herein are considered the minimum necessary to satisfactorily develop a subdivision in this township.

and general common elements must be shown, as well as other items deemed appropriate by the Planning Commission.

Bowne Township ordains:

ARTICLE I GENERAL PROVISIONS

Section 1.1: SHORT TITLE This ordinance shall be known and may be cited as the Bowne Township Residential and Condominium Subdivision Ordinance.

Section 1.2: PURPOSE

The purpose of this ordinance is to regulate and control the subdivision of land within Bowne Township in order to promote the safety, public health and general welfare of the community.

- A. Provide for orderly growth and harmonious development of the community, consistent with orderly growth policies. B. Secure safe and convenient traffic circulation through coordinated street systems with proper relation to major thoroughfares, adjoining subdivisions and public facilities.

ARTICLE II DEFINITIONS

The following definitions shall apply in the interpretation and enforcement of this ordinance, unless specifically stated. That word "shall" is always mandatory and not merely directory.

- ALLEY: A public or private right-of-way shown on a plat which provides secondary access to a lot, block or parcel of land. AS-BUILT PLANS: Revised construction plans in accordance with all approved field changes.

Section 1.3: LEGAL BASIS

This ordinance is enacted pursuant to the statutory authority granted by the Condominium Act, Act 59 P.A. 1978, the Subdivision Control Act of 1967, Act 288, P.A. 1967 and the Township Planning Act of 1959, Act 168, P.A. 1959.

Section 1.4: OVERVIEW

Subdivision regulation is a tool to guide land development in accordance with a municipality's comprehensive plan. Being based on the protection and promotion of the public interest, it offers protection and stability to both the public and private sectors.

- Typically, a subdivision regulation ordinance establishes: 1. The administrative review and evaluation procedure for processing preliminary and final subdivision plans.

We have set forth the design standards and the required improvements, including appropriate definitions and graphics. The requirements, procedures, standards and limitations con-

Hours of operation table for Harold Zeigler Ford.

outlet is not a replat.

RIGHT-OF-WAY: Land reserved, used, or to be used for a street, alley, walkway, or other public purposes.

SETBACKS: Front, side and rear yard setbacks shall be equal to the shortest distance between the building site boundaries and the structures within the building envelope.

SIDEWALK: Concrete paving parallel to and removed from road surface to facilitate pedestrian travel.

SIGHT DISTANCE: The unobstructed vision on a horizontal plane along a street centerline from a driver-eye height of 3.75 feet and an object height of 6 inches.

SITE CONDOMINIUM: That type of condominium in which the condominium unit consists of the building space rather than a structure.

SKETCH PLAN: A pre-preliminary subdivision plan (plat).
STREET: A public or private right-of-way which provides for vehicular and pedestrian access to abutting properties.

A. Major Arterial: Those streets which have greater continuity and are intended to serve a large volume of traffic for both the community and region.

B. Minor Arterial: Those streets of considerable continuity which are used primarily to carry traffic from collector streets to major arterials.

C. Collector Street: Those streets used to carry traffic from minor streets to arterial streets, including principal entrance streets to large residential developments.

D. Minor or Local Street: A street which is intended primarily for access to abutting properties.

E. Marginal Access Street: A minor street which is parallel and adjacent to arterial streets and which provides access to abutting properties and protection from through traffic and not carrying through traffic.

F. Cul-de-sac: A minor street of short length having one end terminated by a vehicular turnaround.

G. Street Width: The shortest distance between the lines delineating the right-of-way of streets.

SUBDIVIDE OR SUBDIVISION: The partitioning or dividing of a parcel or tract of land by the proprietor thereof by his heirs, executors, administrators, legal representatives, successors or assigns for the purpose of sale, or lease of more than 1 year, or of building development, where the act of division creates 5 or more parcels of land each of which is 10 acres or less in area; or 5 or more parcels of land each of which is 10 acres or less in area are created by successive divisions within a period of 10 years.

SUBDIVISION CONTROL ACT: Act 288, P.A. 1967, State of Michigan.

SUBDIVISION PLAN: The survey, site and utility plans, as prepared by a professional architect, land surveyor, or engineer at a scale of at least 1 inch equals 100 feet on a standard 24 inch by 30 inch sheet(s) (see Condominium Subdivision Plan and Plat).

SURVEYOR: Either a land surveyor who is registered in this state as a registered land surveyor or a civil engineer who is registered in the state as a registered professional engineer.

TOPOGRAPHICAL MAP: A map showing existing physical characteristics, with contour lines at sufficient intervals to permit determination of proposed grades and drainage.

**ARTICLE III
PLATTING PROCEDURE AND DATA REQUIRED
(SUBDIVISION CONTROL ACT COMPLIANCE ONLY)**

Section 3.1: PRE-PRELIMINARY PLAT

3.11 PURPOSE: It is recommended that before any extensive work is done on any subdivision that the Owner, or his representative, discuss their plans with the Planning Commission who will give assistance concerning requirements and further procedures, the purpose being to determine whether the proposed subdivision will fit into the development of the area.

3.12 REQUIREMENTS: The drawing shall contain enough information so that an accurate analysis can be made. The Planning Commission shall advise and aid the developer, or Owner, in obtaining the best possible layout for all concerned. After an appropriate solution has been worked out, the developer, or Owner, may proceed with his preliminary plat.

3.13 PROCEDURE:

- A. The Planning Commission may review the plat with the subdivider or his agent.
- B. The Planning Commission shall inform the subdivider or his agent of the township's development policies and make appropriate comments and suggestions concerning the proposed development scheme.
- C. The Planning Commission shall inform the Township Board of the results of the review of the pre-preliminary plat.

Section 3.2: PRELIMINARY PLATS

3.21 REQUIREMENTS: A preliminary plat containing all the information as required must be submitted to the Planning Commission for processing. The drawing shall be prepared by registered surveyor or civil engineer.

A. Submittal: The subdivider shall submit 5 copies of the preliminary plat on a topographic map to the township clerk at least 10 days before a meeting of the Planning Commission.

B. Size and Scale: The preliminary plat may be on paper and shall be not less than 24 inches by 36 inches, at a scale of at least 1 inch to 100 feet showing the date and north arrow.

C. Information Required: The following shall be shown on the preliminary plat or submitted with it.

1. The name of the proposed subdivision.
2. Names, addresses and telephone numbers of the subdivider and the surveyor preparing the plat.
3. Location of the subdivision, giving the numbers of section, township and range.
4. Statement of intended use of the proposed plat, such as, residential single family, two-family and multiple housing; commercial; industrial; recreational; or agricultural. Also proposed sites, if any, for multi-family dwellings, shopping centers, churches, industry and other nonpublic uses exclusive of single-family dwellings. Also, any sites proposed for parks, playgrounds, schools, or other public uses.
5. A map of the entire area scheduled for development, if the proposed plat is a portion of a larger holding intended for subsequent development.
6. A location map showing the relationship of the proposed plat to the surrounding area.
7. The land use of the proposed subdivision and adjacent tracts.
8. Streets, street names, right-of-way and roadway widths.
9. Lot lines and the total number of lots by block.
10. Existing and proposed contours shall be shown on the preliminary plat at 5 foot intervals where slope is greater than 10 percent, and 2 foot intervals where slope is 10 percent or less.
11. A site report as described in the rules of the State Department of Public Health. The requirement for a site report if the proposed subdivision is not to be served by public sewer and water system.
12. Proposed and existing storm and sanitary sewers, water mains and their respective profiles or indicate alternative methods.
13. Proposed protective covenants and deed restrictions, or state in writing that none are proposed.
14. Right-of-way easements showing location, width and purpose.
15. The subdivider shall submit 5 sets of preliminary engineering plans for streets, water, sewers, sidewalks and other required public improvements. The engineering plans shall contain enough information and detail to enable the Planning Commission to make preliminary determination as to conformance of the proposed improvements to applicable township regulations and standards.
16. A map showing the land use and existing zoning of the proposed subdivision and the adjacent tracts.
17. In the case of waterfront property or where the high groundwater elevation is within 6 feet of existing or proposed finished ground surface, show existing and proposed 2 foot contour intervals. The Planning Commission may require 2 foot contour intervals when the lots in the subdivision exceed 1 acre. When extensive cutting or filling of land is anticipated that will affect building sites, sewage and disposal facilities, the areas involved shall be indicated. The source, if known, and the type of fill material to be used when filling is anticipated shall be specified.
18. Statement as to whether the high groundwater is less than or greater than 6 feet from either the existing or proposed finished ground surface. In those cases where the groundwater is less than 6 feet, the groundwater level shall be specified. A statement as to how and when the high groundwater level was established shall be included.
19. Location of flood plain areas, rivers, streams, creeks, lakes, county drains, lagoons, slips, waterways, bays, canals and artificial impoundments, either existing or proposed within or adjacent to the area to be platted.
20. Location and results of all percolation tests and soil borings performed at the site when the subdivision will not be served by a public sewer system. Percolation tests should be provided on the basis of at least 1 per acre or 1 per lot if lots exceed 1 acre in size. The county health department may modify this requirement based on local conditions. As an example, a soil survey may be prepared by a competent soil scientist, with an indication of approximate percolation rates for certain categories of soils, which have been determined to exist in the proposed plat area, may be used to reduce the number of required percolation tests.
21. Statement of availability of water of good quality

3.22 PROCEDURES

A. Validation: The subdivider shall first submit to the township clerk for validation for 5 copies of the preliminary plat. The subdivider shall also submit a written application for approval and also the fee established by this ordinance for review of plans.

B. Tentative Approval: The Township Board, following review by the Planning Commission, may tentatively approve or reject the preliminary plan. Tentative approval shall be valid for 1 year and be extended by the Township Board.

C. List of Authorities - Filing: The subdivider shall file with the township clerk a list of all authorities, to whom validated copies of the preliminary plan have been distributed.

3.23 ACTIONS

A. Letters of Conditional Approval or Rejection: When the subdivider has secured the approvals of the various approving authorities, he shall deliver all copies to the township clerk who shall promptly transmit them to the Township Board.

B. Planning Commission:
1. The Planning Commission shall review the preliminary plan and if it meets all requirements, shall provide for an adequate public hearing, giving due notice to all parties in interest, in accordance with the provisions of the act under which the Planning Commission has been established.
2. If the preliminary plan does not meet all requirements, the Planning Commission shall notify the subdivider by letter, giving the earliest date for resubmission of the plat and additional information required.
3. The Planning Commission shall give its report to the Township Board not more than 60 days after submission of the preliminary plan.
4. The 60 day period may be extended if the applicant consents. If no action is taken within 60 days, the preliminary plat shall be deemed to have been approved by the Planning Commission.

C. Township Board:
1. The Township Board shall not review, approve or reject a preliminary plat unit it has received from the Planning Commission its report and recommendations.
2. The Township Board shall consider the preliminary plat at its next meeting, but no later than 20 days after receipt from the Planning Commission.
3. The Township Board shall, within 20 days, either reject the preliminary plat and give its reasons, or set forth in writing the conditions for granting approval.
4. Final approval of preliminary subdivision plans shall be valid for 2 years and extended upon approval of the Township Board.

Section 3.3: FINAL PLANS

3.31 REQUIREMENTS

A. General:
1. Final plans shall be prepared and submitted as provided for in the Subdivision Control Act.
2. A written application for approval and the recording fee shall accompany all final plans.
3. The subdivider shall submit proof of ownership of the land included in the final plat in the form of an abstract of title certified to the date of the proprietor's certificate, or a policy of title insurance currently in force.
4. The township may require such other information as it deems necessary to establish whether the proper parties have signed the plan.
B. Time of Submittal:
1. Final plats shall be submitted to the township clerk at least 10 days before a meeting of the Planning Commission.

3.32 PROCEDURES

A. Submittal to Approving Authorities: The subdivider shall submit the final plat and as-built engineering plans to: approval to all agencies as required by the Subdivision Control Act and to the Planning Commission for recommendations

for domestic use on the land proposed to be subdivided, if public water service will not be provided to the development. If questionable, the county health department may require an estimate as to the availability of quality water prepared by and based upon a study by a registered civil engineer or hydrogeologist competent in the field of water supply.

22. A report of soil limitations based on site inspection carried out by a soil specialist qualified in the area of soil classification and mapping, including soils information as may be obtained from a modern soil map which meets the standards of the National Cooperative Soil Survey. The source of information shall be specified.

to the Township Board and the township clerk for approval or rejection by the Township Board.

3.33 ACTIONS

A. Planning Commission:

1. The Planning Commission shall examine the plat at its next regular meeting, or within 30 days of receipt thereof, for conformance to:
 - a) The provisions of the Subdivision Control Act.
 - b) The provision of this ordinance.
 - c) The preliminary plat, as approved.
2. The time for review and recommendations by the Planning Commission may be extended by agreement with the subdivider.
3. If the Planning Commission recommends disapproval of the plat by the Township Board it shall state its reasons in its official minutes and forward same to the Township Board, and recommend that the Township Board disapprove the final plat until the objections causing disapproval have been changed to meet with the approval of the Planning Commission.
4. Recommendations for approval of the plat by the Township Board shall be accompanied by a report.

B. Township Board:

1. The Township Board shall review the final plat and the report from the Planning Commission at this next regular meeting, or at a meeting to be called within 20 days of receipt from the Planning Commission.
2. The Township Board shall approve the plat, or disapprove it. If disapproved, the Township Board shall give the subdivider its reasons in writing and rebate the recording fee and whatever portion of the review fee is provided for in this ordinance.
3. The Township Board shall instruct the clerk to record all proceedings in the minutes of the meeting, which shall be open for inspection and to sign the municipal certificate on the approved plat in behalf of the Township Board.

**ARTICLE IV
CONDOMINIUM SUBDIVISIONS
(CONDOMINIUM ACT COMPLIANCE ONLY)**

Section 4.1: CONDOMINIUM SUBDIVISIONS

Pursuant to the authority conferred by Section 141 of the Condominium Act, Act 59 of 1978, as amended, all condominium subdivision plans must be approved by the Planning Commission. In determining whether to approve a condominium subdivision plan, the Planning Commission shall consult with the zoning administrator, township attorney, township engineer, and township planner regarding the adequacy of the master deed, deed restrictions, utility systems and streets, subdivision layout and design, and compliance with all requirements of the Condominium Act.

Section 4.2: DEFINITIONS

The following terms are defined in the context of the Condominium Act and in a manner intended to make comparison possible between the Condominium Act and this ordinance (see Article II).

Section 4.3: INITIAL INFORMATION

Concurrently with notice required to be given to the township pursuant to The Condominium Act as amended (MCL 559.171), a person, firm or corporation intending to develop a condominium project shall provide information with respect to the project as described in Article III, Section 3.21:

- A. The name, address and telephone number of:
 1. All persons, firms or corporations with an ownership interest in the land on which the project will be located together with a description of the nature of each entity's interest (for example, fee owner, optionee, or land contract vendee).
 2. All engineers, attorneys, architects or registered land surveyors associated with the project.
 3. The developer or proprietor of the project.
- B. The legal description of the land on which the project will be developed, together with appropriate tax identification numbers.
- C. The acreage content of the land on which the condominium project will be developed.
- D. The purpose of the project (for example, single family detached, site condominium, mobile home).
- E. Approximate number of lots (condominium units) to be developed on the subject parcel.
- F. Whether or not a community water system is contemplated.
- G. Whether or not a community septic system is contemplated.

Section 4.4: INFORMATION TO BE KEPT CURRENT

The information shall be furnished to the township clerk and shall be kept updated until such time as a Certificate of Occupancy has been issued pursuant to Section 19.04 of the township zoning ordinance.

**Section 4.5: CONDOMINIUM SUBDIVISION PLAN
REQUIRED CONTENT**

All condominium subdivision plans shall include the information required by Section 66 of the Condominium Act and the following:

- A. A survey plan of the condominium subdivision.
- B. A flood plain plan, when appropriate.
- C. A site plan showing the location, size, shape, area, and width of all condominium units.
- D. A utility plan showing all sanitary sewer, water, and storm sewer lines and easements granted to the township for installation, repair, and maintenance of all utilities.
- E. A street construction, paving, and maintenance plan, for all private streets within the proposed condominium subdivision.
- F. A storm drainage and stormwater management plan, including all lines, swales, drains, basins and other facilities.

Section 4.6: COMPLIANCE WITH FEDERAL, STATE AND LOCAL LAW

All condominium projects shall comply with federal and state statutes and local ordinances.

Section 4.7: TEMPORARY OCCUPANCY

The building inspector may allow occupancy of the condominium project before all improvements required by this ordinance are installed provided that a bond is submitted sufficient in amount and type to provide for the installation of improvements before the expiration of the Temporary Occupancy Permit without expense to the township.

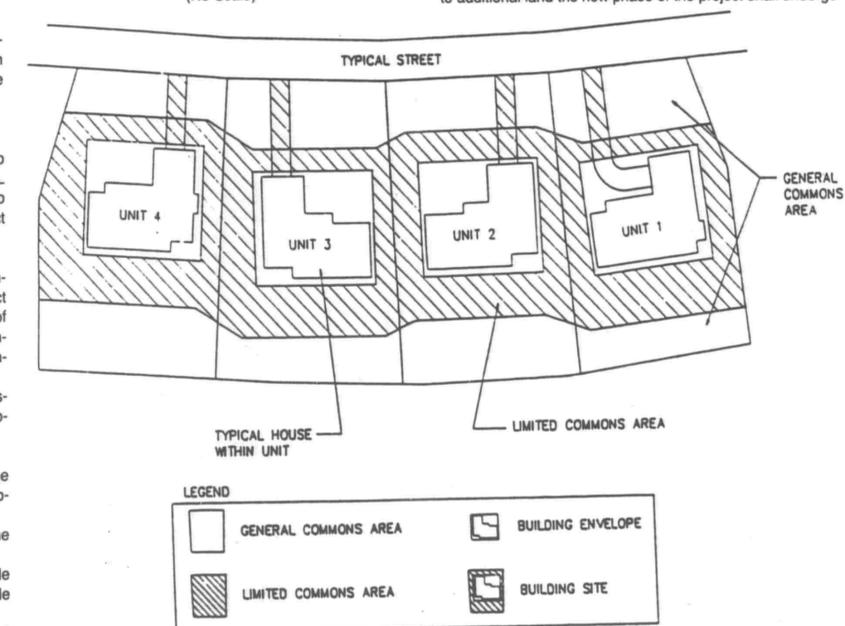

**Section 4.8: SINGLE-FAMILY DETACHED
CONDOMINIUMS**

All condominium projects such as site condominiums (see Figure 1) single-family detached, multiple-family, etc., shall be subject to all requirements and standards of the applicable zoning districts in which they are allowed including minimum floor area requirements, minimum lot size, setback, etc.

Section 4.9: EASEMENTS FOR UTILITIES

The condominium subdivision plan shall include all necessary easements granted to Bowne Township for the purpose of constructing, operating, inspecting, maintaining, repairing, altering, and/or removing pipelines, mains, conduits and other installations of a similar character (hereinafter collectively called "public structures") for the purpose of providing public utilities, including conveyance of sewage, water and stormwater run-off across, through and under the property subject to said easement, and excavating and refilling ditches and trenches necessary for the location of said structures. The location of utilities within street and road right-of-ways shall conform to county road commission recommendations.

**FIGURE 1
TYPICAL SITE CONDOMINIUM LAYOUT
(No Scale)**

Section 4.10: ENCROACHMENT PROHIBITED

Encroachment of 1 condominium unit upon another, as described in Section 40 of the Condominium Act, shall be prohibited by the condominium bylaws and recorded as part of the master deed.

Section 4.11: RELOCATION OF BOUNDARIES

The relocation of boundaries, as described in Section 48 of the Condominium Act, shall conform to all setback requirements of the township zoning ordinance for the district in which the project is located, shall be approved by the planning commission, and this requirement shall be made part of the bylaws and recorded as part of the master deed.

Section 4.12: MOBILE HOME CONDOMINIUM PROJECT
Mobile Home condominium projects shall conform to all requirements of this ordinance and shall be located only in the U-R Urban Residential Zoning Districts.

Section 4.13: CONDOMINIUM SUBDIVISION, LAYOUT, DESIGN AND APPROVAL
All condominium subdivision plans shall conform to the plan preparation requirements; review and approval procedures; design, layout and improvement standards of the township zoning ordinance, Article XVII, Site Plan Review.

Section 4.14: PRIVATE ROADS

Private roads must comply with the private road permit procedures as specified in Section 3.25 of the township zoning ordinance.

Section 4.15: MASTER DEED

The condominium project developer or proprietor shall furnish the Township Clerk with the following: 1 copy of the recorded master deed, 1 copy of all restrictive covenants and 2 copies of an "as-built survey." The "as-built survey" shall be reviewed by the township engineer for compliance with township ordinances. Fees for this review shall be established by resolution of the Township Board.

Prior to recording of the master deed required by Section 72 of Public Act 59 of 1978, as amended (MCL 559.172), the condominium project shall undergo site plan review and approval pursuant to Article XVII, Site Plan Review, of the township zoning ordinance. In addition, the township shall require appropriate engineering plans and inspections prior to the issuance of any Certificates of Occupancy.

The master deed must ensure that Bowne Township will not be responsible for maintenance or liability of the nondedicated portions of the subdivision. The deed must also ensure that nonpublic roads will be properly maintained, that snow removal will be provided, and that there is adequate access and turn-around for emergency vehicles. Responsibility for the maintenance of stormwater retention areas, drainage basements, drainage structures, lawn cutting, and other general maintenance and cleanup of common areas must be clearly stated.

Section 4.16: REVIEW AND COORDINATION

Approval of a condominium subdivision will not be granted without documented proof of compliance with Section 71 of the Condominium Act including proper notice of the Kent County Road Commission, Drain Commissioner, Health Department, Michigan Department of Transportation, and the Michigan Department of Natural Resources.

Section 4.17: FINAL APPROVAL

When construction has been completed, 1 complete copy of as-built engineering plans of each required public improvement shall be filed with the township clerk.

Section 4.18: EXPANDABLE OR CONVERTIBLE PROJECTS

Prior to expansion or conversion of a condominium project to additional land the new phase of the project shall undergo

site plan review and approval in accordance with the provisions of this ordinance.

**ARTICLE V
SUBDIVISION DESIGN STANDARDS**

Section 5.1: TRAFFICWAYS - STREETS AND ROADS

5.11 GENERAL: The standards set forth in this section shall be the minimum standards for streets, roads and intersections.

5.12 LOCATION:

A. Local or Minor Streets: Such streets shall be so arranged as to discourage their use by through traffic.

B. Street Continuation and Extension: The arrangement of streets shall provide for the continuation of existing streets from adjoining areas into new subdivisions, and shall align without jogs or sharp angles, unless otherwise approved by the Planning Commission and the County Road Commission.

C. Stub Streets: Where adjoining areas are not subdivided, and the subdivision plan includes stub streets, the street right-of-way in new subdivisions shall be extended to the boundary line of the subdivision to make provision for the future projection of streets into adjacent areas.

D. Relation to Topography: Streets shall be arranged in proper relation to topography so as to result in useable lots, safe streets and reasonable gradients.

E. Cul-de-sac Streets: Cul-de-sacs shall not be more than 600 feet in length. Special consideration shall be given to longer cul-de-sacs under certain topographic conditions or other unusual situations. Cul-de-sacs shall terminate with an adequate turnaround with a minimum radius of 75 feet for right-of-way and 50 feet for pavement.

F. Half Streets: Half streets shall generally be prohibited except where unusual circumstances make it essential to the reasonable development of a tract in conformance with these regulations and where satisfactory assurance for dedication of the remaining part of the street is provided. Whenever a tract to be subdivided borders on an existing half or partial street, the new part of the street shall be dedicated according to the requirements contained herein.

G. Alleys: Alleys shall not be permitted.

H. Private Streets: If a subdivision is proposed to have private streets, they shall be developed to the minimum design, construction, inspection, approval and maintenance requirements of Section 3.25 of the township zoning ordinance, with the exception that all streets shall have a paved driving surface of asphalt or concrete.

5.13 SPECIFICATIONS

A. Street Rights-of-Way Roadway Widths:

1. Street and road right-of-way and roadway widths shall conform to the following minimums:

Street Types	R.O.W. Widths	Pavement Widths
Major Arterial	130 feet	48 feet
Minor Arterial	100 feet	48 feet
Collector Street	80 feet	44 feet
Minor or Local Street	66 feet	28 feet*

(22 feet with sidewalk on at least one side of the road).

B. Road Base, Pavement, Curvature, Gradients, Alignment:

1. All roads and streets shall be constructed to the county requirements and specifications for plat development. No paved driving lane shall be less than 11 feet in width.

5.14 STREET NAMES

A. Names: Street names shall not duplicate any existing street name in the township, except where a new street is a continuation of an existing street in which case the extension must carry the name in existence. Street names that are spelled differently but sound the same shall be avoided. All new streets shall be named as follows: Streets with predominant north-south directions shall be named "Avenue" or "Road"; streets with predominant east-west direction shall be named "Street" or "Highway"; meandering streets shall be named "Drive", "Lane", "Path" or "Trail"; and cul-de-sacs shall be named "Circle", "Court", "Way", or "Place".

B. Name Approval: All street names shall be approved by the township.

C. Street Signs: The type and location of street signs shall be as specified by the County Road Commission or the township.

5.15 STREET LIGHTS: Street lights shall adequately illuminate the street surface with the design and location approved by the township.

5.16 CURBS AND GUTTERS: Curbs and gutters shall comply with the "County Requirements and Specifications for Plat Development."

5.17 DRIVEWAYS: All driveway openings in curbs shall be as specified by the County Road Commission or the Department of State Highways. Driveways shall be constructed with a hard surface material and have a minimum width of 10 feet.

5.18 SIDEWALKS: Sidewalks shall be a minimum of 5 feet wide. The sidewalk edge away from the street shall be 1 foot from the street right-of-way line.

Section 5.2: INTERSECTIONS

5.21 ANGLE OF INTERSECTION: Streets shall intersect at 90 degrees or closely thereto and in no case at less than 80 degrees.

5.22 SIGHT TRIANGLES: Minimum clear sight distance at all local street intersections shall permit vehicles

to be visible to the driver of another vehicle when each is 100 feet from the center of the intersection. Corner lots affected by the provision shall have this restriction included as a permanent deed restriction.

5.23 NUMBER OF STREETS: No more than 2 streets shall cross at any 1 intersection.

5.24 "T" INTERSECTIONS: "T" type intersections shall be used where all local streets intersect another street.

5.25 CENTERLINE OFFSETS: Slight jogs at intersections shall be avoided. Where such jogs are unavoidable, street centerlines shall be offset by a distance of 125 feet or more. All other streets must be offset a distance of 500 feet or more.

5.26 SPACING: Intersections on arterial streets shall be located not less than 400 feet apart.

Section 5.3: EASEMENTS

5.31 WIDTH REQUIREMENTS: The total width of all easements shall not be less than 6 feet along each lot, or a total of 12 feet for adjoining lots.

5.32 PEDESTRIAN MID-BLOCK WALKWAYS: Pedestrian mid-block walkways shall be at least 10 feet wide and extend entirely through the block. The walk shall be paved to a width of 5 feet to meet sidewalk specifications.

Section 5.4: BLOCKS

5.41 ARRANGEMENTS: A block shall be so designed as to provide 2 tiers of lots, except where lots back onto an arterial street, natural feature or subdivision boundary (see Figure 3).

5.42 MINIMUM LENGTH: Blocks shall not be less than 500 feet long.

5.43 MAXIMUM LENGTH: The maximum length allowed for residential blocks shall be 1320 feet long from center of street to center of street.

Note: Minimum and maximum lengths apply to block faces and not to block widths.

Section 5.5: LOTS

5.51 LOT LINES: Side lot lines shall be essentially at right angles to straight streets and radial to curved streets.

5.55 BACK-UP LOTS: Lots shall back into such features as freeways, arterial streets, shopping centers, or industrial properties, except where there is a marginal access street or unless a secondary access is provided. Such lots shall contain a landscaped easement along the rear at least 20 feet wide in addition to the utility easement to restrict access to the arterial street, to minimize noise and to protect outdoor living areas.

5.56 DOUBLE FRONTAGE LOTS: Lots extending through a block and having frontage on 2 local streets shall be prohibited.

Section 5.6: BUFFER STRIPS, RESERVE STRIPS, AND PUBLIC USES

5.61 BUFFER STRIPS: Buffer strips shall be a minimum of 20 feet wide and shall not be part of the normal roadway right-of-way or utility easement. Plantings shall be to a height of 4 feet and provide at least 50 percent reduction in visibility as approved by the Planning Commission.

5.62 RESERVE STRIPS - PRIVATE: Privately held reserve strips controlling access to streets shall be prohibited.

5.63 PUBLIC SPACE: Where a public space is located within a subdivision, it shall be graded to a generally level surface and grass covered.

Section 5.7: NATURAL FEATURES

5.71 UNINHABITABLE AREAS: Lands subject to intermittent flooding or otherwise deemed by the Planning Commission to be uninhabitable shall not be platted for residential purposes, or for uses that may in the judgement of the Planning Commission, increase the danger to health, life, or property or increase the flood hazard. Such land within a subdivision shall be set aside for other uses, such as parks or other open space.

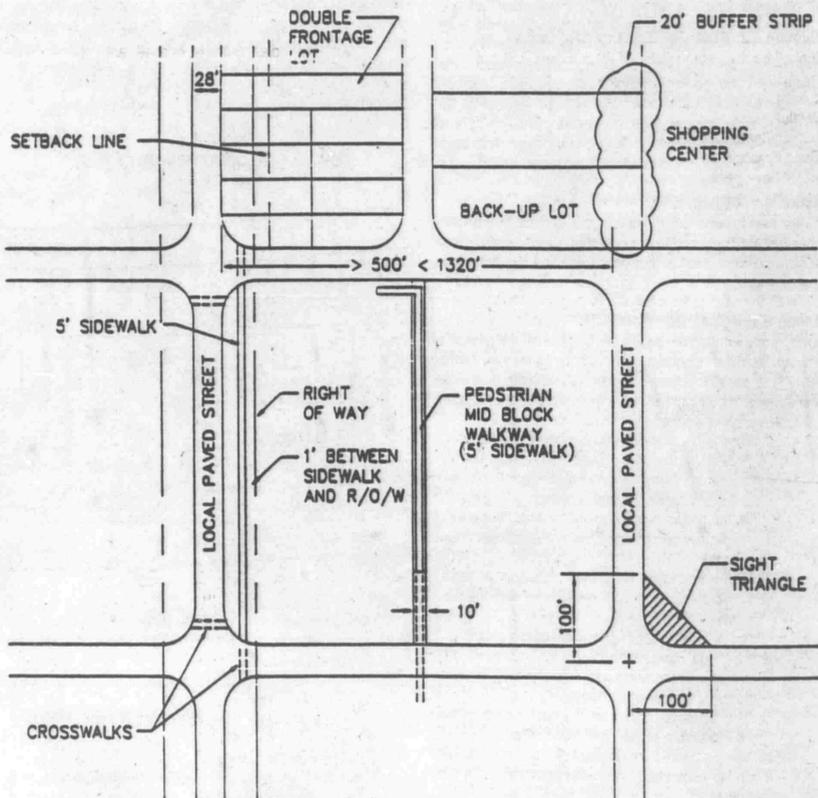

5.72 NATURAL FEATURES: Existing natural features which add value to residential development and enhance the attractiveness of the community (such as trees, watercourses, historic spots and similar irreplaceable assets) shall be preserved, insofar as possible, in the design of the subdivision.

5.73 TREES:

A. Shade Trees: Shade trees, if provided, shall not be closer than 50 feet from trunk to trunk, nor

**FIGURE 3
SELECTED DESIGN STANDARDS**

**SELECTED DESIGN STANDARDS
NO SCALE**

5.52 WIDTH RELATED TO LENGTH: Narrow deep lots shall be avoided. The depth of a lot generally shall not exceed 2-1/2 times the width as measured at the building line.

5.53 CORNER LOTS: Corner lots shall have extra width to permit appropriate building setback from both streets or orientation to both streets. Lots abutting a pedestrian mid-block crosswalk shall be treated as corner lots. Yard areas having street frontage shall both be considered front yards. Adequate clear vision areas must be maintained.

5.54 LOT FRONTAGE: All lots shall front upon a public or private approved street.

closer than 8 feet from the right-of-way. Not applicable to mature existing shade trees.

B. Street Trees: Street trees may be planted between the street curb and sidewalk. The variety, size and location shall be approved by the township.

C. Existing Trees: Unnecessary removal of mature trees shall be prohibited. Mature trees which are removed shall be replaced by a tree of similar type within a minimum of a 2 inch caliper or six foot height.

5.74 WETLANDS: A vegetative buffer strip shall be maintained within 20 feet of any surface water where plant material shall not be removed.

Section 5.8: SOIL REMOVAL AND STORMWATER DRAINAGE

5.81 TOPSOIL: No topsoil shall be removed from the site or used as fill. Topsoil moved during the course of construction shall be redistributed over the surface at final grade and stabilized by seeding or plantings.

5.82 STORMWATER DRAINAGE: The precise stormwater drainage standards for basin size, construction and necessity shall be determined by the township, the County Drain Commissioner and the County Road Commission. Generally, the area is to be grass-lined with specific input and discharge controls. Specifications for discharge are to be determined by the township to ensure that excessive stormwater is not discharged into off-site drainageways under normal conditions.

Section 5.9: MISCELLANEOUS

5.91 PLANNED UNIT DEVELOPMENT (PUD): In the case where a subdivision is large enough to be consistent with the township's land use plan, a planned unit development (PUD) district may be requested by the developer.

A. Rezoning: This request will involve rezoning the parcel to a PUD classification.

B. Characteristics: A mixed-use development under this provision shall contain or be bounded by major streets or natural physical barriers. It shall contain reserved areas of sufficient size to serve its population for playgrounds, parks, and other public facilities. Such reserves may be dedicated.

5.92 INDUSTRIAL OR COMMERCIAL DEVELOPMENT: These subdivision design standards apply to residential subdivisions only but may be modified to apply to a commercial or industrial subdivision. In all cases, adequate provision shall be made for off-street parking and loading areas, as well as for traffic circulation.

ARTICLE VI

SUBDIVISION IMPROVEMENTS

Section 6.1: PURPOSE

It is the purpose of this section to establish and define the public improvements which will be required to be constructed by the subdivider as conditions for final subdivision plan approval and also to outline the procedures and responsibilities of the subdivider and the various public officials and agencies concerned with the administration, planning, design, construction and financing of public facilities and to further establish procedures for assuring compliance with these requirements.

Section 6.2: RESPONSIBILITY FOR PLANS

It shall be the responsibility of the subdivider of every proposed subdivision to have prepared by a registered engineer, a complete set of construction plans, including profiles, cross-section, specifications and other supporting data, for the hereinafter required public streets, utilities and other facilities. Such construction plans shall be based on preliminary plans which have been approved, and shall be prepared in conjunction with the final subdivision plans. Construction plans are subject to approval by the responsible public agencies shown. All construction plans shall be prepared in accordance with their standards or specifications.

Section 6.3: PROCEDURE

When construction has been completed at the time of filing subdivision plan, 1 complete copy of as-built engineering plans of each required public improvement shall be filed with the township clerk coinciding with the filing of the final plat. Other requirements and procedures in the submittal of final subdivision plans shall be as provided in Section 3.3.

Section 6.4: REQUIRED PUBLIC IMPROVEMENTS

Every project shall install the following public and other improvements in accordance with the conditions and specifications as follows:

6.41 MONUMENTS: Monuments shall be set in accordance with Section 125 of the State Subdivision Control Act of 1967, Act No. 288, as amended.

6.42 STREETS AND ROADS: All streets shall be constructed in accordance with the "County Requirements and Specifications for Plat Development."

6.421 CURBS AND GUTTERS: Bituminous aggregate valley gutters shall be required on all streets within all applicable zoning districts and shall be constructed in accordance with the standards and specifications adopted by the County Road Commission, except for U-R zoning districts where 24 inch concrete valley gutters shall be required. Concrete valley gutters shall also be required at all major intersections.

6.422 STREET SIGNS: Street signs are required at all intersections within or abutting the subdivision.

6.423 STREET LIGHTING: Street lights shall be required to be installed at intersections throughout the subdivision. Projects within the U-R zoning district shall also install street lighting on all streets at a spacing adequate to illuminate the road surface. In these cases, a subdivider shall conform to the requirements of the public utility providing such lighting.

DRIVEWAYS: Each building site is to be serviced by a driveway.

6.44 BUFFER STRIPS: It is desirable for the protection of residential properties to have greenbelts or landscaped screen plantings located between a residential

development and adjacent major arterial streets and railroad rights-of-way. Buffer strips may be required to be placed next to incompatible features such as highways, railroads, commercial or industrial uses to screen the view from residential properties. Where a subdivider desires to protect his development in this respect, a proposed subdivision plan shall show the location of said greenbelts.

6.45 PUBLIC SPACES: A suitable area, centrally located within the subdivision, shall be reserved for public use. One thousand (1000) square feet of public space shall be provided for each proposed lot or building site.

6.46 EASEMENTS: Easements shall be provided along front, rear, or side yards for all anticipated utilities as required and where necessary according to county road standards and township approval.

6.461 SIDEWALKS: Sufficient right-of-way shall be provided so that sidewalks may be installed on both sides of the street.

6.462 PEDESTRIAN MID-BLOCK WALKWAY: Rights-of-way for pedestrian mid-block walkways in the middle of long blocks (more than 1000 feet), shall be required.

6.463 DRAINAGEWAY: The subdivider shall provide drainageway easements as required by the rules of the County Drain Commissioner.

6.47 SOIL EROSION: A soil erosion plan shall be prepared and presented to the Township Clerk for review and approval. The plan shall be prepared in accordance with the Soil and Sedimentation Control Act of 1972 as administered by the County Road Commission.

6.48 SIDEWALKS: Sidewalks are required and shall be provided on both sides of all streets within the U-R (Urban Residential Zoning District). The Planning Commission may agree to sidewalks along 1 side only, or no sidewalks if the project is not within the U-R zoning district.

6.49 RESERVE STRIP - PUBLIC: A 1-foot reserve may be required to be placed at the end or "stub" of "dead-end" streets which terminate at subdivision boundaries and between half-streets. These reserves shall be deeded in fee simple to the township for future street purposes.

Section 6.5: INSTALLATION OF PUBLIC UTILITIES

Public utilities shall be located in accordance with the rules of the county road commission. The underground work for utilities shall be stubbed to the property line. All utilities shall be installed below ground and placed within the right-of-way as provided by the county requirements and specifications for plat development.

6.51 STORM DRAINAGE: An adequate storm drainage system, including necessary storm sewers, drain inlets, manholes, culverts, bridges, and other appurtenances, shall be required in all subdivisions to control the discharge of stormwater runoff.

Construction of on-site retention basins may be required as determined by the specifications and procedures established by the county drain commissioner and the Township Board. All proposed storm drainage construction plans shall be approved by the Township Board.

6.52 WATER SUPPLY SYSTEM: When a proposed subdivision is to be serviced upon completion or within a reasonable time period as determined by the Planning Commission, by a public water supply system, fire hydrants and other required water system appurtenances shall be provided by the subdivider. Individual wells may be permitted in accordance with the requirements of the county health department.

6.53 SANITARY SEWER SYSTEM: When a proposed subdivision is to be serviced upon completion or within a reasonable time period as determined by the Planning Commission by a public sanitary sewage system, sanitary sewers and other required appurtenances thereto shall be provided by the subdivider. Sewer systems shall comply with the requirements of Act 98, P.A. 1913, as amended.

Where it is determined in the judgment of the Planning Commission, with the advice of their engineer and the county health department, that a subdivision cannot be economically connected with an existing public sewer system or that a public sewer system cannot be provided for the subdivision itself, then approved septic tanks and disposal fields may be approved which shall comply with the requirements of the county health department.

However, where studies by the Planning Commission or the township engineer indicate that construction or extension of sanitary trunk sewers to serve the property being subdivided appears probable within a reasonably short time (up to 3 years), sanitary sewer mains and house connections shall be installed and capped.

Section 6.6: GUARANTEE OF COMPLETION OF IMPROVEMENTS REQUIRED BY THE TOWNSHIP:

6.61 FINANCIAL GUARANTEE ARRANGEMENTS, EXCEPTIONS: In lieu of the actual installation of required public improvements, the Township Board on recommendation of the Planning Commission may permit the subdivider to provide a financial guarantee of performance in one or a combination of the following arrangements for those requirements which are over and beyond the requirements of the County Road

Commission, County Drain Commissioner or any other agency responsible for the administration, operation and maintenance of the applicable public improvement. The Planning Commission may recommend and the Township Board may waive financial guarantees of performance under this ordinance for sidewalks, street lights, or street trees. In case these improvements are specified, completion shall be required prior to the issuance of occupancy permits.

A. Performance of Surety Bond:

1. Accrual: The bond shall accrue to the township covering construction, operation and maintenance of the specific public improvement.

2. Amount: The bond shall be in an amount equal to the total estimated cost for completing construction of the specific public improvement, including contingencies, as estimated by the Township Board.

3. Term Length: The term length in which the bond is in force shall be for a period to be specified by the Township Board for the specific public improvement.

4. Bonding or Surety Company: The bond shall be with a surety company authorized to do business in the state of Michigan, acceptable to the Township Board.

B. Cash Deposit, Certified Check, Negotiable Bond or Irrevocable Bank Letter of Credit:

1. Treasurer, Escrow Agent or Trust Company: A cash deposit, certified check, negotiable bond or an irrevocable bank letter of credit, such surety acceptable to the Township Board, shall accrue to the township. These deposits shall be made with the Treasurer, or deposited with a responsible escrow agent, or trust company, subject to the approval of the Township Board.

2. Dollar Value: The dollar value of the cash deposit, certified check, negotiable bond or an irrevocable bank letter of credit, shall be equal to the total estimated cost of construction of the specific public improvement including contingencies, as estimated by the Township Board.

3. Escrow Time: The escrow time for the cash deposit, certified check, negotiable bond, or irrevocable bank letter of credit, shall be for a period to be specified by the Township Board.

4. Progressive Payment: In the case of cash deposits or certified checks, an agreement between the township and the subdivider may provide for progressive payment out of the cash deposit or reduction of the certified check, negotiable bond or irrevocable bank letter of credit, to the extent of the cost of the completed portion of the public improvement in accordance with a previously entered into agreement.

**ARTICLE VII
VARIANCES**

Section 7.1: GENERAL

The Planning Commission may recommend to the Township Board a variance from the provision of this ordinance on a finding that undue hardship may result from strict compliance with specific provisions or requirements of the ordinance or that application of such provision or requirement is impracticable. The Planning Commission shall only recommend variances that it deems necessary to or desirable for the public interest. In making its findings, as required herein below, the Planning Commission shall take into account the nature of the proposed use of land and the existing use of land in the vicinity, the number of persons to reside or work in the proposed subdivision, and the probable affect of the proposed subdivision upon traffic conditions in the vicinity. No variance shall be recommended unless the Planning Commission finds all of the following after a public hearing.

A. That there are such special circumstances or conditions affecting said property that the strict application of the provision of this ordinance would clearly be impracticable or unreasonable. In such cases, the subdivider shall first state his reasons in writing as to the specific provision of requirement involved and submit them to the Planning Commission.

B. That the granting of the specified variance will not be detrimental to the public welfare or injurious to other property in the area in which said property is situated.

C. That such variance will not violate the provisions of the State Subdivision Control Act, or the State Condominium Act.

D. That such variance will not have the effect of nullifying the interest and purpose of this ordinance. The Planning Commission shall include its findings and the specific reasons therefore in its report of recommendations to the Township Board and shall also record its reasons and actions in its minutes.

Section 7.2: TOPOGRAPHICAL-PHYSICAL LIMITATION VARIANCE

Where in the case of a particular proposed subdivision, it can be shown that strict compliance with the requirements of this ordinance would result in extraordinary hardship to the subdivider because of unusual topography, other physical conditions or other such conditions which are not self-inflicted, or that these conditions would result in inhibiting the achievement of the objectives of this ordinance, the Planning Commission may recommend to the Township Board that variance modification or a waiver of these requirements be granted.

Section 7.3: PLANNED UNIT DEVELOPMENT VARIANCE

The developer may request a variance from specified portions of this ordinance in the case of a planned unit development. If in the judgment of the Planning Commission such a plan provides adequate public spaces and includes provisions for efficient circulation, light and air and other needs, it shall make findings, as required herein below. The Planning Commission shall take into account the nature of the proposed use of land and existing use of land in the vicinity, the number of persons to reside or work in the proposed subdivision, and the probable effect of the proposed subdivision upon traffic conditions in the vicinity. The Planning Commission shall report to the Township Board whether:

- A. The proposed project will constitute a desirable and stable community development.
- B. The proposed project will be in harmony with adjacent areas.

ARTICLE VIII ENFORCEMENT AND PENALTIES FOR FAILURE TO COMPLY WITH THIS ORDINANCE

Section 8.1: ENFORCEMENT

No subdivision plat required by this ordinance or the Subdivision Control Act shall be admitted to the public land records of the County or received or recorded by the county Register of Deeds, until such subdivision plat has received final approval by the Township Board. No public board, agency, commission, official or other authority shall proceed with the construction of or authorize the construction of any of the public improvements required by this ordinance unless such public improvement shall have already been accepted, opened or otherwise received the legal status of a public improvement prior to the adoption of this ordinance unless such public improvement shall correspond in its location and to the other requirements of this ordinance.

Section 8.2: PENALTIES

Penalties for failure to comply with the provisions of this ordinance shall be as follows: Violation of any of the provisions of this ordinance or failure to comply with any of its requirements shall constitute a misdemeanor. Any person who violates this ordinance or fails to comply with any of its requirements shall, upon conviction thereof, be fined not more than \$100 or imprisoned for not more than 30 days, or both. Each day such violation continues shall be considered a separate offense. The landowner, tenant, subdivider, builder or public official of any other person who commits, participates in, assists in, or maintains such violation may each be found guilty of a separate offense and suffer the penalties herein provided. Nothing herein contained shall prevent the Township Board or any other public official or private citizen from taking such lawful action as is necessary to restrain or prevent any violation of this ordinance, the Township Zoning Ordinance, the Subdivision Control Act, or the Condominium Act.

ARTICLE IX AMENDMENTS

Section 9.1: PROCEDURES

The Township Board may from time to time, amend, supplement, or repeal the regulations and provisions of this ordinance. A proposed amendment supplement, or repeal may be originated by the Township Board, Planning Commission, or by petition. All proposals not originating with the Planning Commission shall be referred to it for a report thereon before any action is taken on the proposal by the Township Board.

ARTICLE X MISCELLANEOUS PROVISIONS

Section 10.1: VALIDITY

Should any section, clause or provision of this ordinance be declared by the courts to be invalid, the same shall not affect the validity of the ordinance as a whole or any part thereof, other than the part so declared to be invalid.

Section 10.2: EFFECTIVE DATE

This ordinance shall take effect after recommendation of the Planning Commission, adoption by the Township Board, publication within 30 days after adoption, entry in the ordinance book and certification by the clerk as to the date of adoption, vote and publication. This ordinance shall become effective 30 days after publication.

Recommended by Planning Commission: September 14, 1989
 Adoption by Township Board: December 18, 1989
 Publication Date: January 15, 1990
 Effective Date: February 15, 1990

Sandra Kowalczyk
 Township Clerk

Red Arrows wrap up Wildcats

Lowell improves league mark to 5-0; Jon Pratt, Dave Stouffer & Jeff Hoffman key 35-23 O-K White victory

Lowell's Red Arrow wrestlers rolled out the brand new red wrestling mat for its O-K White conference showdown with Northview Thursday night. Then with the smoothness of "The Amazing Kreskin," yanked it out from underneath the visitors as it moved another step closer to its fifth straight league championship.

Lowell's 35-23 victory over 'Cats lifted the Arrows to 5-0 in the O-K White and in reality one match away from a coveted fifth crown. That will come Feb. 1 against Sparta. Between now and then Lowell will host its own invitational and will travel to Zeeland.

The Red Arrows are heavily favored to fend off Zeeland and they have stored away seven straight Lowell Invitational trophies.

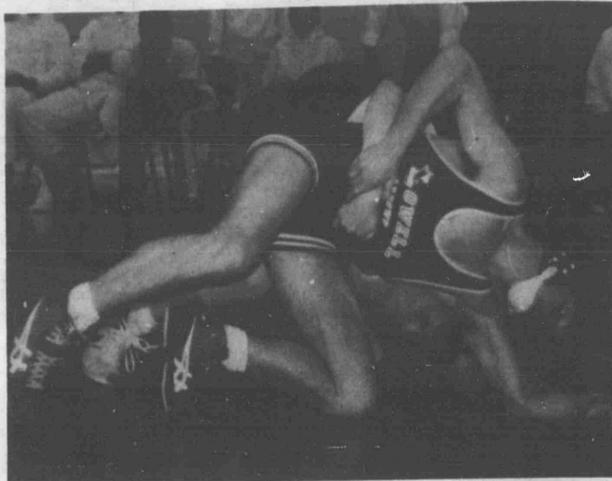

"You'd be pretty hard pressed to go through four years of wrestling at Lowell and not come away a competitive wrestler," said Northview Coach Bob Dailey. "I think the same thing could be said for our program."

The always respectable wrestling programs have managed to build quite a rivalry over the years. The coaches, for that matter, have done the same. Rivers, who has been coaching 30 years, embodies Lowell wrestling. Dailey has been coaching wrestling 22 years, and has been at Northview 13 years.

The Wildcats got the early jump in Thursday's match as they won the first three matches and gained a tie at 126. Dave Carpenter pinned Dave Rottier at 103 in 46 seconds of the first period. Dave Collins then decided Scott Nagy 6-2 in the 112 weight division. The Wildcats' Chris Doucette bettered Brad Whalen 6-4.

"I really thought we'd win a couple of those matches," Rivers explained. "But I knew Northview was strong below and weak above."

Nauta, wrestling at 125, finished with a 6-6 tie. The match had a little controversy

Nate Nauta maneuvers against his Wildcat opponent in an important O-K White confrontation. Lowell won the match 35-23.

in the third period as Nauta lost a point when he lifted his man off the mat and was called for an illegal slam when he brought him back down. "It's a judgment call," Rivers said.

Northview's Dailey added, "When a wrestler takes his opponent off the mat its his responsibility to return him safely to the mat."

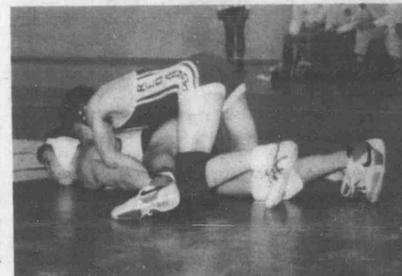

Trailing by 12, 14-2, Lowell got back into the match with three successive superb performances by Jon Pratt, Dave Stouffer and Jeff Hoffman. Pratt at 130 was dominant in his 11-2 victory over Dan Vaughn. Dave Stouffer followed with a second period pin at 4:23 of Kelly Robbins, bringing Lowell to within two at 14-12. Hoffman controlled his Wildcat counterpart, Jeremiah Kossen for all three periods as he claimed an 18-2 major decision, bumping the Arrows ahead, 17-14.

However, Northview's Tom Edson responded with a second period pin of Matt Monda (145) at 3:08, reinstating the 'Cats to a 20-17 advantage.

It was Lowell's depth and balance that then took control

of the match. "Lowell's a very balanced team," Dailey said "With us, you can tell where we have experience and where our inexperienced wrestlers are at. I am however, extremely satisfied with the way we've wrestled this year. It's more than I expected."

After Monda was pinned, Lowell's heavier weight classes strung together three straight pins to ensure a fifth league victory. Rich Depew wrestling at 152, notched a third-period pin at 4:52 over Tom Stinson. Joe Depew controlled and then pinned Don Pierce at 3:27 of the second

This Lowell wrestler is definitely in control. Lowell improved its record in the conference to 5-0 with matches against Sparta and Zeeland remaining.

For stubborn refrigerator odors, place a coffee can filled with charcoal on a refrigerator shelf for several days. Repeat with fresh charcoal until odor is gone.

LOWELL TOWNSHIP NOTICE

PLEASE TAKE NOTICE that Donald R. Garvin is requesting to have a portion of his property at 1989 Cumberland, SE in Sections 5 and 8 of Lowell Township that is zoned R-1 Residential and Ag-2 Agricultural rezoned to Commercial to allow retail sales for a garden center. This rezoning request will be the subject of a public hearing before the Township Planning Commission to be held on:

WEDNESDAY, JANUARY 31, 1990 at 8:00 P.M.

at the Lowell Township Hall. For further information, please call the Hall at 897-7600 during regular office hours.

Carol L. Wells
 Lowell Township Clerk

C9&11

VERGENNES TOWNSHIP NOTICE

Vergennes Township is receiving bids for cemetery lawn maintenance for the 1990 season. Please send for specifications for bid proposal before February 1, 1990 to Vergennes Township Cemetery Commission, 10381 Bailey Drive, Lowell, Michigan 49331 or call 897-5671 on Wednesdays.

Jean Hoffman
 Township Clerk

C10&15

Lowell basketball team suffers setbacks to FHC & Zeeland

The news on the court Tuesday night against Forest Hills Central was not what Lowell's second-year coach Mark Thomas was hoping for, as the Red Arrows fell to 1-7 overall with a 72-56 loss to the Rangers.

However, off the court Thomas learned that two of his starters, junior Steve Malone and senior and team leading scorer, Ryan Holtz could be back on the court in as little as two weeks.

Lowell missed Malone's active role underneath the hoop and Holtz's aggressive penetration to the hole against O-K White rival Forest Hills Central.

"We stayed within striking distance of the Rangers up

until the fourth quarter," said a subdued Thomas. "We're in a tough situation playing without two starters, but our guys never quit hustling."

The Arrows' hustle did not do much to close the height differential. As the bigger Central ballclub beat Lowell up on the boards.

"We're the bigger team. We should rebound Lowell and eliminate its second shots. Lowell only has one big guy," Forest Hills Coach Mark Stevens said. "I'm pleased with the win. This is a tough place to play especially on a Tuesday night."

Lowell trailed by six points at halftime, 30-24. Bob Adams scored eight of his game-high 14 points in the

opening half. The third quarter belonged to Central as the Rangers increased their six point advantage to 13, behind the inside play of James Wittig, Jon Slagh and Robert Winchester.

The Arrows got as close as eight a couple of times but were never able to break through.

"We did a better job of getting the ball inside," Thomas said. "But we missed the penetration and aggressiveness to the hole that Holtz gives us."

He added that when you don't get the ball off the defensive boards it makes it difficult to run.

While only five Lowell players scored, Thomas made a concerted effort to provide some players with more playing time. "Down the road I think the experience will help us," he said.

The Arrows were led in scoring by John Borg with a team-high 19 points. Jim Bowen, in his best offensive effort of the season, scored nine points and Jerud Mierkals added eight.

Winchester led Central with 11. Slagh and Wittig each added nine points apiece.

The win kept the Rangers within a game of conference front-running Rogers in the O-K White.

Lowell's record dropped to 0-5 in league play.

Lowell's junior varsity basketball team improved its record to 2-6 with a nail-biting 57-56 victory over Forest Hills Central.

Brett Knoop led the Lowell charge with 11 points. Jason Dykehouse added nine, Jon Hutfilz netted eight and Chad Lyon contributed with seven points.

Red Arrow Jon Amundson led all Lowell rebounders with 10 carsoms.

"It was a team effort which the individual scoring figures

indicate," Lowell Coach Phil Beachler said. "If we're going to win we must have a team effort." The Arrow Coach added he was extremely pleased with the way his team played.

Lowell trailed by seven at halftime (36-29) after jumping to a seven-point first quarter lead at 21-14.

The Red Arrows then outscored the Rangers 20-9 in the third quarter, grabbing a four point lead (49-45).

Lowell's freshman team fell to Forest Hills Central 57-44. Dave Jones led the way with 12 points and 13 rebounds. Chad Dunn added seven.

ZEELAND 75,
 LOWELL 59

The homestanding Chix of Zeeland scored early and often against the visiting Red Arrows as they remained a game behind Rogers in the O-K White with a convincing 16-point victory.

Zeeland opened the game with a 17-2 run and was never headed as it coasted to its fifth conference victory to go against just one defeat.

The loss was Lowell's sixth in the conference. The Red Arrows have yet to win an O-K White contest.

After falling behind 21-7 at the end of the first quarter,

Lowell's Tom Moore releases a baseline jumper in second half play against FHC.

the Arrows played right with the Chix, being outscored by just two points the rest of the way, 54-52.

Lowell had four players in double figures. Jerud Mierkals led the way with 15 points, Bob Adams added 13 and Dave Organek and John

Borg both contributed with 10 points apiece.

Zeeland got a game-high 27 points from Jay Riemersma and Zeb Jones added 10.

Lowell's junior varsity squad was defeated by the Chix, 72-50.

As Always WE DELIVER!

Red Arrow gymnasts swing past Knights; take 3rd at invitational

It didn't take long for Lowell Gymnastic Coach, Tammie Fitzpatrick to test the depth of the 1990 gymnastic team.

In Lowell's second event

Laura Kropf performs on the uneven bars in the season-opening meet against Kenowa Hills. Kropf injured herself on the dismount but is expected back into action this weekend (Jan. 20).

of the season opener against Kenowa Hills, Fitzpatrick gulped as she watched her ace performer, Laura Kropf come down with a hyper extended knee on her dismount from the uneven bars. "We believe it is a hyper extended knee. Kropf will not see any action at the East Lansing Invitational. We want her to get well. We're not going to take any chances," Fitzpatrick said. "It was a new dismount for Kropf. A much more difficult one. She executed it perfectly in warmups."

Despite the break in her dismount, Kropf's routine was still the envy of all. The Arrow won the event with a mark of 8.3. Teammate Carrie Lipkea was second at 8.05 and Tammie Jeske finished fourth at 6.75.

In Lowell's opening event, the vault, Kropf's 8.65 earned her a second behind Kenowa Hills' Tracy Hoebeke's 8.75. The Knight, winning three of four events,

took top individual honors. Lowell's Jeske was third with a mark of 7.6. Kim Pullen and Angie Fox were fifth and sixth respectively with scores of 6.45 and 6.35.

"I was pleased with Jeske. It was her first meet since she was 12 years old," Fitzpatrick said. "Scoring 110 points in our first meet of the year is great."

In the East Lansing Invitational Lowell finished third out of seven schools.

East Lansing was first with 127 points followed by Mason with 113 and then the Red Arrows with 109. While Jackson NW, Jackson Lumen Christi, Ionia and Napoleon all competed, team totals were not available.

The top spot in the floor exercise went to Hoebeke at 7.8. The top six performances earn points. Lowell placed four gymnasts in the top six - Hovey, Lipkea and Pullen tied for second at 7.25, while Katie Hawk was sixth with a 5.1.

"I thought Pullen and Hovey came through for us tonight," Fitzpatrick said. "Scoring 110 points in our first meet of the year is great."

Lowell spikers start the season at 5-4

Schizophrenic. After its 5-4 start, that's how Lowell Volleyball Coach Laurie Kuna described her 1989-90 spikers.

Lowell opened the year with wins against Sparta, 15-9, 5-15, 15-6 (did not count toward conference play), Grand Haven, 15-8, 18-16 and Kenowa Hills, 6-15, 15-5, 15-9. Shuffled in-between those three victories were two losses to Forest Hills Northem.

This past week Lowell posted victories against Hastings 15-11, 15-11 and Cedar Springs 15-3, 15-4. The Ar-

rows also fell victim to the highly touted club from Saranac 2-15, 3-15 and to Northview in its league opener, 1-15, 11-15.

"We did not play well at all against Northview," Kuna said. "That was disappointing because it was a conference match. However I thought we played a good match against Hastings."

In the Wildcat match, the Arrows were led in aces by Sherry Hildenbrand with two. Jennifer Murphy had a team-high eight assists and Kris Stouffer led in kills with four.

Until 1752, the British and their American colonies celebrated New Years on March 24th. That is, March 24, 1750 was followed by March 25, 1751.

FAMILY FARE

Athlete of the Week

Tammy Jeske

After plenty of yelling and coaxing, Tammy Jeske was persuaded to get back into the swing of gymnastics.

Jeske first became involved in gymnastics at the age of two. "My mother signed me up because I was climbing all over things at home," Jeske remembers. Practicing under the guidance of Randy Owens, from Grand Rapids Jeske also started competing at the compulsory three level.

"The gymnastic basics have come back kind of naturally, but the flexibility, strength and muscle that was once there is not there anymore," Jeske says. That will take some time to regain."

In her first meet since competing as a child, Jeske took a third on the vault, a fourth on the bars and a second in balance beam exercise.

"I did better than I anticipated," Jeske said. "I think with it being a team effort that helped my nerves a lot. When I competed on an individual level, I couldn't sleep the night before."

Jeske's gymnastic career was interrupted when her family moved to Pinconning. "We then moved to the Lowell area three years ago," Jeske said.

The junior has set performing a full twisting back sommy, an aerial on the balance beam (no-hand cartwheel) on the balance beam) and a handstand on the uneven bars as personal goals for the 1990 season.

To help herself accomplish those goals she plans on practicing with Owens throughout the year.

Jeske also participates on the Lowell Equestrian Club. After high school she plans on studying to become a veterinarian.

IN MEMORIAM

In memory of Eugene Morris, January 2, 1984

Life is good, Dad. Many things have happened. You have a great-grandson, Nicholas, now. And another great-grandchild on the way. All of your grandsons and your granddaughter are doing real well. We three daughters and our mother, your wife, are fine. We miss you, but we know you are in God's hands. We all love you.

BEANS
Members of the bean family manufacture their own nitrogen that enriches the soil around them. Planting beans in sandy tracts will enable other plants to thrive there as well.

BEANS
The wild cherry tree, brother to the fruit-bearing orchard cherries, are native to America. Their fruit is rarely tempting but their wood is prized for making furniture of high sheen and polish.

CARD OF THANKS

THE RESIDENTS AND STAFF - of Lowell Medical Care Center wish to thank all of those who volunteered their time and services during the evacuation of our residents on Monday, Jan. 8, 1990. The attention and care given to our residents enabled us to accomplish the evacuation and return to the facility without any ill effects to our residents. Thanks, we appreciate all of you!

TO THE SALVATION ARMY

Canteen No. 48 and 305 on such a great job and performance that was done on Monday evening, Jan. 8, 1990, and on early Tuesday morning, Jan. 9, 1990. But a special thanks to the people: Orlo Hafer, Gerald Stoddard, Noreen Stoddard, Paul Ramis, Randy Quands, that acted so quickly by getting food prepared and cots and blankets set out. Sincerely thank you so much!

Thank You...

On January 8 a broken gas main created an emergency in Lowell. The city's fire fighters, police officers, Light & Power employees and local agencies rallied to lead the community through the crisis.

We want to thank you, our customers, for your patience and cooperation during this trying time. Our crews were able to repair the gas line without injury or interruption of service.

Your patience is appreciated by all of us, your neighbors — the employees of Consumers Power Company in Grand Rapids, Greenville and Hastings.

LMS Drama Class production, "Airline" takes off Thursday

Pictured is the cast of "Airline." From left to right: Becky Cole, Brandy Wingeier, Sara Kropf, Kathy Krul, Deb Wieland, David Groen, Becky Finkler, Bruce Phillips, Jaime Tummino, Amy Stauffer, Magali Ramirez and Faith Rodenberg.

Members of the cast presenting "Airline" at the Middle School on January 18 are from left to right, front row: Dude Kanoza, Tammy Henderson, Laura Witherell, Brant Erbenraut, Cutter Phillips, James Miller and Tanya VanSvoy; back row, left to right: Lisa Allchin, Justin Anes, Sallee Goulooze, Mandy Bray, Sarah Matczyn, Ashley Olin, Rich Stouffer, Carl Moore and Dawn Henry.

Week of Jan. 22, 1990

MONDAY:

There is also a 3rd choice everyday of a chef salad for students in the middle and high schools.

There is also a 3rd choice everyday of a chef salad for students in the middle and high schools.

On Thursday, Jan. 18, at 7:30 p.m. the Lowell Middle School Eighth Grade Drama Class will present the comedy, "Airline."

The play is about those highly regarded individuals responsible for transporting travelers by flight. It is also about some remarkably odd and trusting travelers who put themselves in the hands of these "experts."

Unfortunately, the "Go Bananas Airline" employees' only expertise is in raising the art of incompetence to a new high, and the results are hilarious.

The public is invited to the Thursday evening performance, which will be held in the Middle School cafetorium. Admission is free.

The Ombu Tree of Argentina is one of the hardest trees. The tree's wood is so moist that it will rarely burn and so spongy that it usually cannot be cut down.
