Computers, Computers and more Computers; School District tries to balance computer quantity with its use and curriculum application

By Thad Kraus Lowell Ledger Editor

Computer technology recommendations for the curriculums at the elementary, middle school and high school levels were based on what was heard in visits to businesses and industries, and what teachers felt they needed to assist them in implementing the curriculum more effectively.

The computer technology curriculum guide for K-12 was adopted by the Lowell Board of Education back in May of 1993.

The guide was put together by the computer

committee of the technology committee. In May of 1992, the board of education approved the technology plan. Preparation meetings in 1991 were used to formulate the plan, according to Jim White, director of curriculum and instruction.

The bond money budgeted for technology was \$1.3 million. The individual building budgets break down like this: Alto - \$90,000; clementary -\$320,000; middle school -\$360,000; and high school -\$566,500.

Opponents to the technology plan put forth by Childs Consulting Associates and curriculum committee, a sub- the technology committee

believe too much is being spent to install a portion of the voice/video system and does not go far enough in providing computers and resources to students in much greater numbers.

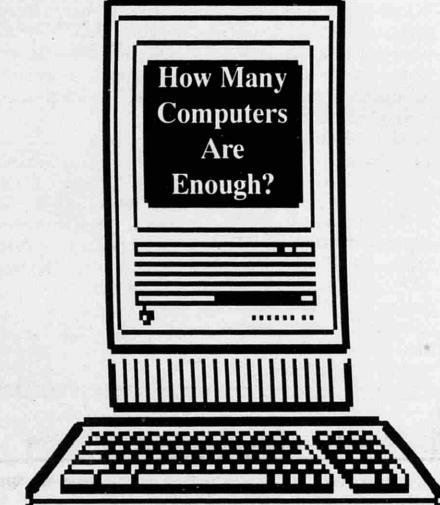

White noted that the school expects to have \$473,000 available for PC work stations. as compared to the \$486,000 figure brought forward by Dave McClain and the Citizens for Quality Education.

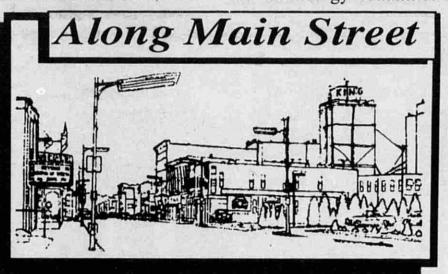

"This does not include money which may become available through contingency fund balances once the new high school project is

established; new middle school \$217,194; new elementary school, \$193,386; and the new high school, \$676,806. Any decisions on realocating the contingency funds would have to go through the school board.

The Lowell High Schoolteachers' original request was for over 400 computers. White said if the school is able to meet that number, its ratio would be roughly one computer for every two students.

White adds however that while the ratio of computers to students are of some importance, he believes how they are used, what their curriculum application is, and if the school has instructors in place to teach the skills are as important.

STUDENT AMBASSADORS FUND-RAISER

Come to a Tupperware party and help five Lowell Peopleto-People student ambassadors go to New Zeeland and Australia this summer. The party will be held Jan. 22 at First Congregational Church on N. Hudson in Lowell from 10 a.m. to 2 p.m.

The event will be hosted by Jennifer Boyd, Stephanie Brown, Rick VanderWarf, Dena Beers and Becky Cattanach. If you have any questions or would like to place an order, please call Jennifer or Carlinda Boyd at 897-9176.

ARTS COUNCIL EXHIBIT

The recent landscape paintings of local artist Conrad Bakker will be on exhibit in the gallery of the Lowell Area Arts Council, 149 S. Hudson St. This exhibit will be on view January 9 through Feb. 12. A reception for the artist will be held on Sunday, Jan. 16.

Gallery hours are Tues. through Fri., 1 to 5 p.m. and Sat. and Sun., 1:30 to 4:30 p.m. The Gallery is closed Mondays and holidays.

LOWELL LIGHT & POWER TO TRIM TREES

Lowell Light & Power has a tree trimming contractor on the property to trim and remove trees as necessary to provide proper clearance from primary and secondary circuits.

This contractor will be working throughout the service territory. Property owners will be contacted to obtain their permission to trim and/or remove trees which cause a hazard with electrical service. The trimming work is currently being done and will continue through the third week of January.

COMMODITIES DISTRIBUTION

Commodities will be distributed Thursday, Jan. 27 between 8 a.m. and 3 p.m. at the Lowell Moose Recreational Building, 210 E. Main.

Check the "expiration date" on your commodities pick-up card. If it has expired and you want to renew it, you must bring the following: current proof of total household income; current completed," White said.

Contingency funds for each project are set at seven percent of the project amount and are spent on a priority basis at each site for items not covered under another budget.

The current contingency fund remaining as of Dec. 31, 1993 for each building is: Bushnell, \$0; Alto, \$0; Runciman/Riverside, not yet

"To have 400 computers in place but not have the instructors who can apply our curriculum to their use, doesn't do our students any good," White said.

Currently, Lowell does not have an elementary or middle

school computer teacher. White said he hopes so. "It "They must be in place if we may be at the expense of anare to properly implement other position," he added. basic computer literacy into

cessions in hooking up to the line.

> The agreement follows months of delays in finalizing the placement of the line. The new sewer line will serve the new high school and any residents who wish to hook up.

along Foreman Rd. and Alden

Cooper agreed to grant

those schools," he said.

Will the funding be there?

Township officials wanted to run the line across Cooper's property because it offers a natural flow, which eliminates the need for a pump station.

Part of the delay in placing the line came when Cooper requested a rezoning

change from Vergennes Township. Cooper wanted to rezone his property from R1 to R2. The rezoning would have, in his estimation, made a proposed housing development affordable.

Both the planning commission and Vergennes Township Board denied his request saying it did not fall with the guidelines of the township master plan.

At one point, township supervisor John Timpson received authorization from the board to condemn the property if necessary to insure that the line would be in place by the time the school opens. However, a verbal agreement

As winter came upon us in December, I continually heard people carping about it. My standard reply would always be a short dissertation about how I wouldn't mind winter nearly so much if it would just act like winter. I would go on to explain that I missed winter as I remembered it from my youth. That is, lots of snow and temperatures low enough to keep it from melting. The kind of winters in which one could enjoy the numerous winter sports such as skiing, sledding, skating, ice fishing, snowmobiling, etc. I said I was sick of these moderate winters we've had of late, with nothing but wet snow, mud, slop and a bazillion cold and flu bugs going around.

After about two weeks of temperatures cold enough to make an Eskimo hunker down and snow to wear out a couple of shovels, I'm ready to cry, "Uncle!" Now you know. The truth is not always in me. Give me my moderate winter back! I'll drive through slop. I'll walk through mud. I'll fight off the flu. Just give me some feeling back in my fingers and toes.

This all started a week ago Saturday, and I haven't been warm since. A bunch of us went to the Detroit Lions playoff game with Green Bay. The game was at the Pontiac Silverdome which is always kept at a comfortable seventy-some degrees.

50 YEARS AGO IN THE LEDGER - JAN. 20, 1944 Lowell band members canvass house-to-house selling war bonds; buyers receive free tickets to the band concert. If that doesn't make the quota, business people who canvassed in the last drive will do so again. A boxcar-full, almost 14 tons, of paper was collected

in the drive by the FFA boys last week. Next Monday will be the Village Caucus for nominat

ing village officials for the coming year. The National Foundation for Infantile Paralysis warns that communities must prepare for next summers' cases in terms of adequate hospital beds, equipment and care Many medical personnel as well as laywomen are being trained in the Kenny treatment by Sister Kenny herself

25 YEARS AGO IN THE LEDGER - JAN. 16, 1969

I'm tellin' you folks, I haven't been that cold lately. Maybe seem so bad. Because of its giant size, the Silverdome didn't look that far away. In reality, I think we hiked across at least two counties and part of Ontario to get to the door.

Our trek took us through a parking lot roughly the size of Arkansas. We then went over an expressway on a completely exposed pedestrian overpass where everyone was fighting for position on the downwind side. We then had to march uphill and directly into the wind across another parking lot as big as

The only good thing about the ordeal was I looked like a true Lions fan through at least the first half of the game. With my silver hair and my face Honolulu Blue from the cold, I looked just like the guys who paint themselves in hopes the network TV cameramen will pan on them during their game coverage

The Lions lost in a squeaker, but it was a great game Toward the end, it looked like it would go into overtime. I was praying for it, in hopes I'd thaw just a little more before having

I spotted a paper sack on top of a trash barrel. I dumped out the contents-some pistachio shells and a half-eaten sandwich. I then ripped out a hole for my eyes and slipped the bag over my head. It didn't hold in much heat, but it kept my ears from feeling like a NASA wind tunnel. As what was left of my body heat warmed the inside of the bag, I began to get a whiff of pastrami on rye over the smell of diesel fumes from the idling our buses. Bonus!

As we trudged along with the masses, most dressed as stupidily as we were, I heard several comments about my makeshift hat. Some were wisecracks about being an unknown Lions fan. Some Green Bay fan said something like, "Yeah, I'd cover my head too, if I were a Lions fan." However, most of the comments I heard were inquiries as to where I found the bag. Several people offered to buy it. I wouldn't have taken anything short of plane fare to Hawaii for it.

Since that night, we've experienced Alberta Clippers, Arctic Blasts and various other trashings from the tundra. The furnace at our house can't heat the old barn in this kind of weather. The temperature in my bedroom and bath has been hovering in the low fifties every morning. I've been throwing an extra quilt on the waterbed and letting the dog climb up next to me. So far I've been getting along with one dog. If this gets any worse, I may have to go to the Humane Society for a couple

Of course the car never gets warm until I get where I'm going. I could dress for this weather, but I can't move in all those clothes, let alone try to work. Like I said, I haven't been warm since that trip to the Silverdome. So, unless we luck out and get a January thaw, don't be surprised if you see me sporting around town with a fur-lined paper sack over my head. I've been working on one when I can get my fingers to move.

will be overflowing.

As for Harding, let's agree she had nothing to do with the attack and that her guilt is just in association. Maybe it's in her best interest to give a public show of remorse for what happened and then step aside, letting Lillehammer be

Schools were closed three days last week with the heavy snow and more is forecast.

A Traffic Bureau at City Hall has been established for the convenience of motorists who do not wish to contest a traffic violation. This replaces the Justice-of-the-Peace system as of Jan. 1.

There's a dearth of candidates for the three open seats on city council.

1950 LHS graduate Dr. Robert Hall is on a New York research team studying gallstones.

OFFICIAL PROCEEDINGS OF **CITY COUNCIL** OF THE **CITY OF LOWELL**

For the Regular Meeting of MONDAY, JANUARY 3, 1994

The Meeting was called to order at 7:30 p.m. by City Manager/Clerk David Pasquale.

Deputy City Clerk Betty Morlock swore in newly elected Councilmember C. Jeanne Shores and re-elected Councilmembers James D. Maatman and James W. Hodges and the Roll was called.

Present: Councilmembers Green, Hodges, Thompson, Shores and Maatman. Absent: None.

IT WAS MOVED BY GREEN and seconded by THOMP-SON that the minutes of the December 20, 1993 meeting be approved as written.

YEA: 5. NAY: 0. ABSENT: 0.

MOTION CARRIED.

IT WAS MOVED BY HODGES and seconded by MAATMAN that the bills and accounts payable be allowed and the warrants issued

YEA: Councilmembers Green, Hodges, Thompson, Shores and Maatman.

NAY: 0. ABSENT: 0. MOTION CARRIED

BILLS AND ACCOUNTS PAYABLE (1/3/94)

GENERAL FUND	\$ 79,884.71
MAJOR STREET FUND	19.71
SEWER FUND	2,790.67
WATER FUND	105,460.92
AIRPORT FUND	2,216.73
DATA PROCESSING FUND	19.90
EQUIPMENT FUND	447.23
CURRENT TAX FUND	133,388.16

Item #1. ELECTION OF MAYOR AND MAY PRO TEM As required by the City Charter, the election of the mayor and the mayor pro tem was held by Council for two year terms. City Manager/Clerk Pasquale opened the floor for nominations for the office Mayor.

IT WAS MOVED BY THOMPSON and seconded by HODGES to nominate Councilmember James Maatman for Mayor. Nominations were closed

YEA: 5.

NAY: 0. ABSENT: 0.

MOTION CARRIED

City Manager/Clerk Pasquale turned the meeting over to Mayor Maatman, who opened the floor for nominations for Mayor Pro Tem.

IT WAS MOVED BY GREEN and seconded by SHORES to nominate Councilmember William Thompson for the office of Mayor Pro Tem. Nominations were closed.

YEA: 5. NAY: 0. ABSENT: 0. MOTION CARRIED.

Item #2. ANNUAL AUTHORIZATION OF SIGNATURES FOR CITY BANK ACCOUNTS AND DESIGNATION OF DEPOSITORY BANKS. As provided annually, the period City must designate its depository banks and authorize signatures for the coming year

The following designations are recommended: Authorized signatures:

a. Mayor City Manager David Pasquale City Treasurer Judy Noonon Mayor Pro Tem Police Chief Barry Emmons

Safety Deposit Box:

Charlene McNab Betty Morlock

Depository Banks:

c. Comerica Bank-Grand Rapids FMB	(Grand Rapids) (Lowell)
First of America Bank	(Grand Rapids)
Old Kent Bank	(Ada, Grand Rapids)
Manufacturers National Bank	
of Grand Rapids	(Grand Rapids)
Michigan National Bank	(Ada, Grand Rapids)
NBD Grand Rapids	(Ada, Grand Rapids)
Standard Federal	(Grand Rapids)

IT WAS MOVED BY GREEN and seconded by HODGES to accept the designated depository banks and authorized signatures for bank accounts and access to the safety deposit box during the ensuing year as recommended

YEA: 5. NAY: 0. ABSENT: 0.

MOTION CARRIED.

Item #3. WESTSIDE WATER IMPROVEMENTS - PUB LIC HEARING ON THE CREATION OF THE SPECIAL ASSESSMENT DISTRICT AND ADOPTION OF RESO-LUTION DETERMINING TO MAKE IMPROVEMENTS. John LeFevre, an engineer with Fishbeck, Thompson, Carr and Huber and City Attorney Richard Wendt were present to receive comments on the creation of a special assessment district for water improvements on West Main, Gee Drive and Alden Nash. LeFevre explained that in 1988, Fishbeck completed a water system reliability study which had several recommendations for the City's water system including additional storage capacity and fire protection capabilities. He mentioned that the westside project is a continuing step of implementing more of the original recommendations. The overall project includes extension of water main from Ridgeview Dr. west along M-21 on both sides of the street to the City Limits. Mains will continue from M-21 to Ridgeview Dr. to Gee Drive, where an 800,000 gallon ground level storage tank will be constructed. This tank would be utilized to provide fire protection storage for the westside system. Also, a booster pumping station will be built to increase pressure and improve the reliability of the overall system. Property owners would benefit from the water system as identified and a special assessment roll has been proposed.

The project would provide residents in the assessment district four options of payment: 1) Not to hook up, but pay the special assessment in one lump sum 2) Not to hook up, but spread the assessment over a 20 year period 3) To hook up to the system and pay the special assessment in one lump sum 4) To hook up to the system but spread the assessment over a 20 year

City limits.

Don Fizer, owner of Michigan Wire, guestioned why the City would install water mains without sewer on the westside. He felt to have the water mains there by itself is a waste

Councilmember Thompson said safety was a main concern. If there was a severe fire on the west side, the City would not be able to handle a disaster. It is a safety issue whether there is a new school or not. Todd Landman, 2399 W. Main, guestioned what percentage of the cost is the actual pipe and that pertaining to excavating and research. LeFevre responded the material costs amount to approximately 35 - 40% with excavating estimated at 65%. Landman guestioned how much additional cost would be involved to install a sewer line along with the water main. He said the cost of excavating will continue to increase each year. LeFevre explained installing sewer systems are much more involved. The engineering and planning is much more complex unless the service area is determined. Additionally, the water and sewer mains are placed in separate trenches and would be difficult to build simultaneously. Patrick Hoag, 2309 Gee Dr., said he had installed two wells. However, he questioned the amount of pressure under the new system. LeFevre responded that a pressure-reducing valve for Hoag's property could be installed to reduce the pressure from 110 pounds to 50 or 60. The cost would be included in the customers readiness to serve or meter cost. This would not be a direct cost to the property owner. McGrew, 755 Alden Nash, felt he was being penalized for the advancement of water for the township and

school. Mayor Maatman said in 1986 the City considered a westside water project and then delayed it. He agreed that the school afforded an opportunity to take a closer look at the project. Maatman said that the project had to

Should any customers have questions regarding this project, or proper addressing for automation, Taylor may be reached at (616) 897-9949.

Stan Krzykwa, 2250 W. Main, guestioned the need of having to run two mains along M-21. LeFevre responded on M-21 individual service leads from the main cannot go across the road perpendicular to each property. By having two mains, any problems in the future can be remedied without shutting traffic down along M-21.

Krzykwa further questioned if the assessment could be extended over 20 years. Wendt explained in this case. the City has already extended the assessment an additional 5 years. He said that to finance these costs the City has to borrow. The longer period of time for borrowing, the higher the interest rate and more interest being paid. Ursula Mahan, 12035 Gee Dr., guestioned if there were plans to construct the sewer at this time. LeFevre responded there is no construction benefit to installing water and sewer simultaneously. By law, the pipes need 10' of separation and cannot be constructed in the same trench. LeFevre explained typically a sewer main is 8' to 15' deep; where a water main has a 5' to 6' depth.

Robert McGrew, 755 Alden Nash, questioned if the water main north of Gee Dr. could be extended to service the new high school. LeFevre responded the City is only providing raw water at a rate to the township. The storage tank is providing part of the City's project and will give added capacity for fire protection for all within the

Judge gives Lawrence life sentence without parole

By Thad Kraus Lowell Ledger Editor

Antonio Lawrence, a 22year-old Saginaw man, a paroled felon, and the man who pulled the trigger in the shooting death of Lowell's Suzanne Timpson-Wittenbach was sentenced to a life term without parole by Kent County Circuit Judge Suzanne Timpson-Wittenbach George Buth.

Timpson.

be done whether the school was involved or not. City Manager Pasquale said two letters were received from residents (Maureen Lombardo, 2400 W. Main and Jon Graber, 825 Alden Nash) expressing their concerns regarding the proposed assessment.

IT WAS MOVED BY HODGES and seconded by TH-OMPSON to adopt the resolution determining to make the westside water improvements, approving the estimated costs (\$197,655), the portion to be paid by special assessment (total estimate of cost to be paid by property owners), number of installments (payable up to 20 years), interest rate (1% above the average or 7% if bonds are not issued) and to direct to the City Manager to prepare the roll.

YEA: 5. NAY: 0. ABSENT: 0. MOTION CARRIED

Item #4 RESOLUTIONS OF INTENT TO ISSUE SPE-CIAL ASSESSMENT AND WATER REVENUE BONDS WITH THE MICHIGAN DEPARTMENT OF TREASURY. City Attorney Richard Wendt said resolutions of intent to issue bonds for the westside water improvements project must be adopted by the Council and forwarded to the Michigan Department of Treasury. The bonds involve a special assessment (\$250,000 maximum) and revenue (\$1,500,000 maximum) issues.

IT WAS MOVED BY GREEN and seconded by SHORES to adopt the resolution of intent to issue special assess ment and water revenue bonds with the Michigan Department of Treasury.

YEA: 5. NAY: 0. ABSENT: 0. MOTION CARRIED.

Item #5. GRAND RAPIDS COMMUNITY COLLEGE COLLECTION OF SUMMER TAXES FOR 1994. City Manager Pasquale explained, that as in previous years, the Grand Rapids Community College requested that the City collect the district's summer property taxes. As part of a continuous resolution, the City collects the GRCC's property taxes at no fee but is able to keep the interest earned during the bank deposit before distributing these monies to the Community College.

IT WAS MOVED BY THOMPSON and seconded by GREEN to approve the continuing resolution to collect the Grand Rapids Community College summer taxes for 1994.

YEA: 5. NAY: 0. ABSENT: 0. MOTION CARRIED.

Item #6. GENERAL FUND TRANSFERS TO STREET FUNDS. As stated in a memo by City Treasurer/Finance Director Judy Noonon, the Michigan Department of Transportation has indicated that administrative expenses in funding could be utilized for the sidewalk program. the Street Funds may not exceed 10% of the Michigan Transportation (Public Act 51) Funds revenue received from the State. When administrative expenses exceed this 10% allocation, a local contribution must be provided for sidewalk. Further, he questioned if he will be required to cover the excess.

Further, when Local Street funds are used for construction purposes, 50% of the construction cost must come Dr. is considered low priority for sidewalks. from local contributions.

Noonon stated that in order to remedy the situation transfers be made from the General Fund in the amount of \$12,000 to the Local Street Fund and \$7,400 to the Major Street Fund.

IT WAS MOVED BY THOMPSON and seconded by City Attorney Richard Wendt said the City could have the HODGES that transfers be made from the General Fund building torn down and place the cost as a lien on the in the amount of \$12,000 to the Local Street Fund and property \$7,400 to the Major Street Fund in order to comply with Pasquale said the Downtown Development Authority State Act 51 which requires that administrative expendihas considered utilizing funds to demolish the building. tures not exceed 10% of the Transportation Fund Wendt added that there are no doubt a number of allocation received from the State of Michigan and that ordinance and code violations to the property and charges only 50% of Local Street construction costs may be paid could be brought for the violation of the code. from State Transportation Fund allocations. Pasquale said a building permit valid for one year has YEA: 5. been issued for repairing the floor. He will discuss the NAY: 0.

ANTIOXIDANTS

Several recent studies have shown that vitamin supplements or a diet rich in the antioxidants vitamin C, vitamin E and beta carotene may reduce the risk of cancer, cardiovascular disease or cataracts.

During normal function, our cells form free radicals, molecules that are damaged. These free radicals can damage certain cells in our body. Eventually, as cell damage continues, it can contribute to certain disease processes like atherosclerosis and heart disease. It is thought that antioxidant vitamins in our diet may impede this damaging process.

Scientists have show that a cholesterol fraction (LDL) can damage the lining of the artery when it becomes oxidized. Vitamin C, vitamin E and beta carotene may help protect LDL from becoming oxidized and in turn, decreasing arterial wall damage.

Two recent studies have show that individuals that had

TOWNSHIP OF VERGENNES **ORDINANCE NUMBER 94-1**

basic rates relating to cable television and associated equipment

THE TOWNSHIP OF VERGENNES ORDAINS:

Definitions

Sec. 1. For purposes of this Ordinance, 'Act' shall mean the Communications Act of 1934, as amended (and specifically as amended by the Cable Television Consumer Protection and Competition Act of 1992, Pub. L. 102-385), and as may be amended from time to time; 'FCC' shall mean the Federal Communications Commission; 'FCC Rules' shall mean all rules of the FCC promulgated from time to time pursuant to the Act; 'Basic Cable Service' shall mean 'Basic Service' as defined in the FCC Rules, and any other cable television service which is subject to rate regulation by the Township pursuant to the Act and the FCC Rules; 'Associated Equipment' shall mean all equipment and services subject to regulation pursuant to 47 CFR 76.923; and an 'Increase' in rates shall mean an increase in rates or a decrease in programming or customer services. All other words and phrases used in this Ordinance shall have the Sec. 5. same meaning as defined in the Act and FCC Rules.

Purpose; Interpretation.

Sec. 2. The purpose of this Ordinance is to: 1) adopt regulations consistent with the Act and the FCC Rules with respect to basic cable service rate regulation, and 2) prescribe procedures to provide a reasonable opportunity for consideration of the views of interested parties in connection with basic cable service rate regulation by the Township. This Ordinance shall be implemented and interpreted consistent with the Act and FCC Rules.

Rate Regulations Promulgated by FCC.

Sec. 3. In connection with the regulation of rates for basic cable service and associated equipment, the Township of Vergennes shall follow all FCC Rules.

Filing; Additional Information, Burden of Proof.

Sec. 4A. A cable operator shall submit its schedule of rates for the basic service tier and associated equipment or a proposed increase in such rates in accordance with the Act and the FCC Rules. The cable operator shall include as part of its submission such information as is necessary to show that its schedule of rates or its proposed increase in rates complies with the Act and the FCC Rules. The cable operator shall file ten (10) copies

of the schedule or proposed increase with the Township operator that submitted the information as to the dispo Clerk. For purposes of This Ordinance, the filing of the sition of the request. It may grant, deny or condition a cable operator shall be deemed to have been made request. The requesting party or the cable operator may An Ordinance to adopt regulations and procedures for when at least ten (10) copies have been received by the seek review of the decision by filing an appeal with any Township Clerk. The Township Board may, by resolution appropriate forum. Disclosure will be stayed pending or otherwise, adopt rules and regulations prescribing the resolution of any appeal. information, data and calculations which must be in- C. The procedures set forth in this section shall be cluded as part of the cable operator's filing of the schedule of rates or a proposed increase.

> B. In addition to information and data required by rules and regulations f the Township pursuant to Section 4A above, a cable operator shall provide all information requested by the Township Supervisor in connection with the Township's review and regulation of existing rates for the basic service tier and associated equipment or a proposed increase in these rates. The Township Supervisor may establish deadlines for submission of the requested information and the cable operator shall comply with such deadlines.

> C. A cable operator has the burden of proving that its schedule of rates for the basic service tier and associated equipment or a proposed increase in such rates complies with the Act and the FCC Rules including, without limitation, 47 USC 543 and 47 CFR 76.922 and 76.923.

Proprietary Information.

A. If this Ordinance, any rules of regulations adopted by the Township pursuant to Section 4A, or any request for information pursuant to Section 4B requires the production of proprietary information, the cable operator shall produce the information. However, at the time the allegedly proprietary information is submitted, a cable operator may request that specific, identified portions of its response be treated as confidential and withheld from public disclosure. The request must state the reason why the information should be treated as proprietary and the facts that support those reasons. The request for confidentiality will be granted if the Township determines that the preponderance of the evidence shows that nondisclosure is consistent with the provisions of the Freedom of Information Act, 5 USC 552. The Township shall place in a public file for inspection any decision that results in information being withheld. If the cable operator requests confidentiality and the request is denied, (1) where the cable operator is proposing a rate increase, it may withdraw the proposal, in which case the allegedly proprietary information will be returned to it; or (2) the cable operator may seek review within five (5) working days of the denial in any appropriate forum. Release of the information will be stayed pending review. B. Any interested party may file a request to inspect

material withheld as proprietary with the Township. The Township shall weigh the policy considerations favoring nondisclosure against the reasons cited for permitting inspection in light of the facts of the particular case. It will then promptly notify the requesting entity and the cable

construed as analogous to and consistent with the rules of the FCC regarding requests for confidentiality including, without limitation, 47 CFR 0.459.

Public Notice: Initial Review of Rates.

Sec. 6. Upon the filing of ten (10) copies of the schedule of rates or the proposed increase in rates pursuant to Section 4A above, the Township Clerk shall publish a public notice in a newspaper of general circulation in the Township which shall state that: 1) the filing has been received by the Township Clerk and (except those parts which may be withheld as proprietary) is available for public inspection and copying, and 2) interested parties are encouraged to submit written comments on the filing to the Township Clerk not later than seven (7) days after the public notice is published. The Township Clerk shall give notice to the cable operator of the date, time, and place of the meeting at which the Township Board shall first consider the schedule of rates or the proposed increase. This notice shall be mailed by first-class mail at least three (3) days before the meeting. In addition, if a written staff or consultant's report on the schedule of rates or the proposed increase is prepared for consider ation of the Township Board, then the Township Clerk shall mail a copy of the report by first-class mail to the cable operator at least three (3) days before the meeting at which the Township Board shall first consider the schedule of rates or the proposed increase.

Tolling Order.

Sec. 7. After a cable operator has filed its existing schedule of rates or a proposed increase in these rates, the existing schedule of rates will remain in effect or the proposed increase in rates will become effective after thirty (30) days from the date of filing under Section 4 above unless the Township Board (or other properly authorized body or official) tolls the thirty (30) day deadline pursuant to 47 CFR 76.933 by issuing a brief written order, by resolution or otherwise, within thirty (30) days of the date of filing. The Township Board may toll the thirty (30) day deadline for an additional 90 days in cases not involving cost-of-service showings and for an additional 150 days in cases involving cost-of-service showings.

Send It Back:

Board views ordinance as too restrictive

By Marc Popiolek Contributing Writer

Board rejected the planning commission's new Light Industry ordinance Monday night, saying it was "just too restrictive."

Township clerk Carol Wells says the board came to that decision after consulting their lawyer.

"Our lawyer says this ordinance is not in the best interest of the township because it is too restrictive," said Wells. "If we accept this, we could end up in court."

She went on to explain that if an ordinance is too restrictive, it can prevent devel opment. In preventing development, a township can be taken to court.

The board feels that not only is the new Light Industrial ordinance restrictive, but it just repeats the standards set in the Planned Urban Devel opment ordinance.

"We don't need two ordinances that just repeat the same set of rules," said Wells

The planning commission one which offers little conadopted the ordinance in an trol. effort to give smaller devel-The Lowell Township opers a chance to develop in proached this board and the area and to straighten its current Light Industrial ordinance.

> commission secretary David and I don't think anybody Simmonds, the new ordinance wants that," said Simmonds would give the township more control over light industrial developers because it does not have a lawyer review the curoffer any variances like the rentLightIndustrialordinance PUD ordinance.

nance would replace the old the board will look to fix them.

"If a developer apwanted to develop under the current Light Industrial ordinance, the township could According to planning have no control in the matter,

Wells says the board will to find its weak spots. Once He also said the new ordi- the weak spots are determined,

existing rates for the basic service tier and associated equipment or a proposed increase in these rates, the accounting pursuant to 47 CFR 76.933. The order specicable operator shall submit to the Township any addi- fied in this Section shall be issued within 90 days after the tional information required or requested pursuant to Section 4 of this Ordinance. In addition, the Township Board shall hold a public hearing to consider the comments of interested parties within the additional 90 day or 150 day period, as the case may be. The Township Clerk shall publish a public notice of the public hearing in a Refunds; Notice. newspaper of general circulation within the Township which shall state: 1) the date, time, and place at which the hearing shall be held, 2) interested parties may appear in person, by agent, or by letter at such hearing to submit comments on or objections to the existing rates or the proposed increase in rates, and 3) copies of the schedule of rates or the proposed increase in rates and related information (except those parts which may be withheld as proprietary) are available for inspection or copying from the office of the Clerk. The public notice shall be published not less than fifteen (I5) days before the hearing. In addition, the Township Clerk shall mail by first-class mail a copy of the public notice to the cable operator not less than fifteen (15) days before the hear ing.

Staff or Consultant Report; Written Response.

Sec. 9. Following the public hearing, the Township Supervisor shall cause a report to be prepared for the Township Board which shall (based on the filing of the cable operator, the comments or objections of interested parties, information requested from the cable operator and its response, staff or consultant's review, and other appropriate information) include a recommendation for the decision of the Township Board pursuant to Section 10. The Township Clerk shall mail a copy of the report to the cable operator by first-class mail not less than twenty (20) days before the Township Board acts under Section 10. The cable operator may file a written response to the report with the Township Clerk. If at least ten (10) copies of the response are filed by the cable operator with the Township Clerk within ten (10) days after the report is mailed to the cable operator, the Township Clerk shall forward it to the Township Board.

Rate Decisions and Orders.

Sec. 10. The Township Board shall issue a written order by resolution or otherwise, which in whole or in part, approves the existing rates for basic cable service and associated equipment or a proposed increase in such rates, denies the existing rates or proposed increase, orders a rate reduction, prescribes a reasonable rate, allows the existing rates or proposed increase to become effective subject to refund, or orders other appropriate relief, in accordance with the FCC Rules. If the Township Board issues an order allowing the existing rates or Sec. 15. In addition to the requirements of this Ordi-

Section 7 and 47 CFR 76.933 to toll the effective date of proposed increase to become effective subject to refund, it shall also direct the cable operator to maintain an hearings upon such reasonable notice as the Township tolling order under Section 7 in all cases not involving a Additional Powers. cost-of-service showing. Johnston's C.A.D. program targets those dodging support payments

By Thad Kraus Lowell Ledger Editor

Frustration and anger with the judicial system and its inability to enforce child support from a non-custodial parent were the impetus for Sandee Johnston, founder of Children Against Deadbeat Parents, to lead in the fight against those who have failed to pay child support.

"Right now in the state of Michigan, \$2.6 billion are owed in back child support," Johnston said. "Anybody who pays taxes is affected. Many

to go on welfare if the absent back and live with the current such as help close the loop hours a week until they are ing child-support neglect are parent would assume his/her situation." responsibility for their chil-

those rates.

TO THE LOWELL COMMUNITY

The spirit of this article is to present factual information as it relates to the Lowell Area Schools' Technology Plan. It is our intent that the information contained in this article will serve to properly inform our school community. We are excited to provide this information as it relates to the advancement of our students' education today and in the future.

Some factual information:

- * The state of Michigan has developed a technology plan for 1992-1997 which recommends "at a minimum, every classroom at an educational institution including teacher preparation programs, should be equipped with a telephone line, computer, videodisc player, videocassette recorder, and television/monitor."
- * The Lowell Area Schools' Technology Committee has developed a technology package which implements each of the areas mentioned above. It would be inadvisable and short-sighted for this district to overemphasize one area of technology at the expense of reducing or deleting another equally important area.
- * The technology committee is composed of dedicated and informed community members, parents, teachers from all building levels, and school administrators.
- * The technology committee had its first meeting May 23, 1991. Since that time, committee members visited at least twelve other school districts to gather ideas and recommendations.
- * Members of the committee also attended local, regional, and statewide in-services which increased their ability to create a complete plan incorporating all areas of technology.
- * The technology committee, under the guidance of a professional consultant, developed the long-range educational technology plan which will benefit all members of the Lowell Area Schools.
- * A comprehensive K-12 computer curriculum was adopted by the board of education in May of

* 206 computers are available for student use throughout the district as of January 14, 1994. This is a ratio of 1:16

* At least \$473,000 from the bond issue will be spent on new computer technology and media center services. *The high school computer curriculum currently consists of the following:

CLASS TITLE **Computerized Accounting** Computer Literacy (Word Processing, Spreadsheet, and Database) Computer Programming Word Processing

SOFTWARE Lotus 1-2-3 MicroSoft Works

BASIC, Adv. BASIC, and PASCAL WordPerfect

*Additional software being used in other curricular areas includes: Media Center

> Social Studies **Technology Education**

InfoTrac TOM (magazine retrieval) Appleworks & various simulations MicroSoft Works & Novell Network WordPerfect, MicroSoft Windows, MicroSoft Works, CD-ROM & various simulations

The voice/video/data system will provide the Lowell Schools opportunities to:

- * insure student and staff safety by allowing immediate contact with office staff or emergency personnel (911, fire, police, etc.) from any point in the building.
- * improve student speaking skills via recording and/or broadcasting student speeches, reports, and oral presentations.
- * create interactive teaching stations between classrooms. For example, one dissection lab can be broadcast to four separate biology classrooms. Special guest speakers can be viewed by all classrooms simultaneously.
- * enhance traditional teaching by supplementing lessons with video presentations and simulations
- * meet the needs of students whose learning styles require information to be presented visually
- and/or auditorially.
- * allow accelerated enrichment activities for academically talented students. * increase the student contact time with media specialists and teachers by reducing time spent
- scheduling and delivering video systems throughout the buildings.
- * improve home-school communications with greater access to phone lines. * connect all information systems such as clocks, bells, public address system, attendance and grading records, announcements, and Homework Hotline.

FMB State Savings Bank "Employee of the Month"

SUE FORD

The January 1994 FMB State Savings Bank "Employee of the Month" is Sue Ford. Sue has been a bank employee for 61/2 years and works as a drive-in teller. When asked about her job at the bank, she replied, "I am working on my seventh year at FMB and I am still enjoying my job very much. I have been blessed so much because it is so close to my home, school, and FMB is very understanding about family responsibilities. This job has been good for me personally. I lived in Lowell for eight years and knew only a few people, and now I have made a lot of new friends. There are a lot of things I like about my job. I have great customers and co-workers. We have a lot of fun in the drive-in, and for me it's the best place to work in the bank. As a matter of fact, sometimes we have so much fun at work, I almost feel guilty, but who said work couldn't be fun?"

When not at work, Sue spends her time with her husband, Pat & two sons. She enjoys reading & being involved with church and New Life Christian Fellowship. She also serves on the Vergennes Historic District Committee.

Congratulations Sue Ford, January Employee of the Month.

TOWNSHIP OF BOWNE

NOTICE OF PUBLIC HEARING PROPOSED ZONING ORDINANCE TEXT AND MAP AMENDMENTS

Notice is hereby given that the Bowne Township Planning Commission shall hold a public hearing to hear citizens' comments regarding proposed text and map amendments to the Bowne Township Zoning Ordinance. The public hearing shall be held on February 10, 1994, at 7:30 p.m., at the Historic Township Hall, 8240 Alden Nash, Alto, MI. All interested persons are invited to attend.

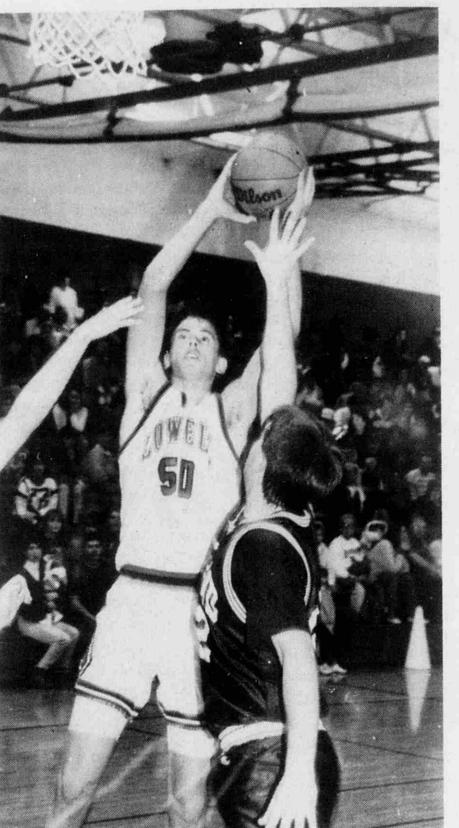

The proposed text amendments include revisions to the following sections:

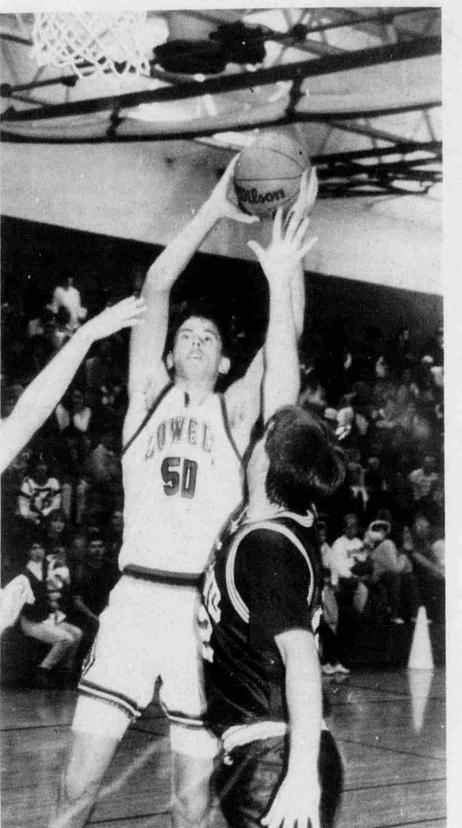

3.31 (F) (G) (J) Roads - Private

The proposed amendments to the zoning map would rezone approximately 20 acres of land in the vicinity of Lowell Engineering, Inc., lying generally south of the C & O Railroad and west of Bancroft Avenue (see below) from Urban Residential (U-R) and Rural Residential (R-R) to Light Industrial (L-I), a portion of which is already zoned L-1 Industrial. The area to be rezoned is more fully described as beina:

That Part of the North 1/2 of the Northwest 1/4 of Section 4, Town 5 North, Range 9 West, Bowne Township, Kent County, Michigan, and also part of the Plat of the Village of Alto, as recorded in Liber 12 of Plats, Page 18, Kent County Records, described as: Commencing at the North 1/4 corner of said Section 4; thence South 00°09' 50" West 851.96 feet along the North & South 1/4 line of said section to the southerly right-of-way of the Chesapeake and Ohio Railroad and the Point of Beginning; thence Northwesterly 1382.11 feet along said right-of-way line; thence South 00°11'15" East 846.09 feet to the south line of said North 1/2 of the NW 1 4 off said Section 4; thence South 87°56'45" East 1189.60 feet along said south line of the North 1/2 of the NW 1/4 to a point that is 165.0 feet North 87°56'45" West from the North & South 1/4 line of said Section 4; thence North 00°09'50" East 371.0 feet parallel with said North & South 1/4 line; thence North 87°56'45" West 125.0 feet. thence North 00°09'50" East 113.0 feet; thence South 87°56'45" East 29.0 feet to said North & South 1/4 line; thence North 00°09'50" East 156.51 feet along said North & South 1/4 line to the place of beginning. Containing 20.90 acres.

The proposed zoning amendments may be examined at the Bowne Township Hall, 6059 Linfield, Alto, MI 49302 between the hours of 9 a.m. and 4 p.m. Wednesday and Friday, telephone number is 616/868-6846.

Marked improvement in all **Slow finish** stifles Lowell in loss to Sparta

By Thad Kraus Lowell Ledger Editor

Lowell girls' volleyball eam started slow and finished strong against Saranac.

The opposite can be said of its conference opener against Sparta. The Red Arrows got out of the gate fast, but struggled to go the distance.

Sparta rallied from a 15-9 first-game defeat to pames two and three, 15-12, 5-4

"Sparta controlled the tempo in games two and three," Lowell coach Laurie Kuna said. "Our girls were just never able to make the idjustment.

Lowell's Kerry Nugent had a game-high 14 assists. Terry Harmon added six kills and Courtney Arnett tallied an ace.

"We came out and played like we did in Saranac in game one,",Kuna said. "Sparta then began to dump the ball back over the net which helped them control the tempo."

The Lowell coach was expecting more from her Red Arrows in their opening league match." In game three, nobody was talking; everybody was standing around. It got pretty ugly," Kuna said.

Sparta's Jenny Siegel led the Spartans in kills with nine and in aces with four. Lonni Matzen recorded a team-high nine assists.

Lowell will play host to East Grand Rapids on Thurs-

The Pioneers were shutout in their league opener by Zeeland 15-0, 15-0.

Water tank and lines progress on schedule; bonds to be sold in March

By Marc Popiolek Contributing Writer

Work is under way to construct a new 500-gallon water tank needed for the new high school and construction of the water line is not far behind.

Currently, the road is being graded to put in an access oad, and the Kent County Road Commission, is reviewing the townships maps for the project.

The township has decided to bypass Thomas Karp's property at the corner of Foreman Rd. and Cumberland Dr. in order to speed up the process.

hoped to run the water line through his property and into 1. Eastgate Village. However, Karp could not work out an agreement with the township

An argument needs no reason, nor a friendship.

to develop his land in return for granting the easement.

Karp presented his plans, at a public hearing to the planning commission June 23, but it was met with opposition from surrounding residents. The township has not heard from him with regards to what he wanted to do next.

Instead of running through the Karp property the water line will run from Foreman Rd. to Cumberland Dr.. It will follow Cumberland Dr. and then down into Eastgate Vil-

The township will issue bonds beginning in March and will accept bids on them in Initially the township April. Actual construction of the line is slated to begin May

Lowell Area Schools **Transportation Schedule**

The following changes in this year's transportation schedule will be made starting January 24, 1994. Please read the following route descriptions carefully. Many of the bus runs will remain the same with only the time changing (Buses will be running one (1) hour earlier). Students are required to be at their stop 5 minutes ahead of the time listed. ANY QUESTIONS CALL 897-9353.

··· IMPORTANT ABBREVIATIONS/CODING···

Numbers/ names underlined indicate where bus stops are located TA = turn around (indicates bus turns around)

!!!NO EXTRA RIDER POLICY!!!

Lowell Area School's "No Extra Rider Policy" will be strictly enforced. Due to fewer buses on the road many of our buses will be at maximum capacity. Extra riders will be allowed only in an emergency. If there is an emergency, parents must call the Transportation Dept. at 897-9353. Notes will not be accepted.

Baby Sitting...Baby Sitting Forms must be on file in the Transportation Office before students can be picked up and/or dropped of at an address other than home...Also, anyone with openings in their daycare, please call the garage at 897-9353 and let us know. We will inform parents as needed.

St. Patrick Students The bus to St. Patrick will leave the High School at 7:30 A.M. It will drop students at school at about 8:15. A bus will pick up at St. Patrick's at 2:55 p.m. and go to Bushnell for transportation home on Elementary buses.

St. Mary's Students Students will be picked up on the Elementary Runs to start school at 8:45 A.M. At dismissal, students will walk to Bushnell to ride home on Elementary buses.

PROTECTING OUR WILDLIFE Wetlands Conservation Saves Wildlife

(NAPS)-Making a splash with many Americans concerned about saving wildlife-as well as our health and our economy-is a plan to preserve our wetlands.

Wetlands-marshes and swamps-are the single most productive source of life on earth, ecologists agree. Perhaps no other single natural resource provides us with so many

 Cleaner water in lakes and rivers.

benefits:

 Drinking water, groundwater.

flooding and soil erosion. Commercial and recreational swimming. and other outdoor sports. • Habitat for 600 wildlife species, many

endangered. past 200 years, laws and policies which encouraged filling and draining wetland areas caused the destruction of more than 100 million acres of wetlands in the U.S. Wildlife waterfowl, have diminished as wetlands have

· In California's Sacramento Valley, Private Lands biologists are working with rice farmers to demonstrate how flooding techniques will help them comply with new state environmental laws. To demonstrate an effective alternative to burning remaining crop stubble. Ducks Unlimited helped build a "rice roller" to flatnumbers, especially to the farmer. Successful ten rice stems into the mud after harvest. The group also assisted with the timing, duration and Federal and state gov- leave ranchers with depth specifications to flood the rice fields during growing season. Winter flooding decomposes the rice stubble and at the same time creates needed
